In 2014, France lost part of the control of its nuclear power plants to the United States. Frédéric Pierucci, former senior executive of one of Alstom's power company subsidiaries, found himself at the heart of this state scandal. His story goes to the very core of how he plotted the key features of the secret economic war that the United States is waging in Europe. And after being silenced for a long time, he has decided, with the help of journalist Matthieu Aron, to reveal all. In April 2013, Frédéric Pierucci was arrested in New York by the FBI and accused of bribery. The US authorities imprisoned him for more than two years - including fourteen months in a notorious maximum-security prison. In doing so, they forced Alstom to pay the biggest financial penalty ever imposed by the United States. In the end, Alstom also gave up areas of control to General Electric, its biggest American competitor. Frédéric's story unpacks how the United States is using corporate law as an economic weapon against its own allies. One after the other, some of the world's largest companies are being actively destabilised to the benefit of the US, in acts of economic sabotage that seem to be the beginning of what's to come...

She's an artist and writer, he makes wooden bowls. Within four years they are parents to three children, two daughters and a red-headed son who fills his pockets with rocks, plays the violin and talks to God. To Eleanor, their New Hampshire farm provides everything she always wanted—summer nights watching Cam's softball games, snow days by the fire and the annual tradition of making paper boats and cork people to launch in the brook every spring. If Eleanor and Cam don't make love as often as they used to, they have something that matters more. Their family. Then comes a terrible accident, caused by Cam's negligence. Unable to forgive him, Eleanor is consumed by bitterness, losing herself in her life as a mother, while Cam finds solace with a new young partner. Over the decades that follow, the five members of this fractured family make surprising discoveries and decisions that occasionally bring them together, and often tear them apart. A story of holding on and learning to let go, *Count the Ways* is an achingly beautiful, poignant, and deeply compassionate novel of home, parenthood, love, and forgiveness.

"Stunning... The intelligent, cerebral plot finds contemporary parallels in Euripides's tragedies, Jacobean dramas such as *The Duchess of Malfi*, and Tennyson's poetry. The devastating ending shows just how little the troubled Mariana knows about the human psyche or herself. Michaelides is on a roll." —Publishers Weekly, starred review "A deliciously dark, elegant, utterly compulsive read—with a twist that blew my mind. I loved this even more than I loved *The Silent Patient* and that's saying something!" —Lucy Foley, New York Times bestselling author of *The Guest List* From the #1 New York Times bestselling author of *The Silent Patient* comes a spellbinding tale of psychological suspense, weaving together Greek mythology, murder, and obsession, that further cements "Michaelides as a major player in the field" (Publishers Weekly). A handsome and charismatic Greek tragedy professor at Cambridge University, Fosca is adored by staff and students alike—particularly by the members of a secret society of female students known as *The Maidens*. something sinister. And she becomes convinced that, despite his alibi, Edward Fosca is guilty of the murder. But why would the professor target one of his students? And why does he keep returning to the rites of Persephone, the maiden, and her journey to the underworld? When another body is found, Mariana's obsession with proving Fosca's guilt spirals out of control, threatening to destroy her credibility as well as her closest relationships. But Mariana is determined to stop this killer, even if it costs her everything—including her own life.

A NATIONAL BESTSELLER This beloved memoir "is an extraordinary, honest, nuanced and compassionate look at adoption, race in America and families in general" (Jasmine Guillory, Code Switch, NPR) What does it mean to lose your roots—within your culture, within your family—and what happens when you find them? Nicole Chung was born severely premature, placed for adoption by her Korean parents, and raised by a white family in a sheltered Oregon town. From childhood, she heard the story of her adoption as a comforting, prepackaged myth. She believed that her biological parents had made the ultimate sacrifice in the hope of giving her a better life, that forever feeling slightly out of place was her fate as a transracial adoptee. But as Nicole grew up—facing prejudice her adoptive family couldn't see, finding her identity as an Asian American and as a writer, becoming ever more curious about where she came from—she wondered if the story she'd been told was the whole truth. With warmth, candor, and startling insight, Nicole Chung tells of her search for the people who gave her up, which coincided with the birth of her own child. *All You Can Ever Know* is a profound, moving chronicle of surprising connections and the repercussions of unearthing painful family secrets—vital reading for anyone who has ever struggled to figure out where they belong.
