The Everyday Practice of Public Art: Art, Space, and Social Inclusion is a multidisciplinary anthology of analyses exploring the expansion of contemporary public art issues beyond the built environment. It follows the highly successful publication The Practice of Public Art (eds. Cartiere and Willis), and expands the analysis of the field with a broad perspective which includes practicing artists, curators, activists, writers and educators from North America, Europe and Australia, who offer divergent perspectives on the many facets of the public art process. The collection examines the continual evolution of public art, moving beyond monuments and memorials to examine more fully the development of socially-engaged public art practice. Topics include constructing new models for developing and commissioning temporary and performance-based public artworks; understanding the challenges of a socially-engaged public art practice vs. social programming and policymaking; the social inclusiveness of public art; the radical developments in public art and social practice pedagogy; and unravelling the relationships between public artists and the communities they serve. The Everyday Practice of Public Art offers a diverse perspective on the increasingly complex nature of artistic practice in the public realm in the twenty-first century.

When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

As seen on CBS Sunday Morning · A hilarious pictorial parody of a clueless father and his adorable daughter In an attempt to create an image that his new daughter would one day appreciate, Dave Engledow took a photo in which he's cradling eight-week-old Alice Bee like a football and doctored it to look like he's squirting breast milk into a "World's Best Father" mug. Friends and family clamored for more. After Dave's humorous attempts to capture the sleep-deprived obliviousness of being a first-time dad went viral, he and Alice Bee found themselves bona fide Internet and television celebrities. Merging a Norman Rockwell aesthetic with a darkly comic sensibility, Dave pairs each side-splittingly funny image with a log entry describing the awkward situation that the World's Best Father has found himself in. Hilarious and heartwarming, Confessions of the World's Best Father is a celebration of the early years of parenthood.

You name it, we can't do it. That was how one African American student at the University of Texas at Austin summed up his experiences in a 1960 newspaper article--some ten years after the beginning of court-mandated desegregation at the school. In this first full-length history of the university's desegregation, Dwonna Goldstone examines how, for decades, administrators only gradually undid the most visible signs of formal segregation while putting their greatest efforts into preventing true racial integration. In response to the 1956 Board of Regents decision to admit African American undergraduates, for example, the dean of students and the director of the student activities center stopped scheduling dances to prevent racial intermingling in a social setting. Goldstone's coverage ranges from the 1950 U.S. Supreme Court ruling that the University of Texas School of Law had to admit Heman Sweatt, an African American, through the 1994 Hopwood v. Texas decision, which ended affirmative action in the state's public institutions of higher education. She draws on oral histories, university documents, and newspaper accounts to detail how the university moved from open discrimination to foot-dragging acceptance to mixed successes in the integration of athletics, classrooms, dormitories, extracurricular activities, and student recruitment. Goldstone incorporates not only the perspectives of university administrators, students, alumni, and donors, but also voices from all sides of the civil rights movement at the local and national level. This instructive story of power,

race, money, and politics remains relevant to the modern university and the continuing question about what it means to be integrated.

An award-winning investigative journalist's horrifying true crime story of America's deadliest drug contamination outbreak and the greed and deception that fueled it. Two pharmacists sit in a Boston courtroom accused of murder. The weapon: the fungus *Exserohilum rostratum*. The death count: 100 and rising. Kill Shot is the story of their hubris and fraud, discovered by a team of medical detectives who raced against the clock to hunt the killers and the fungal meningitis they'd unleashed. "Bloodthirsty" is how doctors described the fungal microbe that contaminated thousands of drug vials produced by the New England Compounding Center (NECC). Though NECC chief Barry Cadden called his company the "Ferrari of Compounders," it was a slapdash operation of unqualified staff, mold-ridden lab surfaces, and hastily made medications that were injected into approximately 14,000 people. Once inside some of its human hosts, the fungus traveled through the tough tissue around the spine and wormed upward to the "deep brain," our control center for balance, breath, and the vital motor functions of life. Now, investigative journalist Jason Dearen turns a spotlight on this tragedy--the victims, the heroes, and the perpetrators--and the legal loopholes that allowed it to occur. Kill Shot forces a powerful but unchecked industry out of the shadows.

