beginning in 1908 with *Anne of Green Gables*. The book was an immediate success. The central character, Anne Shirley, an orphaned girl, made Montgomery famous in her lifetime and gave her an international following.

The wars in Afghanistan and Iraq have focused new attention on a perennial problem: how to end wars well. What ethical considerations should guide war's settlement and its aftermath? In cases of protracted conflicts, recurring war, failed or failing states, or genocide and war crimes, is there a framework for establishing an enduring peace that is pragmatic and moral? *Ethics Beyond War's End* provides answers to these questions from the just war tradition. Just war thinking engages the difficult decisions of going to war and how war is fought. But from this point forward just war theory must also take into account what happens after war ends, and the critical issues that follow: establishing an enduring order, employing political forms of justice, and cultivating collective forms of conciliation. Top thinkers in the field—including Michael Walzer, Jean Bethke Elshtain, James Turner Johnson, and Brian Orend—offer powerful contributions to our understanding of the vital issues associated with late- and post conflict in tough, real-world scenarios that range from the US Civil War to contemporary quagmires in Afghanistan, the Middle East, and the Congo.

The government and the people of India welcomed us with open arms when we knocked at her door for sanctuary. India not only provided us refuge but also education to our children and helped us to stand on our feet. We have been living in India for the last six decades and in the process have accumulated a large number of debts to the government and people of India for their kind hospitality. If India had not granted us political asylum and wiped our tears, we would not have survived as we are surviving now. Words cannot express how grateful we are to the government and the people of India. India has provided us with all the necessary tools to safeguard our unique language, culture, history, and traditions and keep the spirit of Tibetan nationalism alive. No country has done as much as India has done for us. We rely on India like we rely on the sun. We have reasons to believe that India will stand by us like a

No evocation of Parisian life in the second half of the nineteenth century can match that found in the journals of the brothers Goncourt The journal of the brothers Edmond and Jules de Goncourt is one of the masterpieces of nineteenth-century French literature, a work that in its richness of color, variety, and seemingly casual perfection bears comparison with the great paintings of their friends and contemporaries the Impressionists. Born nearly ten years apart into a French aristocratic family, the two brothers formed an extraordinarily productive and enduring literary partnership, collaborating on novels, criticism, and plays that pioneered the new aesthetic of naturalism. But the brothers' talents found their most memorable outlet in their journal, which is at once a chronicle of an era, an intimate glimpse into their lives, and the purest expression of a nascent modern sensibility preoccupied with sex and art, celebrity and self-exposure. The Goncourts visit slums, brothels, balls, department stores, and imperial receptions; they argue over art and politics and trade merciless gossip with and about Hugo, Baudelaire, Degas, Flaubert, Zola, Rodin, and many others. And in 1871, Edmond maintains a vigil as his brother dies a slow and agonizing death from

The story of Stax Records unfolds like a Greek tragedy. A white brother and sister build a record company that becomes a monument to racial harmony in 1960's segregated south Memphis. Their success is startling, and Stax soon defines an international sound. Then, after losses both business and personal, the siblings part, and the brother allies with a visionary African-American partner. Under integrated leadership, Stax explodes as a national player until, Icarus-like, they fall from great heights to a tragic demise. Everything is lost, and the sanctuary that flourished is ripped from the ground. A generation later, Stax is rebuilt brick by brick to once again bring music and opportunity to the people of Memphis. Set in the world of 1960s and '70s soul music, *Respect Yourself* is a story of epic heroes in a shady industry. It's about music and musicians -- Isaac Hayes, Otis Redding, Sam and Dave, Wilson Pickett, the Staple Singers, and Booker T. and the M.G.'s, Stax's interracial house band. It's about a small independent company's struggle to survive in a

In this collection we bring together the first three books in the 'Anne of Green Gables' Series which tells the tale of a little red headed orphaned girl, mistakenly sent to the Cuthbert's farm on Prince Edward Island. Anne's strong character and vivid imagination both help and hinder her as she makes her way through life on the island. These early works by Lucy Maud Montgomery, originally published between 1908 and 1915, are now republished here with a brand new introductory biography. Lucy Maud Montgomery was born on 30th November 1874, New London, in the Canadian province of Prince Edward Island. Her mother, Clara Woolner (Macneil), died before Lucy reached the age of two and so she was raised by her maternal grandparents in a family of wealthy Scottish immigrants. In 1908 Montgomery produced her first full-length novel, titled 'Anne of Green Gables'. It was an instant success, and following it up with several sequels, Montgomery

Taking a cue from Erving Goffman's classic work, *Asylums*, Tia DeNora develops a novel interdisciplinary framework for music, health and wellbeing. Considering health and illness both in medical contexts and in the often-overlooked realm of everyday life, DeNora argues that these identities are by no means mutually exclusive. Moreover, she suggests that the promotion of health and more specifically, mental health, involves a great deal more than a concern with medication, genetic predispositions, clinical and neuro-scientific procedures. Adopting a holistic, interactionist focus, *Music Asylums* reconnects states of wellness and wellbeing to encounters with others and - critically - to opportunities for aesthetic experience. Building on DeNora's earlier work on music as a technology of self in everyday life, the book presents music as an active ingredient of action, identity, capacity and consciousness. From there, it suggests that access to, and evaluation of, music is an important ethical matter. Intended for scholars and practitioners in psychiatry and psychology, palliative care, socio-music studies, music psychology and the allied health professions, *Music Asylums* showcases music's role in the existential project of being and staying well, mentally and physically, from moment-to-moment and across all realms of social life.

In 1860 Abraham Lincoln employed the proverb, Right makes might, (opposite of the more aggressive Might makes right) in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the 14th century phrase had taken on new ethical and democratic connotations in the 19th century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States, from their early beginnings up through their use by today's well-known politicians, including Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and unpublished

research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics, women's rights, and the civil rights movement. By looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time and how they continue to play a key role in our contemporary moment.

'In the heat of battle' is a phrase that connotes the extremity of the human condition. The battlefield is a canvas on which is sometimes painted the virtues of bravery, sacrifice, and extraordinary leadership--and which is sometimes the scene of disgrace. There are those like Ross McGinness who throw themselves onto a grenade to save the lives of their squadmates and those like William Calley who panic under the strain and unleash the My Lai massacre. Part of the perennial fascination with military literature is the question every armchair general asks him or her self--what kind of soldier would I be under pressure? In his new book, Donough O'Brien, author of *Fame By Chance* and *Donough O'Brien's Little Book of Banana Skins: The Secrets of the Slip-Ups and Screw-Ups that Brought the Famous Down to Earth*, turns his attention toward military matters. *In the Heat of Battle* is comprised of seventy-five 800-1000 word vignettes highlighting soldiers who rose to the occasion and those who didn't. O'Brien uses his master story-telling skills to create a lively and informative compendium of bravery and humiliation, from Julius Caesar to the present day. Chapters include: Sergeant James Graham who attacked the French at Hougoumont Farm during the Battle of Waterloo and was awarded for his courage by Wellington. Crassus, whose ill prepared assault on the Parthians, led to ignoble defeat and by removing the balance of power between Pompey and Caesar, to civil war. SS-Sturmfuhrer Michael Wittman who blunted Montgomery's planned advance towards Caen during the Second World War, destroying 27 enemy vehicles, including 12 tanks, at Villers-Bocage despite being severely
