Prior to the real-estate boom of the 1980s, Francis J. Greenburger risked it all to buy three older loft buildings at 50 West Street near the current 9/11 Memorial. He ultimately dreamed of one day erecting a magnificent skyscraper in their place. But disaster struck in 2008, just as his plans were coming together, and development came to a screeching halt. The global financial crisis had made the land practically worthless and it would be years before he could get back on track, but he refused to give up on his dream. Today, 50 West is a striking 780-foot skyscraper with curved glass windows that has become an iconic feature on the city skyline—but it took much more than a financial investment to get there. It required Greenburger to do what he does best—take huge risks at every turn. During his parallel careers, Francis J. Greenburger has made

publishing and real-estate history. Whether risking the reputation of his agency for the super -star authors of tomorrow, such as James Patterson to Dan Brown, or pioneering the New York co-op market by taking "hopeless" properties and turning them into prized homes, he has successfully navigated the worlds of business, politics, and social change to become the quintessential American entrepreneur. A math and business prodigy who started working for his father at the age of 12. After a stop-and-start academic career, he voluntarily left one of the most elite and academically distinguished New York City high schools and started his adult life at 15. Greenburger has made it his life's work to find value where others never thought to look, and his keen instincts and innovative strategies have taken him from a high-school "dropout" to a well-educated self-made billionaire. Francis has mastered the "risk game." Now, with Rebecca Paley's gripping prose, he takes us behind the scenes in Risk Game and reveals firsthand how he has become a self-made force in the competitive world of New York real estate—and a champion for nonprofit organizations in the fields of art, education, and, most recently, social and criminal justice.

Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich

or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my

children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Many Americans dream of financial freedom, but they're stuck in dead-end jobs and don't know how to get there. You don't need to be one of them. If you invested \$35,000 in the stock market today, it could take 52 years for that investment to grow to \$1 million. But if you invested that same amount into one single-family \$140,000 rental property, it would only take 19 years. With just two rental properties, you could generate \$417,000 in profit in just 10 years. Skeptical? Good, because that's the first sign of a smart investor. This book will tackle that skepticism head on... and give you confidence and a path to financial freedom. **THIS BOOK WILL TEACH YOU HOW TO:** - Secure your investment money - Find your ideal market--and a positive-cash-flow property - Efficiently manage your property - Handle your record keeping - Boost revenues and cut costs - File your taxes using a step-by-step process - Build your real estate portfolio

Every great team, culture, society, religion or business that has endured time, adversity and challenge has always had one thing in common: a set of simple but powerful rules that govern the internal behaviors and expectations of that group. It is called The Code of Honor. We hear of these Codes when we think of things like The Ten Commandments, the Marine Corps or the Constitution. Yet if sales is the number one skill in business, number two has to be the ability to bring ordinary people together to build a championship team. This does not happen by chance or by the simple accumulation of talent. The Code is the core ingredient to creating winning organizations. The book is a step-by-

step guide for any individual, group or company to actually create a Code of Honor specific to their team. The Rich Dad Poor Dad Advisor series was designed as a “how-to” series to empower individuals to succeed in the world of business and finance. “Team Code of Honor” is critical to this series because its processes bridge all facets of business, investment, entrepreneurship and even personal life. The book explains through graphic examples, stories and numerous case studies how a Code or set of rules is created, maintained, enforced and used for rapid and controlled growth of any entity. The book is designed as an operating manual for putting any business team together. It steps you all the way from properly choosing players, to creating the Code, to increasing performance and to winning. Each chapter gives the team specific assignments and examples so that by the time you have completed the book, your Code is in place and your team is operating at a true championship level.

“I’ve set up my corporation. Now what do I do?” All too often business owners and real estate investors are asking this question. They have formed their protective entity – be it a corporation, LLC or LP – and don’t know what to do next. “Run Your Own Corporation” provides the solution to this very common dilemma. Breaking down the requirements chronologically (ie the first day, first quarter, first year) the book sets forth all the tax and corporate and legal matters new business owners must comply with. Written by Rich Dad’s Advisor Garrett Sutton, Esq., who also authored the companion edition “Start Your Own Corporation”, the book clearly identifies

what must be done to properly maintain and operate your corporation entity. From the first day, when employer identification numbers must be obtained in order to open up a bank account, to the fifth year when trademark renewals must be filed, and all the requirements in between, “Run Your Own Corporation” is a unique resource that all business owners and investors must have. Rich Dad/Poor Dad author Robert Kiyosaki states, “Run Your Own Corporation is the missing link for most entrepreneurs. They’ve set up their entity, but don’t know the next steps. Garrett Sutton’s book provides valuable information needed at the crucial start up phase of operations. It is highly recommended reading.” When “Start Your Own Corporation” is combined with “Run Your Own Corporation” readers have a two book set that offers the complete corporate picture.
