The slim volume of essays, presented here for the first time in English translation, is one of the significant documents of musical aesthetics of this century. If the book itself has remained the province of a mere handful of readers, its ideas, passed on through a variety of later musical and literary movements, became the inspiration for some of the most innovative artistic creations of modern times. Luigi Russolo anticipated-indeed, he may have precipitated-a whole range of musical and aesthetic notions that formed the basis of much of the avant-garde thought of the past several decades. His ideas were absorbed, modified, and eventually transmitted to later generations by a number of movements and individuals-among them the futurists, the Dadaists, and a number of composers and writers of the nineteen-twenties. The noise instruments he invented fascinated and infuriated his contemporaries, and he was among the earliest musicians to put the often-discussed microtone to regular practical use in Western music. Russolo's views looked forward to the time when composers would exercise an absolute choice and control of the sounds that their music employed. He was the precursor of electronic music before electronics had come of age.

It is November 1918. Germany has just surrendered after four years of the most savage warfare in history. It is teetering on the brink of total social and economic collapse, and the German people now lie at the mercy of new, liberal politicians who despise everything Germany once stood for. The Communists are rioting in the streets, threatening to topple the new government in Weimar and bring about their own revolution. The frontline soldiers are returning from the hell of the war to find an unrecognizable land, the principles and traditions they had sacrificed so much to defend now the stuff of mockery. The narrator of *The Outlaws*, a 16-year-old military cadet, is too young to have served in the trenches, but feels the sting of this betrayal no less than they. Since Germany's armies have been all but disbanded, he joins the paramilitary Freikorps - groups of veterans who refuse to lay down their arms, and who have pledged to stop the Communists - and begins fighting, first in the streets of Germany's cities, and then in the Baltic states, defending Germany's eastern frontiers from Communist subversion while ignoring the calls to disengage by the meek politicians at home. After months of intense fighting abroad, the Freikorps soldiers return to settle scores with their enemies in Germany, dreaming of a nationalist counter-revolution, and, their trigger fingers still itchy, fix their sights on bringing down the hated new government once and for all... *The Outlaws* is a chronicle of the experiences of the men who fought in the Freikorps, but it is also an adventure and a war story about an entire generation of soldiers who loved their homeland more than peace and comfort, and who refused to accept defeat at any price. "What we wanted we did not know; but what we knew we did not want. To force a way through the prisoning wall of the world, to march over burning fields, to stamp over ruins and scattered ashes, to dash recklessly through wild forests, over blasted heaths, to push, conquer, eat our way through towards the East, to the white, hot, dark, cold land that stretched between ourselves and Asia - was that what we wanted? I do not know whether that was our desire, but that was what we did. And the search for reasons why was lost in the tumult of continuous fighting." - p. 65 Ernst von Salomon (1902-1972) was one of the writers of the German Conservative Revolution of the 1920s. Like the narrator of *The Outlaws*, he was a military cadet at the end of the First World War, and joined the Freikorps, participating in many of the events described in the book, including the assassination of Foreign Minister Walther Rathenau, for which he was imprisoned. He went on to write many books and film scripts.

For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated. "All of us are called to keep striving towards something greater than ourselves and our families, and every family must feel this constant impulse. Let us make this journey as families, let us keep walking together." Pope Francis, *Amoris Laetitia* In his groundbreaking work on modern family life, *Amoris Laetitia: On Love in the Family*, Pope Francis continues to guide and lead the Church, calling us to be a sign of mercy and encouragement for families of all shapes and sizes. The Our Sunday Visitor edition includes exclusive reflection and discussion questions, to help Catholics grow in our understanding of this call, and act upon it. In *Amoris Laetitia: On Love in the Family* the Holy Father expands on the topics and considerations of the two Synods on the family, and adds his own considerations to help us provide pastoral guidance to support and strengthen today's families. *On Love in the Family* guides us through: Scripture – what we can learn from Biblical families and relationships with God and each other Reality – the experiences and challenges we face in today's world Tradition – essential aspects of Church teaching on marriage and families Love – what it means for all our relationships Ministry – Pope Francis offers pastoral perspectives for helping build strong families Spirituality – the expression of the Gospel message in our relationships

Vital Voices: 100 Women Using Their Power to Empower celebrates 100 global female leaders who are redefining power. Candid and compelling, each leader shares personal stories, insights and ideas, showing us that women lead differently and that this difference is sorely needed in our world today. While each woman is path-breaking in her own right, it's together that these 100 voices illustrate the transformative power of women's leadership across cultures,

industries and generations. A celebration of women's suffrage and gender equality through the use of visual and anecdotal story-telling as told through the eyes of 100 global women leaders who are redefining power, and using their power to strengthen female relationships across the globe. Some of the women featured in the book include Serena Williams, Hillary Clinton, Christine Lagarde, Greta Thunberg, and Samar Minall Ah Khan.

