Provides a resource for traveling to Kentucky that features recommendations for dining, lodging, transportation, shopping, recreational activities, landmarks, and cultural opportunities. As a breed, Dobermanns have acquired an unjustified reputation as 'devil dogs' due to their courage, loyalty, intelligence and physical strength. This book aims to dispel the myths surrounding this magnificent dog, and shows how Dobermanns can be loving and gentle family pets, as well as their more traditional role as guard dogs. Dobermanns - a practical guide for owners and breeders traces the development of the breed from its early beginnings in the nineteenth century through to the present day, and offers the reader advice on every aspect of rearing and caring for these beautiful dogs. Topics covered include: The history of the breed; Choosing a dog; Health and welfare; Showing and judging; Breeding. Superbly illustrated with 260 colour photographs.

Stagecraft Fundamentals Second Edition tackles every aspect of theatre production with Emmy Award-winning author Rita Kogler Carver's signature witty and engaging voice. The history of stagecraft, safety precautions, lighting, costumes, scenery, career planning tips, and more are discussed, illustrated by beautiful color examples that display step-by-step procedures and the finished product. This second edition offers even more in-demand information on stage management, drawing and drafting (both by hand and CAD), lighting fixtures, and special effects. Also new to this edition are current articles from Lighting and Sound America, brand new diagrams that illustrate hard-to-grasp concepts, and a plethora of information on European conversions, standards, and practices, making the skills you learn applicable to stage jobs on either side of the ocean! The accompanying website, [www.stagecraftfundamentals.com](http://www.stagecraftfundamentals.com) is bursting with additional material such as an instructor's manual, exercises and study questions that coincide with chapters from the book, CAD drawings, color theory, manufacturing information, and so much more to help you along the way as you learn all about the world of theatre production! Praise for the Book: Beautifully written! The author has succeeded in relaying technical theatre information without being too technical and putting the reader to sleep. I read three sentences and instantly knew this book was for me and the way I teach. When I think back on the insufferable intro to tech theatre books I had to read, I feel cheated I didn't have this one as a student. I will be using this text in my class! -- Rob Napoli, Designer and Technical Director at Penn State University, Berks Campus This text has tempted me to return to teaching with a textbook for the first time in seven years. The language is both accessible and informal yet the text goes a long way in debunking some of the typical jargon that may alienate students just getting into the field, or trying it out for the first time. The illustrations (the text is full of them) coupled with the stories reinforce the fundamental information being conveyed. -- John Paul Devlin, Associate Professor of Theatre at Saint Michael's College What a great idea! Thank heavens someone is doing this for students at that impressionable age. That has been one of my mantras - education of teachers and students on the use of scenic materials. The teachers don't have enough time in college to learn and do everything they have to teach. Most get thrown into the theatre area by default and struggle with designing/building/painting the scenery. -- Jenny Knott, Rosco Stagecraft Fundamentals is beautifully illustrated throughout, and the profusion of color on every page gives this textbook the appearance of a coffee table book. The writing is clear and personal, which should be very appealing to students. Rita Carver covers all aspects of theatre production from scenery, to lighting, to an actor's makeup. Her close ties to the New York theatre scene gives this book a special insight into the professional world, one that goes well beyond what is found in most college textbooks. -- John Holloway, Professor in the Theatre Department at the University of Kentucky and President of the International Association of Theatrical stage Employees (IATSE) Local 346. I can't thank you enough for

Stagecraft Fundamentals. I have been teaching stagecraft since 1976 and you have saved me from the nightmare of writing a text to suit my class needs..After two semesters with your text, I have found that I had more time to develop the skills necessary within the classroom than before. The humor that you have infused in the book has enticed my students to read on. That alone makes this text invaluable. --Meta Lasch, Assistant Professor, West Liberty University

Marshall Hunter only wanted to fly: the faster, the higher, the better. But a life of rescuing wayward spacefarers and derelict satellites in the cislunar cruiser U.S.S. Borman is far from the adventure he'd imagined. But his fortunes change when a billionaire couple goes missing on their way to a near-Earth asteroid. Out of contact and on a course that will eventually send them crashing into Mars, the nuclear-powered Borman is dispatched on an audacious, high-speed interplanetary run to bring the couple home. As they approach the asteroid, however, the Borman itself becomes hopelessly disabled. With the Borman suddenly out of commission and far beyond reach, cislunar space begins falling into chaos as critical satellites fail and valuable lunar mineral shipments begin disappearing in transit. Nothing is as it seems, and Marshall Hunter and the rest of the crew suspect none of it is by coincidence. At the publisher's request, this title is sold without DRM (Digital Rights Management). About *Frozen Orbit*: ". . . hard science fiction and an entertaining and gripping plot. . . . Chiles nails the atmosphere of a NASA-run human spaceflight mission in the 21st century, the jargon of the mission controllers and astronauts, and the bureaucratic infighting characterizing today's NASA. . . . The scenario and background . . . are the scaffolding on which a gripping tale is formed. Readers experience the wonder the astronauts feel on a remarkable voyage, groan as the Earth goes crazy as the expedition progresses, and thrill to a powerful conclusion . . . science fiction at its best."—The Galveston County Daily News

About *Farside* by Patrick Chiles: "The situations are realistic, the characters interesting, the perils harrowing, and the stakes could not be higher."— John Walker, Ricochet.com ". . . a fast-paced and exciting story that bounces between the borders of technological thriller and science fiction. . . . an impressive effort."—The Galveston County Daily News

*Integrative Addiction and Recovery* offers an authentic model of comprehensive integrative modalities germane and specific to the field of addiction and recovery treatment. Although many treatment services for addiction include "holistic," "alternative," or "integrative" in their descriptions, they contain no substantive programs or services consistent with the mind, body, spirit paradigm contained within the integrative approach to health and healing. Consequently, many patients do not have the opportunity to benefit from the true spirit of an integrative approach within the discipline of addiction and recovery medicine. This book sets the standard for a bona fide integrative approach for others to follow, providing information that is immediately useful in clinical practice and rigorously evidence-based. Authored by world-class experts in the field of addiction medicine, *Integrative Addiction and Recovery* presents both scientific and holistic data regarding a wide variety of holistic and conventional approaches to the treatment of substance abuse and behavioral addictions. Its chapters cover both conventional and holistic treatment and provide background for each of the major classes of drugs of abuse, including opiates, alcohol, tobacco, stimulants, sedative-hypnotics, hallucinogens and marijuana. It also includes chapters on the topics of food addiction and behavioral addictions such as gambling and shopping. The authors explore the major holistic modalities, providing background and theory in areas like acupuncture, Traditional Chinese Medicine, Homeopathy, Aromatherapy, and Ayurvedic Medicine, while at the same time providing spiritual approach chapters on Shamanism and Ibogaine, as well as more conventional issues with a holistic view including Co-Occurring Disorders and Psychosocial Treatment, and Group Support. The very complex issue of chronic pain and addiction is also addressed, along with relapse prevention strategies.

*In Praise of Devon* is an evocation of the unique character of the county and its people.

John Lane eloquently describes Devon's rivers, coastline and moors; its towns, villages and buildings; its beautiful images and objects, traditions and occupations—from Dartmoor to Devonshire dialect, Church Bells to Cream Teas, Honiton Lace to Holy Wells—and gives intimate sketches of the lives and values of twenty Devonians, including farmers, a trawlerman, a doctor, a cook, the sculptor Peter Randall Page, potter Clive Bowen and scientist James Lovelock. The text is complemented by 140 colour plates: photographs, engravings and old master paintings of the Devon countryside.
