

Rolls Royce Silver Cloud The Complete Story

But Time is big business, and whoever gets control of Time controls life as we know it! In a house called Tanglewreck lives a girl called Silver and her guardian Mrs Rokabye. Unbeknown to Silver there is a family treasure in the form of a seventeenth-century watch called the Timekeeper, and this treasure holds the key to the mysterious and frightening changes in time. When Silver goes on the run to try and protect herself and the Timekeeper, a remarkable and compelling adventure unfolds, full of brilliance and wit, as is befitting an author with the imagination and style of Jeanette Winterson.

The Bentley MkVI, introduced in 1946, fairly bristled with new ideas and marked a bold change of direction for a company as conservative as Rolls-Royce, owner of the Bentley marque. The most radical departure from pre-war practice was the fact that the MkVI could be bought with a standard body. Other major new features were the engine, cruciform chassis and hydraulically operated front brakes. However, none of this indicates the true historical importance of the MkVI or why the model is at the heart of this book—quite simply the MkVI's design was the well-spring from which all the mainstream Rolls-Royce and Bentley models flowed until the advent of the Silver Shadow and Bentley T-Series in 1965. Here is the complete story of the Rolls-Royce Silver Wraith, Silver Dawn and Silver Cloud and the Bentley MkVI, R-Type and S-Type. Covering concept, design and development, production, promotion, publicity and the coachbuilt cars. There is also helpful practical advice on buying and running these cars today, together with appendices of chassis number sequences and dates, build numbers and modifications and development by chassis number. Illustrated with over 160 black and white and color photos, this book is a must have for anyone interested in automotive history.

The Rolls-Royce Silver Shadow & Bentley T-Series were a revolutionary step forward when launched in 1965. Here's the full story, including related coachbuilt cars & the Silver Wraith II, Corniche & Camargue.

This completely revised edition of 'The Classic Elegance' illustrates some of the best of the coachbuilders art on Rolls-Royce cars from the late 1940s until more recent times, covering Silver Wraith to Silver Spirit/Spur.

A unique and personal account of young designer's journey after joining that most prestigious of marques, Rolls-Royce. Sometimes eccentric, often humorous, the workings of this uniquely British institution during a period of immense change are described in detail. Generously supported by previously unseen illustrations, the author's story, from his position as designer to Chief Stylist, pulls back the curtain concealing an idiosyncratic institution, motivated as much by pride as the bottom-line.

While some of the stories actually are about cars found in barns or sheds, author Wyss has taken the liberty of expanding the definition of "barn find" to include any collector car found derelict, ignored, in pieces, or generally found in circumstances belying its stature. This could include cars parked in fields, found in cellars, left in parking garages, or even found under a pile of cars in a junkyard. What the cars do have in common is that they are valuable and exotic and have histories chock full of unimaginable twists and turns. Take, for instance the Two Rotor Corvette, a car that cost GM \$2 million to build and then they flat gave it away to the first guy that asked. Same thing for a GT40

roadster, one of four built, and Ford goes and hands the keys to a movie car customizer who kept it for decades and never quite got it up on the big screen. That car today is worth \$4 million. So, if you're into collector cars and love the thrill of the hunt, then you'll truly appreciate the 50 stories Wyss has selected for this first in the series.

The first Silver Cloud and S-type models were introduced in 1955 and the last one built was some 11 years later. Starting with a disadvantage in having a separate chassis and body when monocoque construction was gaining ground they lagged behind other manufacturers.

Nevertheless they drove extremely well and ran without failure for many thousands of miles. The majority had standard steel coachwork which was very elegant while specialist coachbuilders were able to create their magic for those fortunate enough to afford it. This is a book of contemporary road and comparison tests, specification and technical data, road impressions, used cars on the road, buyers datafile, touring. Models include: Silver Cloud, S-Series, Continental, Limousine, Silver Cloud II, III, S2, S2LWB.

Complete history of the Silver Spirit and associated Bentley models, including ancestry, design, development and evolution.

Technical facts combine with helpful information on ownership.

