How sampling remade hip-hop over forty years, from pioneering superstar Grandmaster Flash through crate-digging preservationist and innovator Madlib

Sampling—incorporating found sound and manipulating it into another form entirely—has done more than any musical movement in the twentieth century to maintain a continuum of popular music as a living document and, in the process, has become one of the most successful (and commercial) strains of postmodern art. *Bring That Beat Back* traces the development of this transformative pop-cultural practice from its origins in the turntable-manning, record-spinning hip-hop DJs of 1970s New York through forty years of musical innovation and reinvention. Nate Patrin tells the story of how sampling built hip-hop through the lens of four pivotal artists: Grandmaster Flash as the popular face of the music's DJ-born beginnings; Prince Paul as an early champion of sampling's potential to elaborate on and rewrite music history; Dr. Dre as the superstar who personified the rise of a stylistically distinct regional sound while blurring the lines between sampling and composition; and Madlib as the underground experimentalist and record-collector antiquarian who constantly broke the rules of what the mainstream expected from hip-hop. From these four

artists' histories, and the stories of the people who collaborated, competed, and evolved with them, Patrin crafts a deeply informed, eminently readable account of a facet of pop music as complex as it is commonly underestimated: the aesthetic and reconstructive power of one of the most revelatory forms of popular culture to emerge from postwar twentieth-century America. And you can nod your head to it.

Kimberly Fletcher, president/founder of Homemakers for America, former Vice President of the Dayton, Ohio Tea Party, and executive director of the Abigail Adams Project, offers her perspective on current politics.

This series combines all four volumes while candidly exploring the devastating effects of Western civilization on African Americans. Offering suggestions to correct the dehumanization of African American children, this series tells how to ensure that African American boys grow up to be strong, committed, and responsible African American men.

Derided as one-hit wonders, estranged from their original producer and record label, and in self-imposed exile in Los Angeles, the Beastie Boys were written off by most observers before even beginning to record their second album—an embarrassing commercial flop that should have ruined the group's career. But not only did Paul's Boutique eventually transform the Beasties from a frat-boy novelty to hip-hop giants, its sample-happy, retro aesthetic changed popular culture forever.

Introduction, pages 9-10 Every life has a story. This is mine. I am not a famous athlete or a movie star. I am not a head-liner musician. What I am is seen only on Sunday morning, when people sit in church. I am the music worship leader, but the people didn't see the real me. I was a confused, frustrated, angry and depressed person with low-self esteem, a negative and defeated attitude, and a victim-failure mindset. I was in financial bondage. I carried this emotional baggage with me into my fifties. I lugged it around while I was in paid music ministry in local churches... Like millions of Christians, I was raised in a Christian home with a particular set of beliefs and values that was to be accepted, not challenged. My false belief system, combined with some experiences, hurt me more than helped me, and I am to some degree still paying the consequences. CHAPTER 7, Page 59 The most compelling situation in my life was finding out why, especially as a Christian, I had all of these problems..another compelling factor was how all of this was affecting my family life. I knew it was not supposed to be like it was, and was afraid of the potential negative consequences...everything in my life was just the opposite of what my belief system told me it should be. I either needed to change my beliefs or find out why mine weren't working...Furthermore, my negative strongholds

had become traps. **BACK COVER** This book is for professing Christians who sit in church, looking and acting like everything is okay, when they know it is not. The author speaks from personal experience of wearing an "emotional mask" for 25 years, during which time he was a minister of music in churches, while he struggled with anger, low self-esteem, depression, a defeated attitude, and codependency. This is a biblically-based, self-help recovery book. The author talks about the confusion caused by Scripture taken out of context and religious phrases void of meaning. The book addresses the benefits of Christian counseling, the practical and healing process of recovery, and how to fulfill one's potential and live a life of spiritual victory. Practical steps are given for overcoming anger, low self-esteem, a negative attitude, and codependency. The author tells how a person can make a choice to be happy, and how to develop a disciplined thought life. The book is based on Corinthians 10:4-5, where it says to overcome strongholds by "taking every thought captive to obedience of Christ." You will also gain more awareness of how much wrong thinking from childhood and religious teaching can impact the present, and how self-esteem is important in experiencing God's best.

