

## Space A Childrens Encyclopedia Dk Reference

This beautiful art book for children charts the evolution of the greatest cultural achievements in painting, sculpture and photography. Art- A Children's Encyclopedia traces the development of painting, from prehistoric cave drawings to the Mona Lisa to contemporary street art. Get to grips with world-famous sculptures, including the Terracotta Army and Michelangelo's David. Find out about photography, from pinhole cameras to digital imagery and iconic photography such as Neil Leifer's Ali versus Liston. With amazing facts, clear explanations, and stunning photography, Art- A Children's Encyclopedia is the essential introduction to the art world for children. Take a rocket deep into Space and back with this classic, sure to have budding astronauts and astronomers excited everywhere! Space: A Visual Encyclopedia is completely revised and updated for 2020, with new images and information to cover the latest developments in all things space-y. From Space travel and exploration, to the wonders of the Solar System such as the Moon and the Sun, and the mysteries of the Universe such as dark matter and black holes, this book covers all you need to know about the cosmos. The most up-to-date images from space agencies such as NASA and ESA combine with info panels, timelines, interviews, diagrams, and activities you can do at home to help you understand the majesty and wonder of Space. Learn about the Space Race, the Apollo Moon Landings, the Voyager craft that first probed the outer planets and have now left the Solar System, the Hubble telescope, and the International Space Station (ISS)--the state-of-the-art science laboratory orbiting Earth. Discover how to find the constellations and where to look for prominent stars and planets in the night sky, such as Venus and Mars, and how galaxies such as our Milky Way work and were formed. Part of a series of award-winning, best-selling encyclopedias for children, Space: A Visual Encyclopedia is a rocket ride from the beginning of time to the near future, and from planet Earth out to the farthest reaches of the Universe.

From the publishers of the award-winning Knowledge Encyclopedia comes Space! Truly encyclopedic in scope and fully up-to-date covering the stars and planets, space exploration, and the night sky, Space! is packed with amazing facts and NASA images revealing the wonders of the cosmos -- from black holes to the big bang to the planets. Using computer-generated 3D models to explore and open up the most amazing objects in the universe, showing each object in incredible detail, Space! is bursting with facts, infographics, and data boxes. Every topic is covered in depth and detail while remaining easy to understand at a glance. With fresh content, up-to-date images, and crystal-clear, hi-tech design, Space! is a bold new approach to family reference. Part of the series of award-winning, best-selling DK encyclopedias for children, this title has been completely revised to provide a comprehensive visual exploration of the entire range of prehistoric animal life. Dinosaurs: a children's encyclopedia is not simply a catalogue of facts and photos - it is a visual celebration of the history of all life on Earth, with a special focus on dinosaurs. More than 100 dinosaur species are featured, many illustrated with brand new artworks, exclusive to DK. The new images vividly reflect the very latest research into what these prehistoric creatures looked like, including thrilling new discoveries about feathered dinosaurs. Previous edition: 9781405367684 Discover everything you ever wanted to know about anything with this first reference

book for young readers and writers An inspiring and comprehensive collection of the best in the DK First Reference series, all gathered together in one superb volume. From prehistoric life to space travel, bacteria to the human brain, help your child discover all about the world we live in. They'll discover how life on Earth began, how the human body works, how people lived in Ancient Egypt, why some dinosaurs were so huge, what makes machines work, the countries of the world and much, much more. Full of fantastic photos, bite-sized facts and quiz questions kids will love getting their teeth into, there's lots to see and explore. Perfect for homework or just for fun. Go ahead; let your child find out more about everything!

A spacetastic new edition beaming with incredible pictures and the latest facts about the universe. From the origin of the universe to the future of space rockets, this ebook about space for kids has it all. Did you know that the moon was once a piece of the Earth, and that a day on Venus is longer than one year? First published in 2015, Knowledge Encyclopedia: Space! has been completely revised and updated for 2020, with new images and information on all things space-related to send you rocketing to the furthest reaches of the cosmos. Newly updated with the latest scientific discoveries and innovation in space engineering, this new title will answer all your questions about what lies beyond the night sky. Discover how stars and galaxies are formed, take a trip through the Milky Way, and explore the innards of the International Space Station in this incredible book that uses the latest computer-generated 3-D imagery, eye-catching photographs, gripping information, and explanatory diagrams to bring the wonders of the cosmos to life. Knowledge Encyclopedia: Space! is the big bang of space books, and it's just gotten bigger!

Inside is a stunning, comprehensive visual encyclopedia featuring gorgeous photography that not only illustrates, but educates. This encyclopedia is driven by its striking imagery that brings more than one million things to light. It is a crucial addition to homes and classrooms alike. In true DK fashion, the photography in this book does all the talking. The encyclopedia features more than one million things! Rather than string together multiple photos of objects, the Visual Encyclopedia features sweeping single-shots that encompass a multitude of objects, making for a seamless and striking presentation.