Dick Cavett is back, sharing his reflections and reminiscences about Hollywood legends, American cultural icons, and the absurdities of everyday life In Brief Encounters, the legendary talk show host Dick Cavett introduces us to the fascinating characters who have crossed his path, from James Gandolfini and John Lennon to Mel Brooks and Nora Ephron, enhancing our appreciation of their talent, their personalities, and their place in the pantheon. We tag along as Cavett spends an afternoon with Stan Laurel at his modest apartment in Los Angeles, spars with Muhammad Ali at his training camp, and comes to know a young Steve Jobs—who woos him to be Apple's first celebrity pitchman. He also offers piquant commentary on contemporary politics, the indignities of travel, the nature of comedy writing, and the utter improbability of being alive at all. On his talk show, Cavett welcomed the leading figures from film, music, theater, literature, comedy, and politics, and engaged them in conversation that made viewers feel that the discussion was taking place in their own living rooms. Jimmy Fallon, the host of The Tonight Show, has called him "a legend and an inspiration" and has written a foreword that makes clear the debt that today's talk show hosts owe to Dick Cavett. To spend a few minutes, or an hour, or even a whole evening with Dick Cavett is an experience not to be missed, and now there's no reason to deny yourself. Enjoy the conversation!

When Obama stated that if elected, he would keep his Blackberry, debate echoed through Washington and among the ranks of the Secret Service. What would it be like to have a president who could Twitter, send text messages, and navigate the web with ease? What would it be like to receive a text message from inside the Oval Office and, most importantly, what would it say? Now, for the first time, We The People are privy to our new leader's epistolary back-and-forths on his wily hand-held device. We're about to discover that his emails (and the replies, from his wife and daughters, Biden, Palen, Rush, Hannity, the new first puppy, and even Bush) are so tuned in to the language of electronic correspondence they come hilariously close to the brink of legibility. This giftable, imagined glimpse into Obama's beloved Blackberry traverses the mundane and momentous contours of the Commander in Chief's life, from security briefings to spam, basketball practice to domestic bliss, and the panic of oops-I-hit-reply-all, to, of course, the trauma of dealing with the First Mother In Law. Since the early twentieth century, Hyde Park has been known as a refuge and incubator for intellectuals, artists, novelists, poets, and free thinkers. Its best known institution, the University of Chicago, drew many of these persons close to its boundaries with the promise of a steady diet of conflicting ideas and lofty conversations. Throughout the first few decades of the twentieth century, Hyde Park went through a steady period of growth, both in residents and the construction of a dense network of walk-up apartment buildings and commercial facilities that offered a stark contrast to the more bucolic atmosphere of Hyde Park before the Columbian Exposition of 1893. By the late 1940s, parts of Hyde Park were showing signs of blight, as the area continued to house larger numbers of migrants from other depressed areas of the United States and programs of deferred or nonexistent maintenance began to have irreversible effects on the built environment. *Images of America: Hyde Park, Illinois*, focuses most of its attention on the period after World War II, all the way through the creation of the Hyde Park-Kenwood Urban Renewal Project, the first major urban renewal project in the United States.

100 EXTRAORDINARY STORIES ABOUT ORDINARY THINGS SIGNIFICANT OBJECTS: A Literary and Economic Experiment Can a great story transform a worthless trinket into a significant object? The Significant Objects project set out to answer that question once and for all, by recruiting a highly impressive crew of creative writers to invent stories about an unimpressive menagerie of items rescued from thrift stores and yard sales. That secondhand flotsam definitely becomes more valuable: sold on eBay, objects originally picked up for a buck or so sold for thousands of dollars in total — making the project a sensation in the literary blogosphere along the way. But something else happened, too: The stories created were astonishing, a cavalcade of surprising responses to the challenge of manufacturing significance. Who would have believed that random junk could inspire so much imagination? The founders of the Significant Objects project, that's who. This book collects 100 of the finest tales from this unprecedented creative experiment; you'll never look at a thrift-store curiosity the same way again.

