Debt-for-development exchanges are an important financing tool for development. They make debt relief more politically and practically attractive to donor countries and serve the development of recipient countries through the cancellation of external debt and the funding of important development projects.

This book commences by chronicling the emergence of debt-for-development exchanges from their forbears, debt-equity exchanges, and analyzes why debt for development suffers from very few of the problems that plagued debt equity. The book analyzes the different types of debt-for-development exchanges and the different ways they have been used by all donor nations that have made use of them. The book then explores a range of critical perspectives on exchanges and concludes by considering a wide range of new and innovative uses for the funds generated by exchanges.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the

contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all. The United States is formally represented around the world by approximately 14,000 Foreign Service officers and other personnel in the U.S. Department of State. Roughly one-third of them are required to be proficient in the local languages of the countries to which they are posted. To achieve this language proficiency for its staff, the State Department's Foreign Service Institute (FSI) provides intensive language instruction and assesses the proficiency of personnel before they are posted to a foreign country. The requirement for language proficiency is established in law and is incorporated in personnel decisions related to job placement, promotion, retention, and pay. A Principled Approach to Language Assessment: Considerations for the U.S. Foreign Service Institute evaluates the different approaches that

exist to assess foreign language proficiency that FSI could potentially use. This report considers the key assessment approaches in the research literature that are appropriate for language testing, including, but not limited to, assessments that use task-based or performance-based approaches, adaptive online test administration, and portfolios.

Second language assessment is ubiquitous. It has found its way from education into questions about access to professions and migration. This volume focuses on the main debates and research advances in second language assessment in the last fifty years or so, showing the influence of linguistics, politics, philosophy, psychology, sociology, and psychometrics. There are four parts which, when taken together, address the principles and practices of second language assessment while considering its impact on society. Read separately, each part addresses a different aspect of the field. Part I deals with the conceptual foundations of second language assessment with chapters on the purposes of assessment, and standards and frameworks, as well as matters of scoring, quality assurance, and test validation. Part II addresses the theory and practice of assessing different second language skills including aspects like intercultural competence and fluency. Part III examines the challenges and

File Type PDF Score Guide Pte Academic

opportunities of second language assessment in a range of contexts. In addition to chapters on second language assessment on a national scale, there are chapters on learning-oriented assessment, as well as the uses of second language assessment in the workplace and for migration. Part IV examines a selection of important issues in the field that deserve attention. These include the alignment of language examinations to external frameworks, the increasing use of technology to both deliver and score second language tests, the responsibilities associated with assessing test takers with special needs, the concept of 'voice' in second language assessment, and assessment literacy for teachers and other test and score users. Includes chapters on key aspects of second language assessment such as test construct, diagnosis, exam design, and the growing range of public policy, social and ethical issues. Each of the contributors is an expert in their area; some are established names while others are talented newcomers to the field. The chapters present new

research or perspectives on traditional concerns such as test quality; fairness and bias; the testing of different language skills; the needs of different groups of examinees, including English language learners who need to take content tests in English; and the use of language assessments for gate-keeping purposes. The volume demonstrates how language assessment is informed by and engages with neighbouring areas of applied linguistics such as technology and language corpora. The book represents the best of current practice in second language assessment and, as a one volume reference, will be invaluable to students and researchers looking for material that extends their understanding of the field.

Taguchi and Roever present the latest developments in second language pragmatics research, combining acquisitional and sociolinguistic perspectives. They cover theories of pragmatics learning and research methods in investigating pragmatics, linking these with findings on the acquisition of second language pragmatics and with practice in teaching and assessing pragmatics. Discussing pragmatics in the context of multilingual societies and diverse contexts of use, they offer a broad perspective on this growing area. "Written by two leading authorities, *Second Language Pragmatics* offers a comprehensive review of pragmatics as an object of second language learning, instruction and assessment. The book masterfully lays out the advances made over three decades, showing in welcome descriptive detail how the field has benefited from the diverse theoretical perspectives and empirical traditions that define it today. Taguchi

and Roever extend a persuasive invitation to further research on second language pragmatics as a multilingual, multicultural, and multicontextual enterprise.” Gabriele Kasper, Professor of Second Language Studies, University of Hawai'i at Mānoa Naoko Taguchi is Associate Professor in the Modern Language Department at Carnegie Mellon University, USA Carsten Roever is Associate Professor in the School of Languages and Linguistics at the University of Melbourne, Australia Oxford Applied Linguistics Series Advisers: Anne Burns and Diane Larsen-Freeman

This edited volume investigates the nature and possible applications of an expanded and reconceptualized theoretical construct of speaking as a dynamic socially-constructed endeavour. It addresses both theoretical perspectives and methodological procedures to define and circumscribe the assessment of contextualized speaking. The chapters focus on the complexity brought about by actual interactional competence in speaking tasks and discuss how testing and assessment models and practices can incorporate recent research findings on the inherently dynamic and situated nature of language use. The volume presents research on language assessment in a variety of languages other than English, including French, Chinese and Japanese. It also examines the role that embodied action (gaze, gesture, orientation to materials and texts in the

environment) plays in assessment practices, an area that has heretofore remained under-explored. Chapter 6 will be free to download as an open access publication. We will link to it here as soon as it is available.
