A revolutionary and hopeful look at depression as a silent epidemic in men that manifests as workaholism, alcoholism, rage, difficulty with intimacy, and abusive behavior by the cofounder of Harvard's Gender Research Project. Twenty years of experience treating men and their families has convinced psychotherapist Terrence Real that depression is a silent epidemic in men—that men hide their condition from family, friends, and themselves to avoid the stigma of depression's "un-manliness." Problems that we think of as typically male—difficulty with intimacy, workaholism, alcoholism, abusive behavior, and rage—are really attempts to escape depression. And these escape attempts only hurt the people men love and pass their condition on to their children. This groundbreaking book is the "pathway out of darkness" that these men and their families seek. Real reveals how men can unearth their pain, heal themselves, restore relationships, and break the legacy of abuse. He mixes penetrating analysis with compelling tales of his patients and even his own experiences with depression as the son of a violent, depressed father and the father of two young sons.

MenAlive is a complete tool kit for relieving stress and bringing about lasting health. "80 percent of all illnesses are stress induced," says Woodson Merrell, M.D., Chairman of the Department of Integrative Medicine at Beth Israel Medical Center. In Part II, he details the four energy healing tools Diamond believes to be the most effective and scientifically sound: Earthing, Heart-Coherence, Attachment Love, and Emotional Freedom Techniques (EFT). In Part III, he applies the tools to the most pressing problems men face today including: Irritable Male Syndrome (IMS), male-type depression, chronic pain, sexual dysfunction and loss of desire, Andropause (male menopause) and age-related issues, and the stresses related to our economic and ecological transition. decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, The Subtle Art of Not Giving a F**k is a refreshing slap for a generation to help them lead contented, grounded lives.

Inspired by her hugely popular podcast, How To Fail is Elizabeth Day's brilliantly funny, painfully honest and insightful celebration of things going wrong. This is a book for anyone who has ever failed. Which means it's a book for everyone. If I have learned one thing from this shockingly beautiful venture called life, it is this: failure has taught me lessons I would never otherwise have understood. I have evolved more as a result of things going wrong than when everything seemed to be going right. Out of crisis has come clarity, and sometimes even catharsis. Part memoir, part manifesto, and including chapters on dating, work, sport, babies, families, anger and friendship, it is based on the simple premise that understanding why we fail ultimately makes us stronger. It's a book about learning from our mistakes and about not being afraid. Uplifting, inspiring and rich in stories from Elizabeth's own life, How to Fail reveals that failure is not what defines us; rather it is how we respond to it that shapes us as individuals. Because learning how to fail is actually learning how to succeed better. And everyone needs a bit of that.

When the Sudanese civil war reaches his village in 1985, 11-year-old Salva becomes separated from his family and must walk with other Dinka tribe members through southern Sudan, Ethiopia and Kenya in search of safe haven. Based on the life of Salva Dut, who, after emigrating to America in 1996, began a project to dig water wells in Sudan. By a Newbery Medal-winning author. Words of wisdom from Charlie Munger—Warren Buffett's longtime business partner and the visionary Vice Chairman of Berkshire Hathaway—collected and interpreted with an eye towards investing by David Clark, coauthor of the bestselling *Buffettology* series. Born in Omaha, Nebraska in 1924 Charlie Munger studied mathematics at the University of Michigan, trained as a meteorologist at Cal Tech Pasadena while in the Army, and graduated magna cum laude from Harvard Law School without ever earning an undergraduate degree. Today, Munger is one of America's most successful investors, the Vice Chairman of Berkshire Hathaway, and Warren Buffett's business partner for almost forty years. Buffett says "Berkshire has been built to Charlie's blueprint. My role has been that of general contractor." Munger is an intelligent, opinionated business man whose ideas can teach professional and amateur investors how to be successful in finance and life. Like *The Tao of Warren Buffett* and *The Tao of Te Ching*, *The Tao of Charlie Munger* is a compendium of pithy quotes including, "Knowing what you don't know is more useful than being brilliant" and "In my whole life, I have known no wise people who didn't read all the time—none, zero." This collection, culled from interviews, speeches, and questions and answers at the Berkshire Hathaway and Wesco annual meetings, offers insights into Munger's amazing financial success and life philosophies. Described by *Business Insider* as "sharp in his wit and investing wisdom," Charlie Munger's investment tips, business philosophy, and rules for living are as unique as his life story; intelligent as he clearly is; and as successful as he has been.