Sandage's storytelling will resonate with all of us as it brings to life forgotten men and women who wrestled with *The Loser*--the label and the experience--in the days when American capitalism was building a nation of winners.

Homo sapiens have been speaking for hundreds of years—and yet basic communication still stymies us. We freeze up in elevators, on dates, at parties, under Dumpsters. We stagger through our exchanges merely hoping not to crash, never considering that we might soar. We go home sweaty and eat a birthday cake in the shower. But no more. With *What to Talk About* you'll learn to speak—fluently, intelligently, charmingly—to family, friends, coworkers, lovers, future lovers, horse trainers, children, even yourself. This hilarious manual, written by two award-winning authors and illustrated by legendary cartoonist Tony Millionaire, is tailor-made for anyone who might one day attend a dinner party, start a job, celebrate a birthday, graduate from school, date a human, or otherwise use words. *What to Talk About* is not rocket science, but it is a lot like brain surgery, in the sense that is terrifying, risky—and could change you forever.

The *Believer* magazine presents a compendium of advice from producers, writers, and actors of *The Daily Show*, *Saturday Night Live*, *Parks and Recreation*, *Late Show with David Letterman*, *The Hangover*, and *The Colbert Report*, along with other musicians, cartoonists, *New Yorker* writers, and those similarly unqualified to offer guidance. Here Amy Sedaris describes the perfect murder for unwanted hermit crabs—you will need a piece of meat and a brick. Simon Rich explains how to avoid being found dead in your underwear by firemen—buy some long johns. Zach Galifianakis provides insight into how he changed his name without a social security card—he just started calling himself Adam Zapple, and it stuck. Bob Saget finally illuminates what “friends with benefits” really means—a nonsexual relationship wherein your ex makes monetary deposits into your bank account. Contributors include: Rob Baedeker, Anne Beatts, Elizabeth Beckwith, Jerri Blank, Roz Chast, Louis C.K., Mike Doughty, Dave Eggers, Rich Fulcher, Zach Galifianakis, Dan Guterma, Anthony Jeselnik, Julie Klausner, Lisa Lampanelli, Nick Hornby, Sam Lipsyte, Liam Lynch, Merrill Markoe, Rose McGowan, Misc. In the great tradition of the American almanac, *The Areas of My Expertise* is a brilliant and hilarious compendium of handy reference tables, fascinating trivia, and sage wisdom on all topics large and small. Although bestsellers such as *Poor Richard's Almanack* and *The Book of Lists* were certainly valuable, they also were largely true. Here is a different kind of handy desk reference, one in which all of the historical oddities and amazing true facts are sifted through the singular, illuminating imagination of John Hodgman—which is the nice way of saying: He made it all up. John Hodgman brings his considerable expertise to bear in answering all of the questions book buyers have been asking: -What are the mottoes of the 51 United States? THE ANSWER IS PROVIDED -Who were the U.S. presidents who had hooks for hands? THE ANSWER IS PROVIDED -What role does the Yale secret society “Skull and Bones” play in the secret world government? THERE IS NO SECRET WORLD GOVERNMENT -What was the menu at the first Thanksgiving, and did it include eels? Technically, that is two questions, but do not apologize, for John Hodgman shall answer them both . . . LATER. -Aside from a compendium of fake trivia, what is the best kind of book to write? A SIMPLE TABLE OF THE 55 MOST DRAMATIC LITERARY SITUATIONS PROVIDES THE ANSWER, and John Hodgman is the author of that table. Imagine if *The Book of Lists* had been rewritten by Peter Cook and Jorge Luis Borges under the pseudonym of “John Hodgman” and then renamed *The Areas of My Expertise*, and you will only begin to have a sense of the dizzying, uproarious, sublimely weird, and strangely wise journey that is contained within this book (along with all the pages and words). Perfect for anyone who thirsts for knowledge, and especially for collectors of books of fake trivia, *The Areas of My Expertise* offers through absurdity a better understanding of the world we share—and recognizes that while the truth may be stranger than fiction, it is never as strange as lies . . . or as true. Look out for John Hodgman's latest book, *Vacationland*, available from Viking in Fall 2017.