From computers to the natural world, help your child find out everything they need to know about anything with this fact-packed Children's Illustrated Encyclopedia. They'll find over 500 articles arranged from A-Z on subjects they need to know about, all illustrated with dramatic photos, cut-aways, charts and maps. The encyclopedia has been fully revised to include recent scientific breakthroughs, space missions and discoveries, as well as political, social and ecological changes, so your child can keep fully up-to-date with what has been happening in the world. Plus, they'll be able to discover more about subjects using more than 5,000 fully-vetted and regularly updated internet links. Perfect for projects or just for fun, this is the ultimate illustrated family encyclopedia.

From the Moon, Sun, and planets of our Solar System to space exploration, black holes, and dark matter, this completely revised and updated children's encyclopedia covers all you need to know about the cosmos. The most up-to-date images from space agencies such as NASA and ESA combine with info panels, timelines, interviews, diagrams, and activities you can do at home to help you understand the majesty and wonder of space. Learn about the Space Race, the Apollo Moon Landings, the Voyager craft that first probed the outer planets, the Hubble

telescope, and the International Space Station (ISS) - the state-of-the-art laboratory orbiting Earth. Find out about future missions, space tourism, and the latest discoveries in the furthest reaches of our galaxy. Discover how to find constellations and where to look for stars and planets, including Venus and Mars, in the night sky. Learn how galaxies such as our Milky Way were formed. Part of a series of best-selling encyclopedias for children, Space: A Children's Encyclopedia is a rocket ride from the beginning of time to the near future, and from planet Earth out to the furthest reaches of the Universe.

This beautiful encyclopedia takes you behind the scenes to reveal the secrets of technology - from microwaves to microchips, and from blurays to bluetooth. It brings together cutting-edge knowledge, awe-inspiring ideas, and eye-opening images to clearly explain both everyday and cutting-edge machines. Key concepts are delivered with clarity but accuracy by our expert author; and brought to life by cutaway diagrams and exploded artworks. This title should find a place on the bookshelves of all children aged 8 and up.

Over three million copies and 25 years later, Children's Illustrated Encyclopedia is revised and updated with the latest facts, figures, and technologies. Covering more than 380 topics from dinosaurs to digital technology, this highly visual guide engages young readers with photographic spreads and illustrations annotated with amazing trivia. Featuring full-color photographs, maps, cutaway diagrams, charts, and more, Children's Illustrated Encyclopedia is written in a clear and child-friendly style with updates that include recent space missions, scientific breakthroughs, and the latest significant events. Children's Illustrated Encyclopedia is perfect for reports, homework, and independent research. A great addition to any bookshelf, Children's Illustrated Encyclopedia is the essential book for curious young readers who want to know about everything.

Space A Children's Encyclopedia Dorling Kindersley Ltd

The present book, Scientists Inventions and Discoveries is one among the five books of the series, Children's Encyclopedia - The World of Knowledge. The book has been broadly divided into two parts- Part-I: The brief life histories and salient contributions of some well-known Scientists like Archimedes, Albert Einstein, Charles Darwin, Galileo, Newton, Louis Pasteur, Michael Faraday, Marie Curie, Thomas Alva Edison and many more. The second part or Part II emphasises on some major Inventions and Breakthroughs in the scientific world, such as: Bacteria, Vitamins, Vaccines, Aeroplane, Electricity, Cinema, Steam Engine and so on which have revolutionised and transformed the human life completely. Therefore dear readers, grab the book as soon as you can, for it's a treasure trove of knowledge and information, and if you happen to be a school student, you can even use it as a reference book or guide. Happy Reading and Learning too!

Bursting with fascinating facts and the latest breathtaking images, this space book for children brings the wonders of the Solar System to life. Find out about the never-ending storms on Jupiter. Learn about the towering volcanoes of Venus - all 1,600 of them, and see the Valles Marineris on Mars - a canyon that is ten times longer than Earth's Grand Canyon. It's an incredible look at the universe in which we live – perfect for space enthusiasts and budding astronomers.

This encyclopedia will knock spots off your biology textbook! Get under the skin of human anatomy with large, clear photographs, graphics, and CGI images that show everything you need to see in detail. Annotations and captions explain how everything works clearly and simply, without overwhelming. From the skin through muscles, tissues, organs, and nerves right down to your bones, you will be able to understand not only how your body works, but also your brain and the way you think, feel, and behave. The book is divided into twelve sections. The first ten chapters explore and explain major body systems including bones and muscles; the digestive system; lungs and breathing; life cycle; and senses. Within each chapter, most of the spreads are reference pages devoted to explaining how different parts of the body work - from how the heart beats to the tiny white blood cells that attack germs. Interspersed with these are double-page images that showcase amazing human body images, such as magnified views of individual muscle fibres and the villi that line the inside of your small intestine. The last chapter, Mind and Personality, covers the intriguing inner workings of the human mind, introducing the fascinating science of psychology. Finally, the reference section provides readers with quizzes to test their personality and reasoning, and finishes with a timeline of key medical breakthroughs.