Engineer, manager, executive, author and lecturer, Dr. Joseph M. Juran compiles the first-ever international history on managing for quality. Focusing on the elements of quality management common to all industries, this volume illustrates the immense effect that quality, and its evolution, has had on civilization over the centuries. Juran brings together a richly diverse group of authors, each one a renowned authority in the field of quality management. Each of the 17 stand-alone chapters describes how managing for quality evolved in a specific geographical area and during a specific time frame of human history. Juran summarizes this historical profile with a final chapter that identifies and traces worldwide trends, derives lessons learned over history, and suggests likely directions in managing for quality for the next century.

Internet of Things in Biomedical Engineering presents the most current research in Internet of Things (IoT) applications for clinical patient monitoring and treatment. The book takes a systems-level approach for both human-factors and the technical aspects of networking, databases and privacy. Sections delve into the latest advances and cutting-edge technologies, starting with an overview of the Internet of Things and biomedical engineering, as well as a focus on 'daily life.' Contributors from various experts then discuss 'computer assisted anthropology,' CLOUDFALL, and image guided surgery, as well as bio-informatics and data mining. This comprehensive coverage of the industry and technology is a perfect resource for students and researchers interested in the topic. Presents recent advances in IoT for biomedical engineering, covering biometrics, bioinformatics, artificial intelligence, computer vision and various network applications. Discusses big data and data mining in healthcare and other IoT based biomedical data analysis. Includes discussions on a variety of IoT applications and medical information systems. Includes case studies and applications, as well as examples on how to automate data analysis with Perl R in IoT.

Quality in the church, mission and vision, leadership, systems thinking, evangelism, members and customers, Christian community, and the primary task of the church are topics addressed in this provocative work.

This book explores how lighting systems based on LED sources have the ability to positively influence the human circadian system, with benefits for health and well-being. The opening chapters examine the functioning of the human circadian system, its response to artificial lighting, potential health impacts of different types of light exposure, and current researches in circadian photometry. A first case study analyzes the natural lighting available in an urban interior, concluding that it is unable to activate the human circadian system over the entire year. Important original research is then described in which systems suitable for artificial circadian lighting in residential interiors and offices were developed after testing of new design paradigms based on LED sources. Readers will also find a detailed analysis of the LED products available or under development globally that may contribute to optimal artificial circadian lighting, as well as the environmental sensors, control interfaces, and monitoring systems suitable for integration with new LED lighting systems. Finally, guidelines for circadian lighting design are proposed, with identification of key requirements.

The narrator tries to reconstruct the life and death of Krasnov, a Russian anticommunist, and his role in the history of the city of Trieste

As a boy growing up in rural Italy in the 1930s, Damn is experiencing the first stirrings of adolescence when he accidentally sees his mother having sex with the local Fascist commandant. His pain, anger, and confusion are uncomfortably intertwined with a compulsion to watch them, which becomes an obsession. Isolating himself from anyone who might help him understand what he's feeling, he channels his fury into his javelin, getting better and better until he is a local champion. But his success is fleeting, as wholly confused and caught up in his own anger, he ends up betraying and humiliating his friends. The Javelin Thrower is the story of an erotic education turned tragic, poisoned by the darkness running through Mussolini's Italy.

Seventeen-year-old Carla Ambrogio works as a shorthand typist in the shadow of the Duomo. Written between 1954 and 1957, and set in Milan just after the Second World War, this book describes how Carla confronts the hostile environment in which she lives and works with courage and intelligence.

Recognising strangeness in familiar objects, the present in the past, the construed in what is authentic -- the four masterly photographers show excerpts from our world in which the boundary between reality and imagination becomes blurred. From fleeting everyday scenes to mysterious happenings and historical events, they reveal a complex and multi-layered reality. Thomas Demand, Philip-Lorca diCorcia, Andreas Gursky and Jeff Wall use the proximity to reality and the momentary nature of photography in order to create their idiosyncratic viewpoints of reality. What is real? They play with the viewers' perceptions, irritate and invite them to an individual interpretation of what is shown. This exclusive volume presents the works of the stars of the contemporary international photography scene magnificently and in clearly narrated texts.

