A New York Times Notable Book: A psychologist's "gripping and thought-provoking" look at how and why our brains sometimes fail us (Steven Pinker, author of *How the Mind Works*). In this intriguing study, Harvard psychologist Daniel L. Schacter explores the memory miscues that occur in everyday life, placing them into seven categories: absent-mindedness, transience, blocking, misattribution, suggestibility, bias, and persistence. Illustrating these concepts with vivid examples—case studies, literary excerpts, experimental evidence, and accounts of highly visible news events such as the O. J. Simpson verdict, Bill Clinton's grand jury testimony, and the search for the Oklahoma City bomber—he also delves into striking new scientific research, giving us a glimpse of the fascinating neurology of memory and offering "insight into common malfunctions of the mind" (*USA Today*). "Though memory failure can amount to little more than a mild annoyance, the consequences of misattribution in eyewitness testimony can be devastating, as can the consequences of suggestibility among pre-school children and among adults with 'false memory syndrome' . . . The basis for the upcoming major motion picture *The Program* directed by Stephen Frears (*High Fidelity*, *The Queen*, *Philomena*), starring Chris O'Dowd as journalist David Walsh and Ben Foster as Lance Armstrong. When Lance Armstrong won his first Tour de France in 1999, the sports world had found a charismatic new idol. Journalist David Walsh was among a small group covering the tour who suspected Armstrong's win wasn't the feel-good story it seemed to be. From that first moment of doubt, the next thirteen years of Walsh's life would be focused on seeking the answers to a series of hard questions about Armstrong's astonishing success. As Walsh delved ever deeper into the shadow world of performance-enhancing drugs in professional athletics, he accumulated a mounting pile of evidence that led a furious Armstrong to take legal action against him. But he could not make Walsh—or the story—go away, and in the autumn of 2012, Walsh was vindicated when the cyclist was stripped of his seven Tour de France titles. With this remarkable book, Walsh has produced both the definitive account of the Armstrong scandal,

and a testament to the importance of journalists who are willing to report a difficult truth over a popular fantasy.

"The punditocracy are our modern day mythmakers. The anthropologists assembled in this collection deftly debunk their myths and make a passionate case for the importance of anthropology to public debate. The authors present sustained, intelligent, and often biting and humorous criticisms of some of the most influential recent popular writings on social science and international relations. This is a very important book."—Bill Maurer, author of *Recharting the Caribbean* "From an anthropological standpoint, the world increasingly looks as if it is led by glib, but uninformed, insensitive dolts. In this volume, the authors fight back against the pundits whose influential publications presume the same expertise as anthropologists. They underscore the overgeneralizations, prejudices, false reasoning, and inaccuracies of these popular authors and in doing so provide a useful corrective."—William Beeman, author of *The Study of Culture at a Distance* "This volume is a bold attempt, in language as accessible as the reigning rhetorics, to remake the terms of public debate, to lessen the fear of the primordial, and to allow Americans to understand better the challenges, the errors, and the possibilities of what is being done elsewhere in their name."—George Marcus, co-author of *Anthropology as Cultural Critique* "This 'must read' volume is Public Anthropology at its best. It invokes the anthropological veto, brings in voices from the margins, and talks back to society's new tribe of talking chiefs—the spin doctors, myth-makers, and pundits who reduce the richness and complexity of global and national dilemmas into bite-size and dangerous platitudes."—Nancy Scheper-Hughes, author of *Death Without Weeping: the Violence of Everyday Life in Brazil*

This textbook brings a fresh approach to the study of constitutional criminal rights in the context of the American criminal justice system. It is intentionally written at a level suitable for an undergraduate. *Seven Deadly Sins* presents seven core constitutional virtues, introduced to the reader via their mirror opposites, which the authors call the "seven deadly constitutional sins" of the criminal justice system. These negative attributes or "sins" are: intolerance, subterfuge, intrusiveness, craftiness, favoritism, cruelty, and subservience to authority. Some of these negative attributes are housed entirely in one amendment to the constitution (e.g. cruelty) while others span several areas of the Bill of Rights (e.g., subservience to authority). Each negative trait is presented in two companion chapters. The first of the two chapters introduces the negative trait (e.g., "ntolerance") and establishes its constitutional place via a presentation of various, appellate law decisions written in language suitable for an undergraduate student. The second, or companion, chapter then presents real world, non-legal "stories" from the field in the areas of policing and corrections that illustrate the trait using a more "hands on" approach. It is this combination of true stories from the field coupled with conceptualizing constitutional rights in terms of their mirror opposites (including the grouping of several amendments at once when necessary) that makes this book unique and fresh.

I have lost those who I have loved. I have bled for those I hate. I have lied to those who are honest. What am I? You're a sinner dressed in white. You're a ghost in the night. You're the demons that I fight. Who are you? Both of us were sinners. She was hell-bent on revenge, and I was determined to let her have it. She was a beautiful sin that alone would be my damnation. And for her, I was willing to dig my own grave. She took what little pride I had left and made me look like a fool. I lusted for a taste of her darkness, for it was the same color as mine. I envied the way she was able to say no, as if she really meant it. I will endure the wrath of having her no matter the cost of my greed. But I have always been a glutton for punishment without any propensity of sloth. She became my obsession and like any other drug, she took all the pain away but brought me to a new level of low. Too bad falling in love with her brought on a different kind of hell that I wasn't sure we would live through. We were both running from a past that was going to tear apart our future. What I thought was going to be a beautiful beginning turned out to be a torturous end.
