How far have we progressed from the days when showing a film such as Jack Smith's *Flaming Creatures* landed the cinema's programmer, projectionist, and ticket taker in jail? What are some of the hidden clues modern audiences are overlooking in older films that suggest a character's bisexuality? Which famous actors, actresses, directors, and screenwriters were attracted to people of both sexes? In *Bisexual Characters in Film*, the first book to focus on the role of bisexual characters in film, you'll find answers to these questions and many more as you explore, analyze, and celebrate 80 years of bisexual movie characters (and the people who have created them) from around the world. A lively, entertaining, and informative commentary, this book examines the treatment of bisexual film characters and shows you how that treatment has been affected by societal forces such as censorship, politics, religious prejudices, homophobia, and sexual stereotypes. *Bisexual Characters in Film* looks at the contribution of bisexual people (and others who have had lovers of varying sexes) to the body of work available on film today. These include the directors, writers, actors, composers, and designers whose sexual orientation has informed their work. An analysis of the Motion Picture Production Code and its devastating effect on bisexual and homosexual screen images forms an important part of the book. You learn how, specifically, it eradicated gay, lesbian, and bisexual characters from Hollywood films as well as the role of bisexual, lesbian, and gay filmmakers in finally defeating it. Other questions you'll find answers to include: Who, or what, is a bisexual? How were bisexual characters represented in silent film, before the forces of censorship banned them from the screen? What bisexual myths and stereotypes are portrayed on film? What is the role of "camp" in bisexual film? *Bisexual Characters in Film* is a unique resource for researchers; librarians; film festival planners; the queer media; professors and students of lesbian, gay, and bisexual studies; bisexual activists; and general bisexual, gay, lesbian, and transgendered readers. It provides a much-needed view of bisexual representations in a major segment of our popular culture.

"Research at the Hincks-Dellcrest Centre has shown that the Watch, Wait, and Wonder (WWW) approach is very effective as a short-term intervention for attachment and behavioral problems in infants and young children. It is also useful as a longer-term intervention and can be used adjunct to other therapies. Most importantly, by involving the parent directly in the child's therapy it benefits the relationship between infant/child and parent. The Manual describes the rational and therapeutic goals of WWW, its history and development, and the developmental considerations in its application."--Child Development Media, Inc. website.

Reclaim Your Fire "Teaching with Fire is a glorious collection of the poetry that has restored the faith of teachers in the highest, most transcendent values of their work with children....Those who want us to believe that teaching is a technocratic and robotic skill devoid of art or joy or beauty need to read this powerful collection. So, for that matter, do we all."

?Jonathan Kozol, author of *Amazing Grace* and *Savage Inequalities* "When reasoned argument fails, poetry helps us make sense of life. A few well-chosen images, the spinning together of words creates a way of seeing where we came from and lights up possibilities for

where we might be going....Dip in, read, and ponder; share with others. It's inspiration in the very best sense." ?Deborah Meier, co-principal of The Mission Hill School, Boston and founder of a network of schools in East Harlem, New York "In the Confucian tradition it is said that the mark of a golden era is that children are the most important members of the society and teaching is the most revered profession. Our journey to that ideal may be a long one, but it is books like this that will sustain us - for who are we all at our best save teachers, and who matters more to us than the children?" ?Peter M. Senge, founding chair, SoL (Society for Organizational Learning) and author of The Fifth Discipline Those of us who care about the young and their education must find ways to remember what teaching and learning are really about. We must find ways to keep our hearts alive as we serve our students. Poetry has the power to keep us vital and focused on what really matters in life and in schooling. Teaching with Fire is a wonderful collection of eighty-eight poems from such well-loved poets as Walt Whitman, Langston Hughes, Billy Collins, Emily Dickinson, and Pablo Neruda. The birth of Jesus has been well chronicled, as have his glorious teachings, acts, and divine sacrifice after his thirtieth birthday. But no one knows about the early life of the Son of God, the missing years -- except Biff, the Messiah's best bud, who has been resurrected to tell the story in the divinely hilarious yet heartfelt work "reminiscent of *Vonnegut* and *Douglas Adams*" (*Philadelphia Inquirer*). Verily, the story Biff has to tell is a miraculous one, filled with remarkable journeys, magic, healings, kung fu, corpse reanimations, demons, and hot babes. Even the considerable wiles and devotion of the Savior's pal may not be enough to divert Joshua from his tragic destiny. But there's no one who loves Josh more -- except maybe "Maggie," Mary of Magdala -- and Biff isn't about to let his extraordinary pal suffer and ascend without a fight.

A *Time* magazine and *New York Times* Best Book of the Year Charles Mason (1728–1786) and Jeremiah Dixon (1733–1779) were the British surveyors best remembered for running the boundary between Pennsylvania and Maryland that we know today as the Mason-Dixon Line. Here is their story as reimagined by Thomas Pynchon, featuring Native Americans and frontier folk, ripped bodices, naval warfare, conspiracies erotic and political, major caffeine abuse. Unreflectively entangled in crimes of demarcation, Mason and Dixon take us along on a grand tour of the Enlightenment's dark hemisphere, from their first journey together to the Cape of Good

