B2B buyer behavior has changed - now it's your turn. B2B buyers have changed the way they evaluate and purchase goods and services-yet most B2B suppliers still approach their markets with hyped-up, propaganda-like messages. The challenge now is for such companies to move from spouting propaganda to establishing credibility. From the role of salesperson to that of a customer advocate. And from broadcasting self-recommendations toward a more powerful model where people recommend the company and its products to their peers. The Death of Propaganda presents Three Voices strategy, a step-by-step recipe for meeting this challenge via three distinct modes of stakeholder engagement: Voice of Company; Voice of Industry; and Voice of Customer. All three Voices need to be integrated into top-level business strategy, and incorporated into marketing and communication plans to fully address the needs of the new breed of B2B buyer.

He reveals the new ABCs of moving others (it's no longer "Always Be Closing"), explains why extraverts don't make the best salespeople, and shows how giving people an "off-ramp" for their actions can matter more than actually changing their minds. Along the way, Pink describes the six successors to the elevator pitch, the three rules for understanding another's perspective, the five frames that can make your message clearer and more persuasive, and much more. The result is a perceptive and practical book--one that will change how you see the world and transform what you do at work, at school, and at home.

The New Psychology of Selling The sales profession is in the midst of a perfect storm. Buyers have more power—more information, more at stake, and more control over the sales process—than any time in history. Technology is bringing disruptive change at an ever-increasing pace, creating fear and uncertainty that leaves buyers clinging to the status quo. Deteriorating attention spans have made it difficult to get buyers to sit still long enough to “challenge,” “teach,” “help,” give “insight,” or sell “value.” And a relentless onslaught of “me-too” competitors have made differentiating on the attributes of products, services, or even price more difficult than ever. Legions of salespeople and their leaders are coming face to face with a cold hard truth: what once gave salespeople a competitive edge—controlling the sales process, command of product knowledge, an arsenal of technology, and a great pitch—are no longer guarantees of success. Yet this is where the vast majority of the roughly \$20 billion spent each year on sales training goes. It’s no wonder many companies are seeing 50 percent or more of their salespeople miss quota. Yet, in this new paradigm, an elite group of top 1 percent sales professionals are crushing it. In our age of technology where information is ubiquitous and buyer attention spans are fleeting, these superstars have learned how to leverage a new psychology of selling—Sales EQ—to keep prospects engaged, create true competitive differentiation, as well as shape and influence buying decisions. These top earners are acutely aware that the experience of buying from them is far more important than products, prices, features, and solutions. In Sales EQ, Jeb Blount takes you on an unprecedented journey into the behaviors, techniques, and secrets of the highest earning salespeople in every industry and field. You’ll learn: How to answer the 5 Most Important Questions in Sales to make it virtually impossible for prospects to say no How to master 7 People Principles that will give you the power to influence anyone to do almost anything How to shape and align the 3 Processes of Sales to lock out competitors and shorten the sales cycle How to Flip the Buyer Script to gain complete control of the sales conversation How to Disrupt Expectations to pull buyers towards you, direct their attention, and keep them engaged How to leverage Non-Complementary Behavior to eliminate resistance, conflict, and objections How to employ the Bridge Technique to gain the micro-commitments and next steps you need to keep your deals from stalling How to tame Irrational Buyers, shake them out of their comfort zone, and shape the decision making process How to measure and increase you own Sales EQ using the 15 Sales Specific Emotional Intelligence Markers And so much more! Sales EQ begins where The Challenger Sale, Strategic Selling, and Spin Selling leave off. It addresses the human relationship gap in the modern sales process at a time when sales organizations are failing because many salespeople have never been taught the human skills required to effectively engage buyers at the emotional level. Jeb Blount makes a compelling case that sales specific emotional intelligence (Sales EQ) is more essential to success than education, experience, industry awareness, product knowledge, skills, or raw IQ; and, sales professionals who invest in developing and improving Sales EQ gain a decisive competitive advantage in the hyper-competitive global marketplace. Sales EQ arms salespeople and sales leaders with the tool

What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships—and you'd be wrong. The best salespeople don't just build relationships with customers. They challenge them. The need to understand what top-performing reps are doing that their average performing colleagues are not drove Matthew Dixon, Brent Adamson, and their colleagues at Corporate Executive Board to investigate the skills, behaviors, knowledge, and attitudes that matter most for high performance. And what they discovered may be the biggest shock to conventional sales wisdom in decades. Based on an exhaustive study of thousands of sales reps across multiple industries and geographies, *The Challenger Sale* argues that classic relationship building is a losing approach, especially when it comes to selling complex, large-scale business-to-business solutions. The authors' study found that every sales rep in the world falls into one of five distinct profiles, and while all of these types of reps can deliver average sales performance, only one—the Challenger—delivers consistently high performance. Instead of bludgeoning customers with endless facts and features about their company and products, Challengers approach customers with unique insights about how they can save or make money. They tailor their sales message to the customer's specific needs and objectives. Rather than acquiescing to the customer's every demand or objection, they are assertive, pushing back when necessary and taking control of the sale. The things that make Challengers unique are replicable and teachable to the average sales rep. Once you understand how to identify the Challengers in your organization, you can model their approach and embed it throughout your sales force. The authors explain how almost any average-performing rep, once equipped with the right tools, can successfully reframe customers' expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and, ultimately, greater growth.

Selling is tougher than ever before. Potential customers are under extreme pressure to do more with less money, less time, and fewer resources, and they're wary of anyone who tries to get them to buy or change anything. Under such extreme conditions, yesterday's sales strategies no longer work. No matter how great your offering, you face the daunting task of making yourself appear credible, relevant, and valuable. Now, internationally recognized sales strategist Jill Konrath shows how to overcome these obstacles to get more appointments, speed up decisions, and win sales with these short-fused, frazzled customers. Drawing on her years of selling experience, as well as the stories of other successful sellers, she offers four SNAP Rules: -Keep it Simple: When you make things easy and clear for your customers, they'll change from the status quo. -Be iNvaluable: You have to stand out by being the person your customers can't live without. -Always Align: To be relevant, make sure you're in synch with your customers' objectives, issues, and needs. -Raise Priorities: To maintain momentum, keep the most important decisions at the forefront of their mind. SNAP Selling is an easy-to-read, easy-to-use guide for any seller in today's increasingly frenzied environment.
