A hilarious and hopeful primer to prevent, combat, and eliminate the suckage in modern marriage by doing it right in the early years, from one of the minds behind the series Sex and the City and the New York Times bestselling authors of He's Just Not That Into You, It's Called a Breakup Because It's Broken, and It's Just a F\*\*\*ing Date Some marriages start out storybook. Perfect proposal, perfect engagement, perfect wedding, perfect honeymoon, and perfect newlywed years. Greg Behrendt and Amiira Ruotola stumbled right out of the wedding gate. Their choices in the early years, they'll tell you, nearly bought their marriage a one-way ticket to Suckville. The New York Times bestselling authors explore all the adventures of early wedlock, from the moment one of you gets on one knee to the day when sex starts to feel like work instead of play. In this guidebook, Behrendt and Ruotola explore their own marriage and, with gleeful candor, tremendous warmth, sharp humor, and piercing insight, look at what we who have decided to "settle down" hope to get out of our most lasting relationship. We venture through volumes on the engagement, wedding planning, the Big Day, the wedding hangover, the (blissful?) first year, the hard work of marrying two lives, fights, and sex-pectations versus sex-pectreality. The perfect book for those who have just put a ring on it or are thinking of putting a ring on it, Behrendt and Ruotola's work is a brilliant guide for the first stretch of that wild ride we call marriage.

The Lola T70 was developed in 1965 for sports car racing – Lola built the chassis, which were typically powered by large American V8 engines, predominantly Chevrolets and Fords. The T70 was prolific throughout the mid- to late-1960s, and over 100 examples were built in three versions – both open-topped and coupé models. The first successes for the T70 were in the US, and in 1966, the T70 dominated the Can-Am championship, winning five of the six races in the series – with John Surtees becoming champion in a Chevrolet-powered example. In 1968, T70s finished 1 - 2 in the Daytona 24 Hours, and the T70 was highly successful in the domestic UK and European championships, winning regularly. Today, Lola T70s are regular competitors on the historic racing scene, and examples are highly sought after by collectors. This Lola T70 Owner's Workshop Manual looks at the design, evolution, anatomy and operation of the T70.

The book presents documentary evidence of the insufficiency of rehabilitation works to close the gap between the irrigation service and actual area irrigated of publicly funded national irrigation systems in the Philippines. It outlines a methodology for formulating a modernisation plan for national irrigation systems with focus on the mostly ungauged, medium to small canal irrigation systems. The proposed methodology adaptively modified some known modernisation concepts and techniques and integrated them in a more holistic framework in the context of changing weather patterns and river flow regimes. It includes in-depth review of rehabilitation works; system diagnosis; revalidation of design assumptions on percolation and water supply; characterisation of system management, irrigation service and demand; and drawing up of options and a vision for the modernised irrigation systems. Central to the proposed modernisation strategy is the logical coherence among the design of physical structures, system operation and water supply so that improvements of irrigation service are possible. The book discusses the development of the proposed methodology and demonstrates its utility in two case study irrigation systems.