Hope, to pre-Revolutionary America and back to England, into the shadowy yet redemptive turns of their later lives, through incongruities in conscience, parallaxes of personality, tales of questionable altitude told and intimated by voices clamoring not to be lost. Along the way they encounter a plentiful cast of characters, including Benjamin Franklin, George Washington, and Samuel Johnson, as well as a Chinese feng shui master, a Swedish irredentist, a talking dog, and a robot duck. The quarrelsome, daring, mismatched pair—Mason as melancholy and Gothic as Dixon is cheerful and pre-Romantic—pursues a linear narrative of irregular lives, observing, and managing to participate in the many occasions of madness presented them by the Age of Reason. A tour de force examination of the historical conflict between Native and Anglo Americans by critically acclaimed author Leslie Marmon Silko, under the hot desert sun of the American Southwest. In this virtuoso symphony of character and culture, Leslie Marmon Silko's breathtaking novel interweaves ideas and lives, fate and history, passion and conquest in an attempt to re-create the moral history of the Americas as told from the point of view of the conquered, not the conquerors. Touching on issues as disparate as the borderlands drug wars, ecological devastation committed for the benefit of agriculture, and the omnipresence of talking heads on American daytime television, *The Almanac of the Dead* is fiction on the grand scale, a sweeping epic of displacement, intrigue, and violent redemption.

Kathryn Sutherland presents an edition of the fiction manuscripts of Jane Austen (1775-1817) in this five-volume set. Scholars have pored over this much-loved novelist for decades, yet there are still more riches to be uncovered by the careful presentation of the texts in this fully annotated new edition. Jane Austen's fiction manuscripts are the first substantial collection of autograph writings to survive for a British novelist. They represent every stage of her writing life, from childhood--aged 11 or 12--to the year of her death. The manuscripts represent a wide variety of physical states: working drafts, fair copies, and handwritten publications for private circulation. Where the juvenile, handwritten notebooks have long appeared to scholars to be finished artefacts, most of the other manuscript writings consist of pre-print or working drafts in various stages of development. There is no evidence to indicate that Austen saw the bulk of these working drafts as anything other than provisional. Hence the stark situation that no manuscripts remain for works which saw publication in her lifetime, the assumption being that these were routinely destroyed once replaced by print forms. There is only one exception: the two cancelled chapters of *Persuasion*, which represent an alternative ending to the one that made it into print. The manuscript evidence therefore represents a different Jane Austen: different in the range of fiction they contain from the novels we know only from print; and different in what they reveal about the workings of her imagination. Because of the variety of their pre-print states, because of their experimental range, and because of the way they extend the time span of her writing life (far longer than the single decade of the printed novels), these manuscript writings can claim a

special place in our understanding of the evolution of the famous fictions. The edition presents full transcriptions of the texts based on a fresh examination of all the extant witnesses in Austen's hand, with facing facsimile images of the manuscript pages, and commentary on revisions, over-writings, erasures, and other features of the manuscripts.

The *Feminism of Uncertainty* brings together Ann Snitow's passionate, provocative dispatches from forty years on the front lines of feminist activism and thought. In such celebrated pieces as "A Gender Diary"—which confronts feminism's need to embrace, while dismantling, the category of "woman"—Snitow is a virtuoso of paradox. Freely mixing genres in vibrant prose, she considers Angela Carter, Doris Lessing, and Dorothy Dinnerstein and offers self-reflexive accounts of her own organizing, writing, and teaching. Her pieces on international activism, sexuality, motherhood, and the waywardness of political memory all engage feminism's impossible contradictions—and its utopian hopes.

The experiences of Coyote show how greed, crooked dealings, and boundless appetite can cause trouble. The legends tell of the humanity, the spirit of all creation. Illustrations by Ktunaxa artists appear on every page, adding to the tales' appeal for readers of all ages. Carefully translated into English, the legends offer a glimpse into the history of story-telling and Ktunaxa Indian tradition. "

While critics collect around the question of what comes "after postmodernism,"

this book asks something different about recent American fiction: what if we are seeing not the end of postmodernism but its belated success? Succeeding Postmodernism examines how novels by DeLillo, Wallace, Danielewski, Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation, and possible ways of resisting the disaffected solipsism bred by that culture. Ultimately it finds that twenty-first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean: it finds that novels today offer language as solution to the problem of language. Thus it suggests a new way of reading "antihumanist" late postmodern fiction, and a framework for understanding postmodern and twenty-first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature.

With the growing strength of minority voices in recent decades has come much impassioned discussion of residential schools, the institutions where attendance by Native children was compulsory as recently as the 1960s. Former students have come forward in increasing numbers to describe the psychological and physical abuse they suffered in these schools, and many view the system as an experiment in cultural genocide. In this first comprehensive history of these institutions, J.R. Miller explores the motives of all three agents in the story. He looks at the separate experiences and agendas of the government officials who authorized the schools, the missionaries who taught in them, and the students who attended them. Starting with the foundations of residential schooling in seventeenth-century New France, Miller traces the modern version of the institution that was created in the 1880s, and, finally, describes the phasing-out of the schools in the 1960s. He looks at instruction, work and recreation, care and abuse, and the growing resistance to the system on the part of students and their families. Based on extensive interviews as well as archival research, Miller's history is particularly rich in Native accounts of the school system. This book is an absolute first in its comprehensive treatment of this subject. J.R. Miller has written a new chapter in the history of relations between indigenous and immigrant peoples in Canada. Co-winner of the 1996 Saskatchewan Book Award for nonfiction. Winner of the 1996 John Wesley Dafoe Foundation competition for Distinguished Writing by Canadians Named an 'Outstanding Book on the subject of human rights in North America' by the Gustavus Myer Center for the Study of Human Rights in North America.
