SAP Transaction Codes is a useful reference for end users of the SAP business software, as well as those implementing and/or maintaining the SAP application. The book lists approximately 3800 of the most frequently used transaction codes available in the SAP system. It will enable a user to quickly identify the most popular T-codes within a functional module, such as finance, controlling, materials management, human resources, payroll, quality management, etc. Also, when the T-code is known, it can help identify the associated module. SAP Transaction Codes also contains three step-by-step procedures, which demonstrate how to execute a transaction using the T-code shortcut method, how to determine the menu tree when the T-code is known, and how to use the

entire spectrum. It covers the important transactional functions relating to the entire Order to cash, Requisition to Pay, General Ledger & daily and periodic financial activities in any organization. In writing this book, I have stayed away from all frills and concentrated on providing only useful subject matter with tips and tricks based on over my multiple years experience in SAP implementations and consulting. This book is not a result of overnight arrangement but a composition of several years of training and understanding of Business processes across multiple industries in various disciplines. I believe it is as comprehensive as any book can be for users new and old, to conducting Supply Chain functions on SAP. This manual will be very useful to someone trying to make an entry into the field of SAP as a user and not knowing where to begin, to companies already implementing or running SAP and to consultants wanting to explore the user side better to become more comfortable with the Business lingo.

In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements.