The Magic of a Name tells the story of the first 40 years of Britain's most prestigious manufacturer - Rolls-Royce. Beginning with the historic meeting in 1904 of Henry Royce and the Honourable C.S. Rolls, and the birth in 1906 of the legendary Silver Ghost, Peter Pugh tells a story of genius, skill, hard work and dedication which gave the world cars and aero engines unrivalled in their excellence. In 1915, 100 years ago, the pair produced their first aero engine, the Eagle which along with the Hawk, Falcon and Condor proved themselves in battle in the First World War. In the Second the totemic Merlin was installed in the Spitfire and built in a race against time in 1940 to help win the Battle of Britain. With unrivalled access to the company's archives, Peter Pugh's history is a unique portrait of both an iconic name and of British industry at its best.

Elegance and sophistication radiate from the pages of this spectacularly illustrated book about the world's most revered automobiles. Although having the means to ride in high style isn't always a possibility, readers can use this book to live large for at least a little while. This stunning new book: - Explores the "other" great British invasion in extensive historical details useful for automobile historians and collectors - Features primary models such as the classic Silver Ghost and today's Phantom accompanied by 300+ rare and specially commissioned photos and technical drawings - Speaks to car enthusiasts' wishful thinking and serves as an ideal gift

New Updated Fourth Edition, now in paperback. The Rolls-Royce Silver Shadow & Bentley T-Series were a revolutionary step forward when launched in 1965. Here's the full story, including related coachbuilt cars & the Silver Wraith II, Corniche & Camargue.

Rolls-Royce and Bentley relied upon standardised body designs after 1945, but for the next two decades both marques also supplied chassis frames separately, and it was possible to have these clothed with coachwork by bespoke coachbuilders like, for example, Mulliner, Park Ward and James Young in Britain, or Graber, Farina and Franay in Europe. Many buyers took this route, and this highly illustrated book bears witness to the wide variety of styles that were built in this fascinating period. Chassis number lists for each coachbuilder, both in Britain and overseas, identify their creations, to make this a comprehensive and essential

Excerpt: The Rolls-Royce Phantom is a saloon automobile made in England by Rolls-Royce Motor Cars, a BMW subsidiary. It was launched in 2003 and is the first model introduced during the BMW era. The Rolls-Royce Phantom Drophead Coupe, and the Rolls-Royce Phantom Coupe, are both based on the 2003 Phantom. It also won the Top Gear Car of the Year Award for 2003. V12 engine of a 2008 PhantomThe Phantom uses a unique chassis platform, body, interior, and retains traditional Rolls-Royce design cues. The body is mostly aluminium. Final assembly, including all body, paint, wood, and leather work, is completed to each customer's individual specification at the Rolls-Royce plant in Goodwood, West Sussex. The plant is down the road from the historic Goodwood Motor Racing Circuit. The plant contains the paint shop, body shop, leather shop, woodworking shop, assembly line, and executive offices under one roof. There are only two robots in the factory. The two robots paint the body; the paint is polished by hand after the robots spray each coat. The coachlines, which are exactly 3mm wide, are done, as well as all other work, by hand, in... Royce oder nur als Bentley. Nach der mit 28476 produzierten Rolls-Royce Silver Shadow/Silver Wraith und 3867 baugleichen Bentley T bis dahin erfolgreichsten Baureihe der damaligen Doppelmarke Rolls-Royce/Bentley wurde dieses 1965 vorgestellte Modell im Jahr 1980 durch den Silver Spirit abgelöst. Für die Gestaltung des Fahrzeugs war Fritz Feller verantwortlich. Die Konstruktion des Silver Spirit erfolgte auf der Bodengruppe des Silver Shadow. Der Motor des Silver Spirit war zunächst der vom Silver Shadow bekannte 6,75-l-V8-Doppelvergasmotor. Im Zuge der Modellpflege des Silver Spirit wurde der Motor mehrfach modifiziert und war in verschiedenen Ausführungen, auch mit einem Garrett-Abgasturbolader, erhältlich. Ab 1986 wurden...

The Early Days is focused on the launch and the first production year of the Rolls-Royce Silver Cloud and Bentley S Series, including the Continental, the first completely new models conceived and developed in the post war period. The book is enhanced with four reproductions of period material issued in those unforgettable first months.

The Silver Cloud was the last of the Rolls-Royce separate-chassis cars from Crewe. This book tells the history of the car, from the background of the Rolls-Royce heritage, through to the development of the Silver Cloud and Bentley S1. Included are the production figures and specification tables.
