Lifelong gardener Judy Lowe gives you the knowledge to make the right cut the first time. "Pruning panic" is an all-too-familiar feeling among even experienced gardeners, but it's especially prevalent among those of us who are new to the practice. In *Pruning: An Illustrated Guide*, award-winning gardening writer Judy Lowe imparts over two decades of expertise, focusing on the most common backyard pruning needs for the most commonly grown landscape plants. From trees and shrubs to hydrangeas, azaleas, roses, and other perennials, Lowe takes an in-depth approach to all the pruning essentials. Throughout the book, her advice is accompanied by brilliantly detailed step-by-step line drawings that clearly demonstrate where and how to make precise, effective cuts. Lowe removes all intimidation from the pruning process: beyond the craft itself, you'll gain an understanding of the basic science behind plant growth, why plants need pruning, when they'll need it, and how pruning techniques can vary between plant species. So the next time you pick up a pruning saw or a pair of loppers, panic will be the furthest thing from your mind—and from your garden.

I wrote this book to help people like myself, who may have tried to understand the Bible or have been intimidated by it. In the beginning of my study of the Bible, I spent hours trying to get the hang of it. I got lost reading long lists of names I couldn't even figure out how to pronounce. The book of Leviticus contained lists of rules and regulations.

Proper pruning is essential to the health and beauty of every landscape. Pruning keeps the garden in order so that each plant can be appreciated for its singular beauty while adding to the overall landscape picture. In order to accomplish this task and make it more a pleasure than a job, one needs to have the proper tools. Tools are an extension of the user and as such should be as much about the pride of ownership as it is about comfort and purpose. The proper tools and the care of these tools will lead to the rewards that come with nurturing and caring for living things as well as a chance to express the inner creativity that exists in all of us. Care and creation, two essential elements in life that the art of pruning will bring to those who have the patience to work the process.
