In *The Social Consequences of Modern Psychology* Eysenck takes the position that social science has real substance, and its findings ought to be applicable to social problems of our times. Although there is little that scientists can do about war and its prevention, or about social unrest and upheaval, or about strikes and other confrontations, there are a number of questions to which we can give tentative answers. This book deals with some of these questions, and finds some of the answers. Eysenck begins with a look at a paradox of modern psychology. Experimental psychologists use strictly scientific methods to investigate what to many people seem trivial and sterile problems, yet some social psychologists, psychiatrists and psychoanalysts investigate what are clearly important and socially relevant problems, but use methods and theories whose scientific rigor is doubtful at best. This paradox is artificial and unnecessary. Methods of investigation and theories and concepts enable us to combine worthwhile problems and rigorous methods. The book takes a long look at a particular problem which Eysenck investigated in depth during his illustrious lifetime. This tour de force, by one of the magisterial figures of modern psychology, is written for people as well as about people. It is not a rehash of the voluminous writings of lawyers, poets, politicians, dramatists, historians, psychiatrists and others who have felt compelled to write about these psychological matters without even a smattering of psychological knowledge. It is, instead, based on empirical investigations that are too often declared to be nonexistent by publicists and politicians. Hans J. Eysenck (1916-1997) was professor of psychology at the University of London and the director of its psychological department at the Institute of Psychiatry. He was best known for his experimental researches in the field of personality. Among his many books are *Rebel with a Cause*, *Dimensions of Personality*, *The Dynamics of Anxiety and Hysteria*, *Intelligence*, and *Decline and Fall of the Freudian Empire*, all published by Transaction. Sybil B. G. Eysenck, wife of the late author, is co-director of Personality Investigations, Publications and Services (PIPS), an organization devoted to the promotion of the writings and research of Hans J. Eysenck. She is the coauthor, with Hans Eysenck, of *Psychoticism as a Dimension of Personality and Personality Structure and Measurement* and the co-editor, with Donald Saklofske, of *Individual Differences in Children and Adolescents*, published by Transaction.

Is my child too sick to go to daycare today? When can my child go back to daycare? What should I look for when I am considering a daycare center for my new baby? Every parent of a child in daycare asks these questions. Dr. Leigh Grossman's new book, *THE PARENT'S SURVIVAL GUIDE TO DAYCARE INFECTIONS*, presents the facts about different germs and provides guidance on what to do when your child has been exposed to or is sick with a specific infection. How do I choose a daycare center that uses current infection control practices? How long does a child need to stay home when they do have an infection? Can I prevent infection in my child? What are the appropriate and inappropriate uses of antibiotics? What are the best practices for treating a specific childhood infection? Designed to be the home reference book for parents of young children in daycare and preschool, *THE PARENT'S SURVIVAL GUIDE TO DAYCARE INFECTIONS* is a comprehensive and clear book, with an easy-to-use format, informational quick reference tables, and a detailed index. Providing up-to-date guidance, the book includes contributions from 39 pediatric expert physicians. With chapters on most of the infections that parents of children in daycare and preschool encounter, the authors explain what the illness is, how the infection is spread, how the illness is diagnosed, how long it lasts and how long the child needs to stay at home. This book is a ready reference for the children in your life and an excellent gift for the new parent.

This book serves as an ideal foundation for teaching ascension classes and doing workshops. The inner-plane ascended masters have guided Dr. Stone to put together this book, using his Easy-to-Read Encyclopedia of the Spiritual Path as its foundation. Here you will find an entire one- to two-year program of classes for teaching from one to hundreds of student initiates.

Teaching or setting up a class in your home to facilitate ascension realization is one of the most important services one could offer one's friends, students and even family. With this book it is easy. Details on how to start and end every class are given, as well as outlines for 132 classes. Also included are suggestions on how to observe the major holy days that the inner-plane ascended masters would like us to celebrate on Earth. Using his teaching experience, Dr. Stone has also outlined all the logistical and third-dimensional considerations that will come up. The only tools a class leader needs would be his books and meditation tapes.

Fitness education is often overlooked for various reasons: no equipment, no weight room, large class size, or lack of professional development. Designing and Teaching Fitness Education Courses provides real solutions for all these issues. This book offers secondary-level physical educators innovative ideas, practical answers, and guidance in implementing fitness education programming that will meet the needs of all students. Designing and Teaching Fitness Education Courses is packed with highly useful tools and resources: 211 instructional photos showing exercises and stretches that require no equipment and are easily adapted for varying abilities 18 pacing guides that form a week-by-week blueprint for implementing a semester-long fitness education course A robust online resource with all 18 pacing guides, as well as a blank template for developing your own; 139 video demonstrations of all the book's exercises and stretches; PowerPoint presentations to show in PE classes, including video demonstrations of the book's exercises and stretches; and teacher aids and student handouts, including assignments, assessments, posters, and a 12-week personal fitness plan Teachers can use the pacing guides to develop a semester-long fitness education course that can be implemented in either a traditional or block schedule. These guides offer objectives, class discussion topics, activities, assessments, and teaching strategies for each week of an 18-week semester. All topics in the guides are aligned with SHAPE America's National Standards and Grade-Level Outcomes for K–12 Physical Education. The authors guide teachers in addressing the following priorities within a fitness education course: social and emotional learning; behavior modification principles and adherence to fitness activities; social cognitive theory; classroom management; student safety; equity, diversity, and inclusion; and social justice. Designing and Teaching Fitness Education Courses also includes a detailed chapter on nutrition education written by internationally recognized sport nutritionist Lisa Dorfman, who provides teachers a wealth of information to integrate into fitness courses. Teachers will learn how to integrate a quality fitness education curriculum into any setting (rural, urban, or suburban) and any learning model (remote, hybrid, or in-person learning). Designing and Teaching Fitness Education Courses is organized into three sections: Part I presents both theoretical and practical knowledge of fitness education; its importance in a standards-based curriculum; pedagogical and content knowledge considerations; nutrition, wellness, and consumer issues; and the general components of fitness education. Part II focuses on various components of fitness education: flexibility, strength, and cardiorespiratory fitness. This part includes stretching and muscular strength and endurance workouts, illustrated with photos in the book and videos in the online resource. Part III guides

readers in enabling students to participate in community fitness and activity events to support the development of lifelong fitness habits. Through Designing and Teaching Fitness Education Courses, teachers will be able to provide appropriate fitness activities that will lead to the elevated health and wellness of students and a greater appreciation for participating in lifelong activities. In the wake of the terrorist attacks on September 11, 2011, discussions on ties between Islamic religious education institutions, namely madrassahs, and transnational terrorist groups have featured prominently in the Western media. In the frenzied coverage of events, however, vital questions have been overlooked: What do we know about the madrassahs? Should Western policymakers be alarmed by the recent increase in the number of these institutions in Muslim countries? Is there any connection between them and the "global jihad"? Ali Riaz responds to these questions through an in-depth examination of the madraassahs in Pakistan, Bangladesh, and India. In Faithful Education, he examines these institutions and their roles in relation to current international politics.
