

Russian Verbs Of Motion Exercises

This updated version of the Penguin Russian Course introduces the learner, through translation extracts, to the culture and life of the modern (post Glasnost) Soviet Union that was, as well as to the Russian language.

This volume illustrates how language revival movements in Russia and elsewhere have often followed a specific pattern of literacy bias in the promotion of a minority's heritage language, partly neglecting the social and relational aspects of orality. Using the Vepsian Renaissance as an example, this volume brings to the surface a literacy-orality dualism new to the discussion around revival movements. In addition to the more-theoretically oriented scopes, this book addresses all the actors involved in revival movements including activists, scholars and policy-makers, and opens a discussion on literacy and orality, and power and agency in the multiple relational aspects of written and oral practices. This study addresses issues common to language revival movements worldwide and will appeal to researchers of linguistic anthropology, sociolinguistics, education and language policy, and culture studies.

Russian, Book 1: Russian Through Propaganda is the first volume in a new series of Russian textbooks with a rigorous but rewarding approach to the language. It assumes no prior knowledge of Russian, and is intended for ambitious beginners, or more advanced students seeking a highly structured review of the language. It assumes that its readers are interested in long-term mastery of the language, within the rich historical, cultural, and literary contexts that often draw students to Russian in the first place. It therefore takes the time to explain challenging grammar topics in depth, striving to provide the full picture as clearly as possible. It is richly illustrated with Soviet-era propaganda posters, whose slogans serve as examples of each lesson's grammar. It is structured as a series of 50 daily lessons, which build upon one another and give a clear sense of progress. It is the equivalent of a semester of intensive college-level study of Russian. Audio and other resources are available online.

This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination.

How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence.
