

Respect Guide

This is a concise and user-friendly book for learning polite spoken Japanese or written Japanese. Respect language—the special style of polite spoken or written Japanese—is involved almost every exchange of Japanese between one person and another, including the simplest phrases of greeting. An understanding of its forms is therefore essential to any serious student of the Japanese language. This programmed course is carefully designed to teach the basic and correct forms which the learner should master for his or her own use, by first looking at the various typical situations to see when respect should and should not be shown in Japanese, and then going on to see how respect is expressed in special forms of speech. In this way, the learner is shown how to identify the type of respect for used, the person to whom respect is being shown, and the equivalent form in colloquial language. The insights into both Japanese culture and language will help any student or businessperson traveling to Japan or speaking Japanese on a regular basis. Understand which situations require respect language. Identify the most suitable grammar, honorifics, and more for a wide range of situations. Self-tests to help you master what you learn. Valuable quick-reference appendices. Do you or a loved one receive care at home or in a residential or day care setting? Are you concerned about the qualities to look for when selecting a care worker? Are the qualifications presented on a CV enough to determine if an individual will be a good

carer, performing to a high standard of service? What considerations will help you to choose or decide if the person is going to be a good carer? "Caring with a Difference" is written by Paulette Francis to help answer these questions and more. She shares her knowledge and her insights after many years of experience in the social care sector. "Qualifications are not the only things to be considered, she says. "Character is just as important as competence". Her "little book" as it is fondly referred to by Lord Tony Benn, places emphasis on the practices and the personal qualities of a care worker, equally. "It is the little things that one does that make the difference" says Paulette. Compassion, consideration and attention to details that preserve the dignity and respect of a client, are essential to the delivery of quality care. If you are a care worker looking for a quick, easy-to-read guide to being an excellent care giver then "Caring with a Difference" is the book for you. "It is the Care Workers' responsibility and privilege to make sure that they develop the personal qualities that will improve their performance and the experience of their client", says Paulette Francis. "It takes a special person to be a good Carer", she adds.

The workplace has become a hotbed of social toxicity – from the #MeToo movement to WeWork, it's clear that abusive bosses and entrenched cultures of discrimination have become more prevalent than ever. Such behaviour is not only simply wrong and damaging to its victims – it also results in reduced productivity, higher employee turnover, and can often leave a stain upon the wider reputation of an organization. In *Toxic*, Clive Lewis draws upon his decades of experience in HR and mediation to distill the problems and underlying causes of toxic workplaces before tackling the issue head-on. He draws upon first-hand case studies from an eclectic array of workplaces (from corporate offices to hospitals) to demonstrate how toxicity can be both prevented and resolved. This is a practical guide for business leaders and HR professionals looking to preserve a peaceful workplace, while also providing tips for employees looking to remain productive and focused when working with troublesome colleagues in difficult environments.