In this "powerful personal story woven with a rich analysis of what we all seek" (Sergey Brin, cofounder of Google), Mo Gawdat, Chief Business Officer at Google's [X], applies his superior logic and problem solving skills to understand how the brain processes joy and sadness—and then he solves for happy. In 2001 Mo Gawdat realized that despite his incredible success, he was desperately unhappy. A lifelong learner, he attacked the problem as an engineer would: examining all the provable facts and scrupulously applying logic. Eventually, his countless hours of research and science proved successful, and he discovered the equation for permanent happiness. Thirteen years later, Mo's algorithm would be put to the ultimate test. After the sudden death of his son, Ali, Mo and his family turned to his equation—and it saved them from despair. In dealing with the horrible loss, Mo found his mission: he would pull off the type of "moonshot" goal that he and his colleagues were always aiming for—he would share his equation with the world and help as many people as possible become happier. In *Solve for Happy* Mo questions some of the most fundamental aspects of our existence, shares the underlying reasons for suffering, and plots out a step-by-step process for achieving lifelong happiness and enduring contentment. He shows us how to view life through a clear lens, teaching us how to dispel the illusions that cloud our thinking; overcome the brain's blind spots; and embrace five ultimate truths. No matter what obstacles we face, what burdens we bear, what trials we've experienced, we can all be content with our present situation and

optimistic about the future.

The majority of us will spend our working lives being not our best self, but rather a lesser version of our self, often creating a public façade that does not match who we are behind closed doors. And thus, we slowly die by a thousand

paper cuts. In an era of inauthentic leaders, the stakes could not be higher for embracing a better version of yourself that propels you and your team to success. In a social media world there is an abundance of false narratives about happiness and authenticity, it is easy to get lost on your journey. Authentic leadership expert Dr. James Kelley shows that the key to personal and professional growth lies in how we respond effectively to adversity. In fact, what causes us and our organizations the most fear can be our greatest gift, creating a positive meaning out of challenges. A test or trial--your individual crucible--gives you the potential to increase self-awareness, develop deeper compassion, live with more integrity and boost connection with colleagues. High-impact leaders thrive in adversity because of their crucibles, not in spite of them. The Crucible's Gift introduces you to lessons from over 140 diverse leaders who demonstrated the art of living more authentically. Combining these rich, raw and insightful stories with his knowledge of business and psychology--as well as his candid accounts of what he has learned from his personal crucibles--Kelley shows how to transform what holds you back into traits that will propel you forward, encouraging you to step fully into your life. The world demands leaders who can accomplish the impossible, delegate effectively and inspire their teams. The Crucible's Gift shows that, provided you're open to receiving it, today's worst situation may be tomorrow's biggest opportunity. No more bullshit excuses.

Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his re?sume?, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over

400 viral videos which have amassed more than 8 billion views, and his podcast, *On Purpose*, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, *Think Like a Monk* reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Solve for Happy is a startlingly original book about creating and maintaining happiness, written by a top Google executive with an engineer's training and fondness for thoroughly analyzing a problem. In 2004, Mo Gawdat, a remarkable thinker whose gifts had landed him top positions in half a dozen companies and who - in his spare time - had created significant wealth, realized that he was desperately unhappy. A lifelong learner, he attacked the problem as an engineer would, examining all the provable facts and scrupulously following logic. When he was finished, he had discovered the equation for enduring happiness. Ten years later, that research saved him from despair when his college-aged son, Ali - also intellectually gifted - died during routine surgery. In dealing with the loss, Mo found his mission: he would pull off the type of 'moonshot' that he and his Google [X] colleagues were always aiming for: he would help ten million people become happier by pouring his happiness principles into a book and spreading its message around the world. One of *Solve for Happy*'s key premises is that happiness is a default state. If we shape expectations to acknowledge the full range of possible events, unhappiness is on its way to being defeated. To steer clear of unhappiness traps, we must dispel the six illusions that cloud our thinking (e.g., the illusion of time, of control, and of fear); overcome the brain's seven deadly defects (e.g., the tendency to exaggerate, label, and filter), and embrace five ultimate truths (e.g., change is real, now is real, unconditional love is real). By means of several highly original thought experiments, Mo helps readers find enduring contentment by questioning some of the most fundamental aspects of their existence.

