Excerpt from Delmar's New, Revised and Complete Classified Trades Directory and Mercantile Manual of Mexico, Central America and the West India Islands: Giving the Names and Addresses of All the Leading Merchants, Dealers, Planters, Mine Owners, Professional Men and Others in the Principal Cities and Towns The object. Of this work is to present to the mercantile community a thoroughly practical, comprehensive, instructive and useful Commercial Guide and Classified Business Directory of the countries named. I have endeavored to present a work which will afford the greatest amount of useful information in the briefest and most direct manner possible. In compiling this work for business men, I decided to eschew all unnecessary historical and political statistics and other useless twaddle, of little or no interest to the business community, confining myself solely to such statistical and general information as will prove useful to business men seeking or desiring trade relations with the countries named in this work. Besides a practical commercial guide book, this work presents a full, complete and strictly reliable, recently compiled Classified Business Directory of Mexico, Central America and the West Indies, giving the names and addresses of all merchants, dealers, planters, mine owners, professional men, and others who are buyers of and dealers in American and English goods. It is not easy for a layman to attract attention to a book like this. Most who open the cover will be professionals in one of the many aspects of mental health. A moment's thought tells us, however, that if there is a distinction between laymen and professionals it makes no difference to a book like this. Both laymen and professionals care about what will be. That is why this book, the Congress it reports and the World Federation for Mental Health itself can be meaningful to both laymen and professional people. A look into the 80's from the point of view of mental health, cultural values and social development is for all who care about the future. The 1981 Manila Congress of the World Federation for Mental Health was a unique and special gathering. It was the first time the Federation assembled for a Congress in a developing country. In the Philippines we enjoyed the overwhelming hospitality and charm of the people and a place where past and future seem as important as the present. All who attended from outside those magic islands will always remember the occasion as a special life experience. For those of you who did attend, this book can revive the stimulation and satisfaction of the Congress. For those of you who did not share the Manila experience, this book can inform and interest you about matters which are important.

A history of conjunto music and musicians.

In Musicians in Transit Matthew B. Karush examines the transnational careers of seven of the most influential Argentine musicians of the twentieth century: Afro-Argentine swing guitarist Oscar Alemán, jazz saxophonist Gato Barbieri, composer Lalo Schifrin, tango innovator Astor Piazzolla, balada singer Sandro, folksinger Mercedes Sosa, and rock musician Gustavo Santaolalla. As active participants in the globalized music business, these artists interacted with musicians and audiences in the United States, Europe, and Latin America and contended with genre distinctions, marketing conventions, and ethnic stereotypes. By responding creatively to these constraints, they made innovative music that provided Argentines with new ways of understanding their nation's place in the world. Eventually, these musicians produced expressions of Latin identity that reverberated

beyond Argentina, including a novel form of pop ballad; an anti-imperialist, revolutionary folk genre; and a style of rock built on a pastiche of Latin American and global genres. A website with links to recordings by each musician accompanies the book.

When Jackie Mittoo and Leroy Sibbles migrated from Jamaica to Toronto in the early 1970s, the musicians brought reggae with them, sparking the flames of one of Canada's most vibrant music scenes. Professional reggae musician and scholar Jason Wilson tells the story of how reggae brought black and white youth together, opening up a cultural dialogue between Jamaican migrants and Canadians along the city's ethnic frontlines. This underground subculture rebelled against the status quo, broke through the bonds of race, eased the acculturation process, and made bands such as Messenjah and the Sattalites household names for a brief but important time.

What do you do when your life feels as busy as a three-ring circus? Juggling Elephants tells a simple but profound story about one man with a universal problem. Mark has too much to do, too many priorities, too much stress, and too little time. As he struggles to balance his many responsibilities without cracking under the pressure, Mark takes a break to attend the circus with his family. There he has a surprising conversation with a wise ringmaster. He leaves with a simple but powerful lesson: Trying to get everything done is like juggling elephants -- impossible. So Mark begins to think about his work, family, and personal life the way a ringmaster thinks about the many acts in a three-ring circus. He discovers that managing his various acts can be fun and easy once he changes his attitude and follows his new friend's ongoing guidance. Mark soon realizes: • If you keep trying to juggle elephants, no one, including you, will be thrilled with your performance. • A ringmaster cannot be in all three rings at once. • The key to the success of a circus is having quality acts in all three rings. • Intermission is an essential part of any good circus. Juggling Elephants is a wonderfully lighthearted guide for everyone who feels like they're about to be squashed. It will help you better focus your time and energy, so you'll be able to enjoy more of the things that are important to you. Above all, it will teach you how to run your circus, instead of letting the circus run you.

Music Cultures in the United States is a basic textbook for an Introduction to American Music course. Taking a new, fresh approach to the study of American music, it is divided into three parts. In the first part, historical, social, and cultural issues are discussed, including how music history is studied; issues of musical and social identity; and institutions and processes affecting music in the U.S. The heart of the book is devoted to American musical cultures: American Indian; European; African American; Latin American; and Asian American. Each cultural section has a basic introductory article, followed by case studies of specific musical cultures. Finally, global musics are addressed, including Classical Musics and Popular Musics, as they have been performed in the U.S.. Each article is written by an expert in the field, offering in-depth, knowledgeable, yet accessible writing for the student. The accompanying CD offers musical examples tied to each article. Pedagogic material includes chapter overviews, questions for study, and a chronology of key musical events in American music and definitions in the margins.

At the intersection of astronautics, computer science, and social science, this book introduces the challenges and insights associated with computer simulation of human society in outer space, and of the dynamics of terrestrial enthusiasm for space exploration. Never before have so many dynamic representations of space-related social systems existed, some deeply analyzing the logical implications of social-scientific theories, and others open for experience by the general public as computer-generated virtual worlds.

Fascinating software ranges from multi-agent artificial intelligence models of civilization, to space-oriented massively multiplayer online games, to educational programs suitable for schools or even for the world's space exploration agencies. At the present time, when actual forays by humans into space are scarce, computer simulations of space societies are an excellent way to prepare for a renaissance of exploration beyond the bounds of Earth.

Infinitely multiplied by the blare of radios, TVs and record players in San Juan, Macho Camacho's guaracha weaves its way across the city and through the lives of one family on a single day: Senator Vicente Reinoso, a crooked politician stuck in a gargantuan traffic jam; his neurotic, aristocratic wife; their son Benny, a fascist who is quite literally in love with his Ferrari, and the Senator's mistress, who inhabits a poorer world with her idiot child, her cousins (Hughie, Louie, and Dewey) and her friend Dona Chon. Macho Camacho's Beat blends the music of puns, fantastic wordplay, advertising slogans, and pop-culture references with the rhythm of the guaracha to satirize the invasive "Americanization" of the island and the way in which a momentary fad impacts the culture at large.
