“Eravamo incapaci di parlare e di staccare lo sguardo dalle nuvole che sfilavano alla nostra destra e improvvisamente s’incendiavano di oro e porpora, si sfilacciavano in una lanugine nera e arancione, si dilatavano in una colata di magma nella quale tremolavano i profili degli alberi e delle case. Durò tutto pochissimo, come sempre succede con i tramonti africani, e fu di una bellezza così intensa che per un attimo ebbi l’assoluta certezza che Saraswati fosse felice, così come lo ero io; la sentii tremare impercettibilmente sulla sella dietro di me, stringere tra le mani i lembi svolazzanti della mia camicia e sussurrare: ‘Wooww!’” Tanzania. Tra l’oceano e le grandi città Giorgio Bettinelli, sempre a cavallo della sua fedele Vespa, scopre strade e sapori di un’Africa poco conosciuta. Assieme alla passione, esplorata con la minuta e bella Saraswati. Riuscirà a fermarsi e prendere fiato? o il richiamo della strada avrà ancora una volta la meglio? “Dovunque si vada, è solo lì che si è” Le moderne avventure di un giramondo dotato di grande spirito di adattamento e di un’inesauribile curiosità; un libro pieno di strade difficili, di fatiche ma anche di momenti di sfrenata libertà, di paesaggi indimenticabili, di altrettanto memorabili incontri on the road sulle strade di un’Africa misera e opulenta, tragica ed esilarante... 20.000 chilometri in Vespa: un viaggio attraverso Angola, Namibia, Botswana, Sudafrica, Lesotho, Swaziland, Mozambico, Zimbabwe, Malawi, Tanzania, Kenya, Etiopia e Gibuti, per completare il periplo, iniziato in Marocco, di un continente dove l’ingiustizia, la vulnerabilità e la tragedia sono elevate all’ennesima potenza. Africa: una Babele dove dodicenni addestrati dai guerriglieri hanno già ucciso e bevuto il sangue dei loro nemici, terra di genocidi, carestie, di ragazzine febbricitanti in vendita nei bar, colla sniffata dagli street-kids di Nairobi... Ma basta spostare di poco lo sguardo, e l’Africa diventa allegria sfrenata, musica, colori, spazi aperti, natura, commozione; diventa la dignità con cui molta della sua gente sopporta il dolore e la morte, l’entusiasmo di molti dei suoi bambini che imparano a leggere seduti in circolo sotto un baobab o un albero di mango, o scalmanati che si divertono con nulla; l’Africa è unica, difficile da definire, difficilissima da dimenticare e altrettanto difficile da sopportare.

Readers will fall for a side of Italy rarely seen with the just-turned-forty Peter Moore rattling around the country on the back of an ageing Vespa scooter — like himself, a little rough around the edges, and a bit slow in the mornings perhaps, but basically still OK.

In 1939 Swiss travel writer and journalist Ella K. Maillart set off on an epic journey from Geneva to Kabul with fellow writer Annemarie Schwarzenbach in a brand new Ford. As the first European women to travel alone on Afghanistan’s Northern Road, Maillart and Schwarzenbach had a rare glimpse of life in Iran and Afghanistan at a time when their borders were rarely crossed by Westerners. As the two flash across Europe and the Near East in a streak of élan and daring, Maillart writes of comical mishaps, breathtaking landscapes, vitriolic religious clashes, and the ingenuity with which the women navigated what was often a dangerous journey. In beautiful, clear-eyed prose, *The Cruel Way* shows Maillart’s great ability to explore and experience other cultures in writing both lyrical and deeply empathetic. While the core of the book is the journey itself and their interactions with people oppressed by political conflict and poverty, towards the end of the trip the women’s increasingly troubled relationship takes center stage. By then the glamorous, androgynous Schwarzenbach, whose own account of the trip can be found in *All the Roads Are Open*, is fighting a losing battle with her own drug addiction, and Maillart’s frustrated attempts to cure her show the profound depth of their relationship. Complete with thirteen of Maillart’s own photographs from the journey, *The Cruel Way* is a classic of travel writing, and its protagonists are as gripping and fearless as any in literature.