NEW YORK TIMES BESTSELLER • From the bestselling author of *Before We Were Yours* comes a dramatic historical novel of three young women searching for family amid the destruction of the post-Civil War South, and of a modern-day teacher who learns of their story and its vital connection to her students' lives. "An absorbing historical . . . enthralling."—Library Journal Bestselling author Lisa Wingate brings to life startling stories from actual "Lost Friends" advertisements that appeared in Southern newspapers after the Civil War, as newly freed slaves desperately searched for loved ones who had been sold away. *Louisiana, 1875: In the tumultuous era of Reconstruction, three young women set off as unwilling companions on a perilous quest: Hannie, a freed slave; Lavinia, the pampered heir to a now destitute*

plantation; and Juneau Jane, Lavinia's Creole half sister. Each carries private wounds and powerful secrets as they head for Texas, following roads rife with vigilantes and soldiers still fighting a war lost a decade before. For Lavinia and Juneau Jane, the journey is one of stolen inheritance and financial desperation, but for Hannie, torn from her mother and siblings before slavery's end, the pilgrimage west reignites an agonizing question: Could her long-lost family still be out there? Beyond the swamps lie the limitless frontiers of Texas and, improbably, hope. Louisiana, 1987: For first-year teacher Benedetta Silva, a subsidized job at a poor rural school seems like the ticket to canceling her hefty student debt—until she lands in a tiny, out-of-step Mississippi River town. Augustine, Louisiana, is suspicious of new ideas and new people, and Benny can scarcely comprehend the lives of her poverty-stricken students. But amid the gnarled live oaks and run-down plantation homes lie the century-old history of three young women, a long-ago journey, and a hidden book that could change everything.

Newbery Award-winning author Matt de la Peña's *We Were Here* is a "fast, funny, smart, and heartbreaking" novel [Booklist]. When it happened, Miguel was sent to Juvi. The judge gave him a year in a group home—said he had to write in a journal so some counselor could try to figure out how he thinks. The judge had no idea that he actually did Miguel a favor. Ever since it happened, his mom can't even look at him in the face. Any home besides his would be a better place to live. But Miguel didn't bet on meeting Rondell or Mong or on any of what happened after they broke out. He only thought about Mexico and getting to the border to where he could start over. Forget his mom. Forget his brother. Forget himself. Life usually doesn't work out how you think it will, though. And most of the time, running away is the quickest path right back to what you're running from. From the streets of Stockton to the beaches of Venice, all the way to the Mexican border, *We Were Here* follows a journey of self-discovery by a boy who is trying to forgive himself in an unforgiving world. 'He explains how even in the face of the unthinkable, happiness is still possible' – Stylist Solve for Happy is the equation for happiness. This is a startlingly original book about creating and maintaining happiness, written by a top Google executive with an engineer's training and fondness for thoroughly analyzing a problem. In 2001, Mo Gawdat, a remarkable thinker whose gifts had landed him top positions in half a dozen companies and who – in his spare time – had created significant wealth, realized that he was desperately unhappy. A lifelong learner, he attacked the problem as an engineer would, examining all the provable facts and scrupulously following logic. When he was finished, he had discovered the equation for enduring happiness. Ten years later, that research saved him from despair when his college-aged son, Ali – also intellectually gifted – died during routine surgery. In dealing with the loss, Mo found his mission: he would pull off the type of 'moonshot' that he and his Google [X] colleagues were always aiming for: he would help ten million people become happier by pouring his happiness principles into a book and spreading its message around the world. Eleven-year-old Isabella's blended family is more divided than ever in this "timely but genuine" (Publishers Weekly) story about divorce and racial identity from the award-winning and New York Times bestselling author of *Out of My Mind*, Sharon M. Draper. Eleven-year-old Isabella's parents are divorced, so she has to switch lives every week: One week she's Isabella with her dad, his girlfriend Anastasia, and her son Darren living in a fancy house where they are one of the only black families in the neighborhood. The next week she's Izzy with her mom and her boyfriend John-Mark in a small, not-so-fancy house that she loves. Because of this, Isabella has always felt pulled between two worlds. And now that her parents are divorced, it seems their fights are even worse, and they're always about HER. Isabella feels completely stuck in the middle, split and divided between them more than ever. And she is beginning to realize that being split between Mom and Dad involves more than switching houses, switching nicknames, switching backpacks: it's also about switching identities. Her dad is black, her mom is white, and strangers are always commenting: "You're so exotic!" "You look so unusual." "But what are you really?" She knows what they're really saying: "You don't look like your parents." "You're different." "What race are you really?" And when her parents, who both get engaged at the same time, get in

their biggest fight ever, Isabella doesn't just feel divided, she feels ripped in two. What does it mean to be half white or half black? To belong to half mom and half dad? And if you're only seen as half of this and half of that, how can you ever feel whole? It seems like nothing can bring Isabella's family together again—until the worst thing happens. Isabella and Darren are stopped by the police. A cell phone is mistaken for a gun. And shots are fired.

