Preparing for the 11+ Pupils approaching the 11+ Examination face many challenges, including lack of time, uncertainty over what is required, and an ever-changing and secretive testing environment. Plain "mathematics" questions are progressively being replaced with more demanding "numerical reasoning" questions. Selective schools are increasingly interested in not only rote recall of methods but also the ability to understand questions expressed in prose and skilfully apply (sometimes several) mathematical principles to arrive at an answer. The Eureka! 11+ Challenging Maths and Numerical Reasoning series of books to provide focused preparation for pupils and their busy parents. Questions are expressed in words, with the pupils learning the habit of extracting the relevant numbers and key facts. Most questions are multi-part, reflecting the trend in examinations to challenge pupils skills at progressively higher levels as the question unfolds. These questions are the upper echelon of what is tested at 11+. Although they need only Key Stage 2 concepts, they are challenging because they require good command of multiple skills simultaneously. Pupils, and perhaps even parents, will find very few of these questions to be very easy. Thankfully, the real exam

will contain many easier questions, but preparation time is best spent on those which present greater challenges and therefore more learning opportunities. When answering the questions Set yourself a target, e.g. "3 questions in half an hour" Write down clearly your steps of working in full to make checking easier Go through the answers soon after doing the questions Do not be sad if you have made mistakes: learn from them Many questions cover areas where even strong pupils are prone to errors Watch out for the Traps described Incorporate the Tips into your methods in future See if the Method suggested is quicker or less open to error than yours For any examination, diligent practice, carefully analysing errors, mulling over methods, and developing and testing your own preferred approaches pay enormous dividends. Bond English Assessment Papers for 9-10 years Book 1 have been designed by Bond, the number 1 provider of 11+ practice materials. This book provides practice questions that begin to establish the core skills for success in English.

A boy befriends a young caveman in this modern children's classic of friendship and adventure. Barney isn't supposed to go near the chalk pit. His grandmother and sister both told him the edge could give way and he could fall in—but what else is he supposed to do on a miserable gray day? It's not long before Barney falls into the pit and bumps his head. But where he lands is more than an old garbage dump: It's a home. There's a little hut built out of discarded junk, and more surprisingly, there's a boy, about Barney's age, inside. He speaks in grunts instead of English, wears a rabbit-skin loincloth, has shaggy black hair, and might be named something that sounds like "Stig." Barney befriends him immediately. Together, Barney and Stig go on all sorts of adventures, building a chimney for Stig's hut, joining a foxhunt, stopping robbers, and catching a leopard escaped from the circus! Barney and Stig's escapades have been delighting children for more than fifty years, while addressing important topics such as bullying, recycling, and language barriers. This timeless classic is sure to captivate readers young and old with its wit, imagination, and sense of adventure.

The Non-Verbal Ninja Training Course Non-verbal reasoning questions in the 11+ exam provoke anxiety amongst students and parents alike, since the test seems, at first, to be unlike the activities of normal everyday life. In reality, however, it is straightforward to train to improve one's performance in these puzzles. The Non-Verbal Ninja Training Course from Eureka! Eleven Plus Exams is a three-part series of training books with several features to maximise the skill boost they provide to students. Full explanations are given immediately after each block of

questions Visual explanations are provided where these are easier to understand The early questions of each type are easy, testing only one or two rules Challenging, broad-ranging questions are soon introduced Each question teaches an additional skill or reinforces a core skill You are not told in advance exactly what the rule will be, so you build confidence in identifying the rule for yourself - a crucial skill for exam success The series of books, studied in sequence, covers the spectrum of types of format of questions and of the types of rule being tested. Some rules can be tested in many different settings. Dedicated practice and, more importantly, careful review of the explanations of questions that turned out to be difficult, is the key to success in Non-Verbal Reasoning.