The only biography of its kind, *Lincolnomics* narrates The Great Emancipator’s untold legacy as The Great Builder of American infrastructure—developer of an economic ladder to democracy through national transportation, public education, and market access Lincoln’s view of the right to fulfill one’s economic destiny was at the core of his governing philosophy—but he knew no one could climb that ladder without strong federal support. Some of his most enduring policies came to him before the Civil War, visions of a country linked by railroads running ocean to ocean, canals turning small towns into bustling cities, public works bridging farmers to market. Expertly appraising the foundational ideas and policies on infrastructure that America’s sixteenth president rooted in society, John F. Wasik tracks Lincoln from his time in the 1830s as a young Illinois state legislator pushing internal improvements; through his work as a lawyer representing the Illinois Central Railroad in the 1840s; to his presidential fight for the Transcontinental Railroad; and his support of land-grant colleges that educated a nation. To Lincoln, infrastructure meant more than the roads, bridges, and canals he shepherded as a lawyer and a public servant. These brick-and-mortar developments were essential to a nation’s lifting citizens above poverty and its isolating origins. *Lincolnomics* revives the disremembered history of how Lincoln paved the way for Eisenhower’s interstate highways and FDR’s social amenities. With an afterword addressing the failure of American infrastructure during the COVID-19 pandemic, and how Lincoln’s policies provide a guide to the future, *Lincolnomics* makes the case for the man nicknamed “The Rail Splitter” as the Presidency’s greatest builder.

"Drawing on archival research, oral history interviews, and participant observation, this examination of the adoption and adaptation of Mod style across geographic space also maps its various interpretations over time, from the early 1960s to the present. The book traces the Mod youth culture from its genesis in the dimly lit clubs of London's Soho, where it began as a way for young people to reconfigure modernity after the chaos of World War II, to its contemporary, country-specific expressions. By examining Mod culture in the United States, Germany, and Japan alongside the United Kingdom, "We Are the Mods" contrasts the postwar development of Mod in those countries that lost the war with those that won. The book illuminates the culture's fashion, music, iconography, and gender aesthetics, to create a compelling portrait of a transnational subculture." --Book Jacket.

Chapters also consider the employment in travel writing of the diary, the letter, visual images, maps and poetry, as well as the relationship of travel writing to fiction, science, translation and tourism. In this darkly comical look at the sinister side of our relationship with the natural world, Stewart has tracked down over one hundred of our worst entomological foes—creatures that infest, infect, and generally wreak havoc on human affairs. From the world's most painful hornet, to the flies that transmit deadly diseases, to millipedes that stop traffic, to the “bookworms” that devour libraries, to the Japanese beetles munching on your roses, *Wicked Bugs* delves into the extraordinary powers of six- and eight-legged creatures. With wit, style, and exacting research, Stewart has uncovered the most terrifying and titillating stories of bugs gone wild. It's an A to Z of insect enemies, interspersed with sections that explore bugs with kinky sex lives (“She's Just Not That Into You”), creatures lurking in the cupboard (“Fear No Weevil”), insects eating your tomatoes (“Gardener's Dirty Dozen”), and phobias that feed our (sometimes) irrational responses to bugs (“Have No Fear”). Intricate and strangely beautiful etchings and drawings by Briony Morrow-Cribbs capture diabolical bugs of all shapes and sizes in this mixture of history, science, murder, and intrigue that begins—but doesn't end—in your own backyard.

Who, exactly, is a haute bohemian? Leave it to the discriminating eye of photographer Miguel Flores-Vianna, who enjoys an international, cult-like following. He has journeyed through four continents to capture an extraordinary group of fashion designers, landscape architects, artists and art historians, potters, and interior designers, wherever they live—in country cottages, beach bungalows, canal-side lofts, and East Village apartments, as well as assorted estancias, chateaux, and palazzi. Some spaces are grand, others are modest, but all are original, stylish, charming, and above all authentic, in the sense that they reflect their owners' cares and tastes. As the readers of his column in *Architectural Digest* know, Flores-Vianna is as gifted a writer as he is an observant photographer. Here, Flores-Vianna's work is introduced by Amy Astley, editor of *Architectural Digest* and a longtime friend.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

A fascinating look inside the inner sanctum of the Steinbrenner era Yankees No team in American sports has as storied a history as the New York Yankees, winners of 27 World Series. As the strength and conditioning coach for the Yankees for parts of three decades, Jeff Mangold was firmly embedded in building the dynasty of the 1990s and 2000s. In *Power and Pinstripes*, Mangold shares priceless stories from his 14 seasons behind the scenes in the Bronx. Mangold had a front-row seat to the daily drama of George Steinbrenner's revolving door of managers—Yogi Berra, Billy Martin, and Lou Piniella—in the 1980s. Then, when he returned to the Yankees in 1998, he joined a juggernaut of a team and was tasked with maintaining the health of a star-studded roster including the Core Four of Derek Jeter, Jorge Posada, Andy Pettitte, and Mariano Rivera. Mangold shares personal tales of finding his way with stars like Dave Winfield and Ron Guidry, motivating personalities like David Wells, and facing a thorny challenge that later became a scandal when Roger Clemens and other Yankees arrived at spring training with their own personal strength coaches in tow. Yankees fans will not want to miss this unique perspective on a the franchise during one of baseball's most exciting and controversial eras.
