Divine Feminine self-reliance is more than being self-sufficient. It means not clinging to people. It means not making life harder for others than it already is. For the most part, it's an attitude, and it's one that will serve you well no matter the circumstances in which you find yourself. You probably know someone who lives on their own terms, with an independent attitude and a determination to take care of their own needs, they are accountable for themselves. The shift to taking responsibility for our lives is vital to transforming our life into one of Divine Feminine self-reliance. No matter what challenges we face we must learn to save ourselves. Do not wait for someone else to come along (the proverbial white knight). Do not buy into the old story that someone else can take better care of you than you can. Your Divine Feminine Power is all about being self-reliant. When we think of self-reliance, sometimes we think of everything being on our shoulders. That's not the case. Being self-reliant and independent doesn't mean you have to be alone, it is being responsible for your life and taking the lead when it comes to planning, making decisions, and taking action. It's about you taking the initiative and making certain things get done in a manner that is in your best interest. This book will encourage and teach you to embrace a more self-reliant Divine Feminine mindset, one small step at a time in many areas of your life. Your Divine Feminine energy, power and intelligence to do so, is your wise soul's gift to yourself, and the planet.

"Ten poems per subject, / and a hundred grouped haikus / right wrongs, rail, weep, pray." This seventeen-word description of J.A. Rooney's collection of socially conscious poems, *The Century Collection*, is from the author himself. The poet earns the nickname "Radical" by refusing to compromise in his rhetoric while observing suffering through the eyes of a multitude of victims and persecutors. Nearly all of these poems are grouped into broad categories: Life, Love, Tragedy, Poverty, Praise, and so on. The poet prefers to write about specific actual events, including Hiroshima's destruction by the Enola Gay and the King's Cross Tube tragedy, which is commemorated in a poem Prince Charles is said to have liked. The poet doesn't shy away from indicting a host of villains (by name) with his pen, or commemorating good people who met early demises. The structures feature end-rhymes and no terminal punctuation. The explanatory notes that accompany so many poems provide grounding context for each, notably improving comprehension and enjoyment. Some of the least affected pieces are less about mass tragedies or widespread societal problems than they are about the despair of individuals. No one has ever erected a statue to those unfortunate enough to have survived failed eye surgery, but Rooney puts the reader squarely inside the head of someone in that situation in "Dark for Me": "When at noon, the sun / Lit my life with fear / It was still dark and / All that I could see / Were dark explosions / Of mystery." Walt Whitman's ebullient feeling of nostalgia in "Once I Pass'd Through A Populous City" is turned inside out in "The Runaway": "As he stalked along the street and I saw his frightened face / When he entered slow this city devoid of love or pity." ... -Todd Mercer

This book for architects, interior designers, building managers, students, conference organisers looks at first principles to provide the user with the 'tools' to make their own decisions rather than a 'cookbook' approach. It is intended that designs and product information can be taken straight from the manual and inserted into ongoing projects. For the first time the book considers the needs of people with visual, hearing and mental disabilities, who make up the majority of disabled people in the population, alongside those of people with physical mobility disabilities. Practical low cost solutions to retro-fitting existing buildings are discussed, as well as the methods used to assess the suitability of an existing building, and assembling a project to improve access for disabled people. Specific products and designs are illustrated and discussed - with full working technical drawings, and full specification details. These will reduce considerably the research time needed to produce a cost-effective solution that will improve access for disabled people. A perspective of the standards and legislation dealing with access issues in the UK is compared with those in other countries, and the standards mentioned are compared with the realities of practical implementation carried out in 4 years of design in this area.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