There's nothing better than a book you can't put down—or better yet, a book you'll never forget. This book puts the power of transformational reading into your hands. Jack Canfield, cocreator of the bestselling Chicken Soup for the Soul® series, and self-actualization pioneer Gay Hendricks have invited notable people to share personal stories of books that changed their lives. What book shaped their outlook and habits? Helped them navigate rough seas? Spurred them to satisfaction and success? The contributors include Dave Barry, Stephen Covey, Malachy McCourt, Jacquelyn Mitchard, Mark Victor Hansen, John Gray, Christiane Northrup, Bernie Siegel, Craig Newmark, Michael E. Gerber, Lou Holtz, and Pat Williams, to name just a few. Their richly varied stories are poignant, energizing, and entertaining. Author and actor Malachy McCourt tells how a tattered biography of Gandhi, stumbled on in his youth, offered a shining example of true humility—and planted the seeds that would help support his sobriety decades later.

Tracy gives you the motivation, techniques, and confidence to grab tough and urgent problems by the horns and solve them -- quickly, decisively, and completely. Crunch Point reveals Tracy's 21 proven ways to:

- * Take control of the situation
- * Stay calm and rational -- even in a crisis
- * Communicate clearly, constantly, and authoritatively with the key people around you -- the skill that can make all the difference between failure and success
- * Identify and remove all obstacles to resolving the problem
- * Deal with problems more effectively by handling them systematically instead of randomly or emotionally, as most people do
- * Develop unshakeable courage and super-high self-confidence
- * Generate cash flow when the crisis is financial in nature
- * Never lose focus on your customers, no matter how dire the situation may seem
- * Cut your losses, when necessary, and save time and money in the long run

Each chapter offers a selection of problem-solving strategies, complete with powerful action steps you can take regardless of the nature or size of the problem. It's inevitable: At some point, the you-know-what is sure to hit the fan. Dealing with a crisis may never be easy or pleasant, but with the universal problem-solving techniques presented in Crunch Point, you'll have the confidence and skills to rise above whatever comes your way -- and you'll be the one everyone calls "great under pressure."

On a sunny Saturday morning at Chicago's Simeon Career Academy back in 2010 at a Concerned Christian Men (CCM) Breakfast I was engaged in a stimulating personal conversation with the late Dr. William Lackland.

His insights “rocked my world.” That conversation eventually inspired me to write a book. This book! Dr. Lackland shared some of his university experiences with me. The dean advised him to enroll into several remedial courses including reading and math. The dean’s attitude conveyed his doubts about William’s ability to pass these courses, much less completing the university curriculum. Dr. Lackland refused to let this stranger deter him from earning his Ph.D., in Chemistry, no less. Listening to Dr. Lackland’s story whet my appetite for other successful African-American men’s stories. I had a strong suspicion that African-American men though different in many ways, are very much alike. Most Black men continue to be confronted by seemingly overwhelming odds, but WE persist. This realization motivated me to use our experiences with success to create a directory of African American men. I shared my directory idea with friends and asked them for help. It was my vision to make it a team project. I got no takers. Thus, I changed the idea from a directory to a book. Over several months I researched and read the literature about successful Black boys and men. I then created an online survey to be completed by a few African American men I know. The survey delved into their childhood, family, employment, profession, and the like. More than fifty men of color were sent the survey by email to complete. Thirteen of them completed the survey. I have worked and learned from time to time with most of these men. Thus, I have had personal experiences with each of them. I wanted to use successful African American men’s life experiences as a blueprint for Black boys and

young men who are striving to become successful. I want them to realize that the men that they are reading about were once boys just like them.