The basis for Stanley Kubrick's masterpiece, Dr. Strangelove: A chilling Cold War thriller in which unchecked power unleashes total nuclear disaster. Air Force Brigadier General Quinten is a dying man suffering from the paranoid delusion

that he can make the world a better place by ordering a full-scale nuclear attack on the Soviet Union. Receiving word of the attack already underway, the president of the United States and his advisors now must work frantically to stop it. The US bombers are to be shot down—but a lone bomber called the “Alabama Angel” escapes and flies on to complete its lunatic mission, ignoring the president’s orders. A ghastly and chilling vision of what might happen when profound and deadly power is put into the wrong hands, this classic thriller continues to serve as a warning in today’s tumultuous political climate.

This book takes its start from a series of attempts to use Caravaggio’s works for contemporary humanitarian communications. How did his Sleeping Cupid (1608) end up on the island of Lampedusa, at the heart of the Mediterranean migrant crisis? And why was his painting The Seven Works of Mercy (1607) requested for display at a number of humanitarian public events? After critical reflection on these significant transfers of Caravaggio’s work, Francesco Zucconi takes Baroque art as a point of departure to guide readers through some of the most haunting and compelling images of our time. Each chapter analyzes a different form of media and explores a problem that ties together art history and humanitarian communications: from Caravaggio’s attempt to represent life itself as a subject of painting to the way bodies and emotions are presented in NGO campaigns. What emerges from this probing inquiry at the intersection of art theory, media studies and political philosophy is an original critical path in humanitarian visual culture. Leopardi, poet and philosopher, explores in humorous but savage dialogue the power of fashion and its strange irrationality. He also imagines conversations between Hercules and Atlas, Nature and an Icelander, and the Earth and the Moon, as well as producing a simple essay praising the humble bird. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

A TIMES LITERARY SUPPLEMENT BEST BOOK OF THE YEAR Drawing on an exceptional combination of skills as literary biographer, novelist, and chronicler of London history, Peter Ackroyd surely re-creates the world that shaped Shakespeare--and brings the playwright himself into unusually vivid focus. With characteristic narrative panache, Ackroyd immerses us in sixteenth-century Stratford and the rural landscape—the industry, the animals, even the flowers—that would appear in Shakespeare’s plays. He takes us through Shakespeare’s London neighborhood and the fertile, competitive theater world where he worked as actor and writer. He shows us Shakespeare as a businessman, and as a constant reviser of his writing. In joining these intimate details with profound intuitions about the playwright and his work, Ackroyd has produced an altogether engaging masterpiece.

Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features: * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) * Problem loan management is discussed as a growing professional issue (see chapter 16). * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities. * 'Industry insight' boxes profile current professional issues and identify industry developments. * 'A day in the life of...'boxes highlight the diversity of professional roles in the banking industry.

Create your space with simplicity, tranquility, and beautifully minimalist style. The yearning for a life of pared-down purity has built to a roar, and Serena Mitnik-Miller and Mason St. Peter—the husband-and-wife owners of General Store, one of California’s most talked-about shops—are at the forefront. In Abode: Thoughtful Living with Less, these tastemakers make a graceful case for living better no matter your budget or abilities, guiding you to create a space this is simple and true. Their time-tested methods create interiors that maximize openness, strip a building back to its bones, and amplify natural light, evoking unpretentious tranquility. The blueprint for their signature aesthetic is all here: the embrace of elemental materials, curation of handcrafted objects, and collection of furnishings from eras when craftsmanship was king. This selection of Mitnik-Miller and St. Peter’s greatest collaborations will take you through their breathtaking rooms, masterpieces of warm minimalism. Abode is a glimpse into the couple’s process and a guide to manifesting your own beautiful interiors.

Anita Lahey's second collection, *Spinning Side Kick*, is a hard-knuckled look at the other half. These lively poems mix a girl-about-town cockiness with an all-too-rare emotional honesty about men, love, and relationships. Whether the subject is a one-man chimney demolition, the lifelong fidelity of seahorses, a lover at war in Afghanistan or a kickboxing match, Lahey confronts the enduring disconnect between the sexes in a language that is slangy and quick, punctuated with jabs. She eyes those moments—in a day, in a life—when the normal clues we rely on disappear, shifting the line between domesticity and danger. In *Spinning Side Kick*, a talented poet returns with sharper aim.

This book examines the history of the doctor-patient relationship and the author gives his opinion on how it should be shaped in the future.
