In 1870, Louis Zistel began ferrying passengers from Sandusky to the Cedar Point Peninsula's beer garden and sandy beaches. In 1888, the Grand Pavilion was built, housing a massive theatre, bowling alley, photographic studio, and kitchen, and shortly thereafter, the resort's first roller coaster was installed. George Boeckling transformed the resort into a self-sufficient city and amusement park, but the park suffered badly in the 1930s economic depression. However, after Cedar Point changed hands several times in the 1950s, it became one of America's leading amusement parks. Today, the park is best known as the world's largest amusement park and the "Roller Coaster Capital of the World."

In this unabashedly queer middle grade debut, a week-long amusement park road trip becomes a true roller coaster of emotion when Dalia realizes she has more-than-friend feelings for her new bestie.

Dalia's journey to self-discovery is refreshingly honest, and this entire cast of characters will steal your heart." - Maulik Pancholy, actor and Stonewall Honor-winning author of The Best At It Would-be amusement park aficionado Dalia only has two items on her summer bucket list: (1) finally ride a roller coaster and (2) figure out how to make a new best friend. But when her dad suddenly announces that he's engaged, Dalia's schemes come to a screeching halt. With Dalia's future stepsister Alexa heading back to college soon, the grown-ups want the girls to spend the last weeks of summer bonding--meaning Alexa has to cancel the amusement park road trip she's been planning for months. Luckily Dalia comes up with a new plan: If she joins Alexa on her trip and brings Rani, the new girl from her swim team, along maybe she can have the perfect summer after all. But what starts out as a week of funnel cakes and Lazy River rides goes off the rails when Dalia discovers that Alexa's girlfriend is joining the trip. And keeping Alexa's secret makes Dalia realize one of her own: She might have more-than-friend feelings for Rani.

Two very different reasons brought Laura Izmani and Helen Baynor to the Beach Boardwalk for a symbolic ride on the biggest wooden roller coaster on the west coast. They part strangers, but only after sharing an experience that shifted both of their lives onto new tracks. Their paths cross again decades later when Laura interviews with Helen to become the private chef for the Baynor household. Given what Laura revealed during that fateful coaster ride, she's relieved that Helen seems to have forgotten her. Fiercely protective of her children, Helen—now a famous stage actress and widow with teenaged twins—divides her time between home in a sleepy California enclave and the bright lights of Broadway. Continuing her carefully managed life until her children leave for college is all she wants. Their first roller coaster ride together may turn out to be only a prelude...

"Citizen Kane does Adventureland." —The Washington Post The outlandish, hilarious, terrifying, and almost impossible-to-believe story of the legendary, dangerous amusement park where millions were entertained and almost as many bruises were sustained, told through the eyes of the founder's son. Often called "Accident Park," "Class Action Park," or "Traction Park," Action Park was an American icon. Entertaining more than a million people a year in the 1980s, the New Jersey-based amusement playland placed no limits on danger or fun, a monument to the anything-goes spirit of the era that left guests in control of their own adventures--sometimes with tragic results. Though it closed its doors in 1996 after nearly twenty years, it has remained a

subject of constant fascination ever since, an establishment completely anathema to our modern culture of rules and safety. Action Park is the first-ever unvarnished look at the history of this DIY Disneyland, as seen through the eyes of Andy Mulvihill, the son of the park's idiosyncratic founder, Gene Mulvihill. From his early days testing precarious rides to working his way up to chief lifeguard of the infamous Wave Pool to later helping run the whole park, Andy's story is equal parts hilarious and moving, chronicling the life and death of a uniquely American attraction, a wet and wild 1980s adolescence, and a son's struggle to understand his father's quixotic quest to become the Walt Disney of New Jersey. Packing in all of the excitement of a day at Action Park, this is destined to be one of the most unforgettable memoirs of the year.

For more than 100 years, western New Yorkers have enjoyed the region's exciting amusement parks. During the days of trolleys and steamships, area businessmen created Celoron Park, Crystal Beach Park, and other fine local summer resorts. Decades later, lifelong memories were formed for neighborhood baby boomers who visited Glen Park and Fantasy Island, as well as one of New York State's finest theme parks, Darien Lake. Western New York has always been a proving ground for some of the nation's most famous roller coasters. The terrifying Cyclone, the fast and furious Silver Comet, and the extreme Ride of Steel have attracted the very bravest of visitors. In the new millennium, the summer tradition of visiting local amusement parks continues with a blend of family-orientated parks and theme parks that appeal to all ages.