Award-winning journalist, First Lady of California, and bestselling author Maria Shriver offers young women a powerful book on how to put your greatest gifts and even your shortcomings to work for you as you begin the rest of your life. Graduating from high school is a big step for any girl. She is leaving her childhood behind and beginning the rest of her life. She is also leaving her mother's protective circle of love and guidance. One of the greatest gifts a mother can give her daughter at this pivotal moment in her life is good counsel. In *And One More Thing Before You Go...* Maria Shriver, bestselling author, acclaimed journalist, First Lady of California, and mother of two daughters, provides a loving and heartfelt guide for girls as they go off to college. Expanded from a speech given to her young friend Ally's graduating class, Maria writes as a wiser, more experienced girlfriend, but also as both the daughter of a mother whose advice she still seeks and as the mother of daughters for whom she wishes a fulfilling and happy life. In this stirring and inspiring guide, Maria talks to young women about how to find abundance and emotional richness, and how not to overlook life's most special gifts. Her ten rules—told in a witty and poignant anecdotal style—offer a firm grasp on what's really important in life. *And One More Thing Before You Go...* is a book that transcends age groups, a book that will make you laugh, cry, and open your eyes to a new way of looking at life. Unlike the media would have you believe, most black males find great value in education. They want to believe that they have a special gift and that they can make a difference in the world. The problem is that they have ill feelings about how society has deprived them of the most qualified teachers and the best ways to be engaged in their own education. As a consequence of repeatedly being marginalized, criticized, and put down by society and teachers, they do not feel motivated to attend school or to produce outstanding academic work. The Secrets for Motivating, Educating, and Lifting the Spirit of African American Males contains essays that center on how to help educators and parents to equip young black males with the drive necessary to craft fulfilling lives for themselves so they don't slip through the cracks in the educational system. "Historically, we are still dealing with what happens to the image of Black people in the minds of white people. A book like this helps to make certain that the information teachers provide to all students—regardless of their race—will help them understand that the history of this country has made generation after generation of black students see themselves as academically and socially inferior to white people. Most importantly, it's the teachers—not just black teachers, but all teachers—who have to understand the power they have to change the mindset of society. Changing how society thinks about Black people, particularly Black males, is a task teachers can truly accomplish because they have the power to create lesson plans that challenge how students think about

each other. For such lessons are important for changing the attitudes and beliefs of the entire community in which we live.” – REVEREND C.T. VIVIAN, A Pioneer of the Civil Rights Movement, Author, Educator, and a Close Friend of Reverend Dr. Martin Luther King, Jr. “This book provides a fresh perspective for understanding the problems associated with the education of Black males. As a minister, I have not encountered a project that gathers the collective wisdom of a group of over 20 Black male educators who are dedicated to helping the world save young Black males. When all their ideas come together, they are bound to create a storm of new thinking about how all of us can work together. As a spiritual leader, my role is to help young Black males understand that the same God that was in Dr. King is the same God that is in them. This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives. This book will help us, including those in the ministry, to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century.” –

This e-book, a collection of articles from Educational Leadership and other ASCD publications explores what it means to "support the whole child." In these articles, authors ponder the various meanings of support in the classroom, school, and community. This third in a four-book series exploring whole child education ends by emphasizing another maxim of good teaching: Hold high expectations for your students. Our authors agree: With the right supports, students are capable of doing more than even they think they can. As MacArthur award-winning educator Lisa Delpit reminds us—and as all research shows—there is no achievement gap at birth. In her long-awaited second book, Delpit presents a striking picture of the elements of contemporary public education that conspire against the prospects for poor children of color, creating a persistent gap in achievement during the school years that has eluded several decades of reform. Delpit's bestselling and paradigm-shifting first book, *Other People's Children*, focused on cultural slippage in the classroom between white teachers and students of color. Now, in "Multiplication is for White People", Delpit reflects on two decades of reform efforts—including *No Child Left Behind*, standardized testing, the creation of alternative teacher certification paths, and the charter school movement—that have still left a generation of poor children of color feeling that higher educational achievement isn't for them. In chapters covering primary, middle, and high school, as well as college, Delpit concludes that it's not that difficult to explain the persistence of the achievement gap. In her wonderful trademark style, punctuated with telling classroom anecdotes and informed by time spent at dozens of schools across the country, Delpit outlines an inspiring and uplifting blueprint for raising expectations for other people's children, based on the simple premise that multiplication—and every aspect of advanced education—is for everyone.

Anytime, Anywhere synthesizes existing research and practices in the emerging field of student-centered learning, and includes profiles of schools that have embraced this approach. Educators have argued that students should be at the center of learning, constructing new knowledge based on what is interesting to them, and receiving guidance in classrooms—or anywhere they may happen to be— from adults with whom they have positive relationships. Now, with the advent of new technologies, researchers are confirming the value of this approach by showing how the human brain and memory work in response to different environments, and how digital tools give students powerful new ways to express what they've learned."
