SAT® Vocab 800: making SAT vocabulary acquisition effective and engaging¹. SAT Vocab 800 contains 800 of the most common words used in the SAT Critical Reading section. The lessons have a pre-test, definitions containing the primary and secondary meanings of the word, and 3 reinforcement activities. At the end of each chapter is a final exam along with a fill-in-the-blank essay.

'Pictures Series' are the remarkable invention of I A Richards and Christine Gibson, who designed them to help the learner speak, read and write English in the quickest and clearest possible way -- through pictures. The authors have made a careful selection of the most widely useful English words, choosing those with the power to define other words, and have put them to work in key patterns that offer the learner the ability to communicate successfully in English. Book 1 contains a vocabulary of 250 such words, with an additional 500 developed in Book 2; these 750 words are then used in Book 3 to build a command of 1000 words which, by their defining power, hold the possibility of understanding as much as another 20,000 words of English. Throughout 'English Through Pictures', responsibility for learning is placed directly on the learner, who from the very start enjoys the ability to put essential words to work creating key sentence patterns where meaning is clearly shown in pictures. These simplified drawings allow learners to focus on the sentence and to enjoy growing confidence as they successfully take control of language, with the workbooks in Books 1 and 2 challenging and reinforcing their growing competence as both speakers and readers. Motivated and inspired, learners will soon find to their delight that fluent communication in English -- the common language of today's world -- lies well within their grasp. 'English Through Pictures' has already been used successfully by millions of learners in over forty countries.

How Long Does it Take to Complete? On average, it takes individuals 3-5 hours per week for 15 weeks to complete the Spanish for Nurses course.

What Level of Spanish is Needed to Take the Course? The course has been created for currently active Nurses as well as those studying to be nurses with little to no knowledge of Spanish. However, individuals who have taken a year or two of Spanish in High School or College will still greatly benefit from the course.

How Many Words and Phrases Will I Learn? There are over 350 words and phrases that are contained in the following sections of the medical Spanish for Nurses course: (1) Greetings (2 Chapters)(2) Negotiating a Conversation (1 Chapter)(3) Common Nurse Phrases (2 Chapters)(4) What is Your Name? (1 Chapter)(5) Do you speak English? (2 Chapters)(6) Basic Anatomy and Key Phrases (7 Chapters)(7) Where are you from? The order, of the questions and answers, is changed every time and it is a timed test. There is not enough time given for learners to look up the questions. They have to know them well before taking the exam or they will not pass. The certification

exam costs \$100, but the exam prep course is free with the purchase of this textbook (see above). In the exam prep lessons, a practice exam can be taken unlimited times to prepare for the final exam. The Theories Behind the Course This course was designed based on many pedagogical (learning) and neuroscience (brain science) theories that the author studied in-depth during his Master's degree in Language Pedagogy and throughout his career as Director of the U.S. Institute of Languages. Negotiating a Conversation The approach this course uses recognizes that it takes new Spanish speakers years to become fluent. However, if a nurse learns the medical vocabulary and strategies to properly negotiate a conversation, (s)he can learn to work through virtually any situation in a relatively short period of time. For example, if a patient says something a nurse doesn't understand, the nurse can ask them to repeat it or say it slower. If a nurse doesn't know how to say something, (s)he can point to it and ask ¿Cómo se dice? (How do you say that.) These and many other techniques that are taught to help a nurse work through new situations. Use of Technology The use of technology can be very helpful to get through tricky situations. However, if a nurse only uses technology, this provides a poor patient experience and demonstrates poor bedside manner. Also, if only technology is used, body language and gestures are missed and the meaning can be misinterpreted. It is recommended that the nurse continue learning as much as possible using this course and software, then use technology to fill in the gap.