A tour of outer space explores the solar system as well as stars, galaxies, and the birth of planets, and speculates on whether other intelligent beings exist in the universe.

In the tradition of DK's acclaimed Children's Encyclopedia series, the DK Space Encyclopedia is a comprehensive school, library, and home reference to the fascinating world of space, from strange phenomena like black holes to the latest stunning images from the Hubble Telescope. Covering cosmology, astrophysics, astronomy, and space exploration, the book's clear, informative text and thousands of photos, graphics, cross sections, maps, and charts give children age 8 and up absorbing, unparalleled view of our universe.

This fact-filled space ebook features amazing pictures from NASA and asks questions such as: Why is Jupiter striped? Is there life on Mars? The ebook includes the latest space exploration news and is perfect for young space fans as well as children new to the subject. Covering the solar system, stars, galaxies, and space exploration, the ebook has clear and simple text, and information that is utterly fascinating for this age range. Did You Know? Space is the ideal ebook on the amazing universe for kids.

Explore our wonderful universe through stunning CGI illustrations and amazing stats that bring to life the incredible marvels that populate space. Perfect for curious kids, Super Space Encyclopedia showcases everything that is enthralling and mesmerizing about space, and explains how the human race has developed the technology needed to explore its depths. From astounding features in the solar system to unimaginable wonders in the far reaches of the universe, this book helps the reader explore the cosmos at a steady pace. Stunning photographs and digestible blocks of text combine with DK's classic tradition of depicting information in a systematic way, immersing the readers in an unparalleled journey through the universe. Unravel the mysteries of Jupiter's Great Red Spot, investigate the explosion that created the Crab Nebula, and dig deeper into radio signals from spinning stars! Find out many more interesting super facts about space with Super Space Encyclopedia.

Reach for the stars in the updated First Space Encyclopedia! Explore the planets and discover amazing facts about nearby galaxies. A delightful first reference book about space for young astronomers, First Space Encyclopedia takes readers on a journey through the universe, from the beginning of space itself to current space technology. Find out what it takes to be an astronaut, what it is like to live in space, and what they take with them in their suitcases! Children can test their knowledge with quizzes, try out at-home space activities, learn how to find constellations in the night sky, and see the phases of the moon. Packed full of engaging photography and easy-to-follow text, First Space Encyclopedia brings space down to Earth for curious young readers.

Explore the planets, stars, and galaxy in Space Visual Encyclopedia. See everything there is to know about space. Find out what Pluto is really classified as, time how long it takes Neptune to travel around the sun, and jump into Jupiter's big red spot. Kids can see Saturn's rings, astronaut spacesuits, and more in highly visual spreads that use cutting-edge CGI photography. See the different planets, moons, and technologies of space, and find key information at

glance with data boxes, facts, and figures laid out in DK's signature style. Joining DK's award-winning Visual Encyclopedia format, Space Visual Encyclopedia is the ultimate one-stop reference book for everything space.

This stunning visual guide explores and explains the greatest inventions, ideas, and discoveries throughout the ages, and introduces their inventors. Discover the first inventions, from fire, stone tools, and the wheel to ploughs and paper, that shaped societies and grew mighty civilizations and empires such as those in ancient Greece, ancient Rome, and ancient China. In the centuries that followed, "Eureka" moments abounded, with James Watt's steam engine during the Industrial Revolution, Henry Ford's car assembly line at the start of the 20th century, the Wright brothers' flying machines, Thomas Edison's light bulb, John Logie Baird's television, and so much more. Read about more recent, era-defining moments during the Digital Revolution, such as the first website developed by Tim Berners-Lee, and the growth in the use of robotics in industry and at home. Inventions A Children's Encyclopedia reveals the stories behind crucial and quirky contraptions, products of the world's most brilliant minds.

Discover everything you ever wanted to know about anything with this first reference for young readers and writers, in ebook format. An inspiring and comprehensive collection of the best in the DK First Reference series, all gathered together in one superb volume. The perfect book for young readers looking to explore some of life's biggest questions. Thousands of years ago, ancient philosophers asked some important questions: "What is real?", "What is the point of my existence?", "Why is there evil in the world?", and "What can I know?" These questions have gone on to spark passionate debates about our existence and how we understand the world around us. In this engaging and accessible introduction to philosophy, readers aged 11+ will be introduced to a variety of philosophical ideas through the teachings of Plato, Confucius, Simone de Beauvoir, and many more. Vibrant, reader-friendly illustrations bring the history of ideas and thinking to life, and provide topics for reflection and debate. With biographies of the most influential philosophers from around the world, young readers will explore the questions that have been fundamental to the development of scientific study, logical thinking, religious beliefs, freedom in society, and much more. Thought experiments peppered throughout will help to connect readers with the theories presented so they can apply them to their own lives.
