The voices of lesbian poets both well-known and previously unpublished are brought together in a collection of 120 love poems touching on such subjects as erotic exploration, the vicissitudes of monogamous relationships, and unrequited love. Reprint.

This title documents the history of Taylor Camp, a clothing-optional, pot-friendly, tree house village set up in 1969 on Kauai, Hawaii by Howard Taylor, brother of Elizabeth. The book features photographs accompanied by moving texts and interviews with the principal protagonists (and antagonists).

Electrical Engineering Accelerated Stress Testing Handbook Guide for Achieving Quality Products As we move closer to a genuinely global economy, the pressure to develop highly reliable products on ever-tighter schedules will increase. Part of a designer's "toolbox" for achieving product reliability in a compressed time frame should be a set of best practices for utilizing accelerated stress testing (AST). The Accelerated Stress Testing Handbook delineates a core set of AST practices as part of an overall methodology for enhancing hardware product reliability. The techniques presented will teach readers to identify design deficiencies and problems with component quality or manufacturing processes early in the product's life, and then to take corrective action as quickly as possible. A wide array of case studies gleaned from leading practitioners of AST supplement the theory and methodology, which will provide the reader with a more concrete idea of how AST truly enhances quality in a reduced time frame. Important topics covered include: * Theoretical basis for AST * General AST best practices * AST design and manufacturing processes * AST equipment and techniques *

AST process safety qualification In this handbook, AST cases studies demonstrate thermal, vibration, electrical, and liquid stress application; failure mode analysis; and corrective action techniques. Individuals who would be interested in this book include: reliability engineers and researchers, mechanical and electrical engineers, those involved with all facets of electronics and telecommunications product design and manufacturing, and people responsible for implementing quality and process improvement programs.

The Firmware Handbook provides a comprehensive reference for firmware developers looking to increase their skills and productivity. It addresses each critical step of the development process in detail, including how to optimize hardware design for better firmware. Topics covered include real-time issues, interrupts and ISRs, memory management (including Flash memory), handling both digital and analog peripherals, communications interfacing, math subroutines, error handling, design tools, and troubleshooting and debugging. This book is not for the beginner, but rather is an in-depth, comprehensive one-volume reference that addresses all the major issues in firmware design and development, including the pertinent hardware issues. Included CD-Rom contains all the source code used in the design examples, so engineers can easily use it in their own designs

The EC-Council|Press Ethical Hacking and Countermeasures series is comprised of four books covering a broad base of topics in offensive network security, ethical hacking, and network defense and countermeasures. The content of this series is designed to immerse the reader into an interactive environment where they will be shown how to scan, test, hack, and secure information systems. A wide variety of tools, viruses, and malware is presented in these books, providing a complete understanding of the tactics and tools used by

The Collected Works of Witness Lee, 1959, volume 3, contains messages given by Brother Witness Lee in September through December 1959. Historical information concerning Brother Lee's travels and the content of his ministry in 1959 can be found in the general preface that appears at the beginning of volume 1 in this set. The contents of this volume are divided into four sections, as follows: 1. Personal notes consisting of two sets of outlines for gospel meetings held in Taipei and Kaohsiung, Taiwan, in September and November 1959. These notes are included in this volume under the title Witness Lee's Personal Notes. 2. Twenty-five messages given in Taipei, Taiwan, in the fall of 1959. These messages were previously published in a book entitled Lessons for New Believers and are included in this volume under the same title. 3. Five messages given in Taipei, Taiwan, in the first part of a training that began on October 5, 1959, and concluded on January 22, 1960. Chapters 1, 2, 4, and 5 were previously published in a book entitled On Knowing the Bible. Chapter 3 was added based on notes taken by Brother K. H. Weigh and his wife, Lin Yi-tian. The messages that compose the first four chapters were given on October 6 through 9, 1959,

and the fifth message was probably given shortly thereafter. The five messages are included in this volume under the same title as the previously published book. 4. Ten messages given in Taipei, Taiwan, in the second part of a training that began on October 5, 1959, and concluded on January 22, 1960. These messages were previously published in a book entitled Ten Lines in the Bible. Later, two appendices were added based on notes taken by Brother K. H. Weigh and his wife, Lin Yitian. The exact dates for the speaking of these messages are unknown, but they were given in the winter of 1959. The ten messages and the two appendices are included in this volume under the same title as the previously published book.