Technology is putting our humanity at risk to an unprecedented degree. This book is not for engineers who write the code or the policy makers who claim they can regulate it. This is a book for you. Because, believe it or not, you are the only one that can fix it. – Mo Gawdat Artificial intelligence is smarter than humans. It can process information at lightning speed and remain focused on specific tasks without distraction. AI can see into the future, predicting outcomes and even use sensors to see around physical and virtual corners. So why does AI frequently get it so wrong? The answer is us. Humans design the algorithms that define the way that AI works, and the processed information reflects an imperfect world. Does that mean we are doomed? In *Scary Smart*, Mo Gawdat, the internationally bestselling author of *Solve for Happy*, draws on his considerable expertise to answer this question and to show what we can all do now to teach ourselves and our machines how to live better. With more than thirty years' experience working at the cutting-edge of technology and his former role as chief business officer of Google [X], no one is better placed than Mo Gawdat to explain how the Artificial Intelligence of the future works. By 2049 AI will be a billion times more intelligent than humans. *Scary Smart* explains how to fix the current trajectory now, to make sure that the AI of the future can preserve our species. This book offers a blueprint, pointing the way to what we can do to safeguard ourselves, those we love and the planet itself. "A refreshingly raw, contrasting perspective on the foolproof idea of motherhood."--POPSUGAR "By turns painful and funny... A searingly candid memoir."--Kirkus "Far from your cookie-cutter story of addiction... [I'm Just Happy to Be Here] describes Hanchett's journey to recovery and sobriety in imperfect and unconventional ways."--Bustle In this unflinching and wickedly funny memoir, Janelle Hanchett tells the story of finding her way home. And then, actually staying there. Drawing us into the wild, heartbreaking mind of the addict, Hanchett carries us from motherhood at 21 with a man she'd known three months to cubicles and whiskey-laden domesticity, from judging meth addicts in rehab to therapists who "seem to pull diagnoses out of large, expensive hats." With warmth, wit, and searing B.S. detectors turned mostly toward herself, Hanchett invites us to laugh when we probably shouldn't and to rejoice at the unconventional redemption she finds in desperation and in a misfit mentor who forces her to see the truth of herself. A story of ego and forced humility, of fierce honesty and jagged love, of the kind of failure that forces us to re-create our lives, Hanchett writes with rare candor, scorching the "sanctity of motherhood," and leaving beauty in the ashes.

The Sunday Times Bestseller 'Really brilliant and just crammed with wisdom and insight. It will genuinely make a difference to me and the way I think about myself.' Stephen Fry ___ Everyone says they want to be happy. But that's much more easily said than done. What does being happy actually mean? And how do you even know when you feel it? In Happy Derren Brown explores changing concepts of happiness - from the surprisingly modern wisdom of the Stoics and Epicureans in classical times right up until today, when the self-help industry has attempted to claim happiness as its own. He shows how many of self-help's suggested routes to happiness and success - such as positive thinking, self-belief and setting goals - can be disastrous to follow and, indeed, actually cause anxiety. Happy aims to reclaim happiness and to enable us to appreciate the good things in life, in all their transient glory. By taking control of the stories we tell ourselves, by remembering that 'everything's fine' even when it might not feel that way, we can allow ourselves to flourish and to live more happily. ___ What readers are saying: ***** 'Immensely positive and life-affirming' ***** 'This is the blue print to a good life' ***** 'Thought provoking and potentially life-changing.'

In the spring of 2010, Harvard Business School's graduating class asked HBS professor Clay Christensen to address them—but not on how to apply his principles and thinking to their post-HBS careers. The students wanted to know how to apply his wisdom to their personal lives. He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen's thinking is rooted in his deep religious faith, these are strategies anyone can use.