Six Flags Great Adventure has been the premier destination for family fun in the Northeast for over 40 years. Created by Hollywood scion Warner LeRoy, the park's mission from the very start was to be the biggest and best theme park with record-breaking thrills, spectacular shows, and unique experiences that could only be found at Great Adventure. As a part of the Six Flags family of theme parks, Great Adventure combines the world's largest safari park outside of Africa, a world-class theme park, and one of the biggest and best water parks in the United States to create an experience like no other.

This activities workbook is designed to facilitate students' understanding and application of major concepts and principles in the study of culture and psychology. The 90 activities in this workbook feature a wide range of engaging case studies, self-administered scales, mini-experiments, and library research projects, addressing topics such as culture, race/ethnicity, gender, age, sexual orientation, disability, and social class. Background material is included for any concepts not commonly addressed in introductory texts. In addition, the workbook is supported by a substantial Instructor's Manual that includes discussion questions, video recommendations, variations by course level, and suggestions for expanded writing assignments.

In its fourth edition, this exhaustive guide to roller coasters in the United States and Canada also provides a history of coaster evolution (from the 16th century) and a look into the future of coaster technology and design. The book lists by state or province more than 700 coasters at more than 160 amusement and theme parks. Each entry includes contact information along with summaries of each coaster's origins, features and history. There are six appendices: famous coaster designers, the longest wood and steel coasters in North America, a coaster census by state or province, a chronology of wooden roller coasters still in operation, interesting amusement park and coaster facts, and a guide to the alpine coasters at winter resorts in the U.S. and Canada.

Marriott's Great America first opened in Gurnee, Illinois, on May 29, 1976. Located midway between Chicago and Milwaukee, it was the second of two Marriott Corporation theme parks. Great America was created to be a place where families could have fun together while gaining an appreciation for United States history. The park's five authentically themed areas based on America's past included the best in family and thrill rides, restaurants, specialty shops, artisans, and games. First-rate live entertainment included Broadway-style musicals, bands, parades, a circus, and the Warner Bros. characters featuring BUGS BUNNY. In 1984, the park became Six Flags Great America when it joined the Six Flags family of theme parks. Since then, the park has continued to innovate and expand. Today, including its 20-acre Hurricane Harbor water park, Six Flags Great America is one of the country's finest theme parks. Since 1976, the park has entertained more than 100 million guests.

Located near Charlotte, Carowinds has long been considered the "Thrill Capital of the Southeast!" The brainchild of Earl Patterson Hall, a self-made businessman and real estate developer, Carowinds is an exciting day for children and adults alike. Inspired by a trip to Disneyland in 1957, Hall envisioned an amusement park for the citizens of the Carolinas. In 1973, after four years of planning and construction, Carowinds opened to the public on a large site that straddles the North Carolina-South Carolina border. Throughout the 1970s, visitors enjoyed rides such as the Witchdoctor and White Lightning'. Currently, the park features rides, shows, and attractions for all, including Intimidator, the tallest and fastest coaster in the Southeast. Carowinds showcases the rich history of this Carolina amusement park celebrating

its 40th anniversary in 2013.

Have you always wanted to learn more about how roller coasters work? I'm not talking about the basic "roller coasters use gravity!" descriptions you're used to. I'm talking about learning in-depth about the nitty gritty engineering details, like: How do roller coaster engineers know what size motor is needed to pull the train to the top of the lift hill and how much will it cost to operate it? What material are the wheels made out of and how does it affect the performance of the ride? What is the difference between LIM and LSM propulsion? How does the control system on a racing or dueling coaster time up the near collision moments perfectly every single time? All of these questions and more are answered in the latest edition of Coasters 101: An Engineer's Guide to Roller Coaster Design. "I thought it was great. It was a good first look at roller coaster design. It also gave great information and details about roller coasters in general." - Adrina from Goodreads "Thanks for writing a very good book. I could not put it down. Lot's of great information. I am a technology and engineering teacher and the information I found here is very helpful in trying to get students more excited about engineering." -Amazon reviewer
