In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Wincingly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

This is the second book for J C Sum's "Unwritten: A Hands-off Book Test that Transcends Words." "Unwritten" is a professionally designed and produced book that allows you to bring the traditional book test beyond just words by incorporating visual drawings as the focus of the thoughts and revelations. It is perfect for performers looking to present a visual book test routine. The 260-page 5.5" x 8.5" book is in the form of an English language guide for travelers which gives motivation for the book content, layout and format. From a presentation point of view, the English language guide for travelers also allows for a variety of interesting introductory pattern presentations. The nature of the book makes it perfect for shows for corporate events, travel fairs, tourist attractions, cruise ships, schools & libraries. The full "Unwritten" routine consists of two different basic effects. Effect 1 - Any Word Drawing A spectator opens the book to any page and chooses a word describing something that she can visualize in her mind. Without asking for the page number or any specifics of the word (such as the length of the word or the letters it contains), the performer correctly draws out the image that the spectator is visualizing. Effect 2 - Imagined Drawing Prediction A spectator opens the book to any page and mentally selects a word from the last line of a chosen paragraph. She makes a simple drawing that represents the word and then uses her imagination to add to the sketch to make it into a larger picture. A sealed envelope that has been in full view from the start of the show is opened to reveal a prediction drawing that correctly matches the spectator's imagined drawing! Note: Instead of a prediction, you can perform the effect as a drawing duplication. Both effects can be performed individually or together to form a complete routine. The routine can be performed in casual settings or close-up, parlour and large-scale stage shows. "Unwritten" includes the following features: - Can be Performed Completely Hands Free - The Book Can be Freely Examined During Performance - No Pumping for Page Numbers, Length of Word or Specific Letters - No Peeks - No Switches - No Pre-Show Work - No Sleight of Hand - No Memory Work or Cribes - No Assistants - Large Fonts Make the Text Easy to Read - Can Be Performed Stand-Alone or with Other Book Tests

Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) a sentence builder modelling the target constructions; 2) a set of vocabulary building activities; 3) a set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; - a set of retrieval-practice translation tasks; 4) a set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.
