Sparky is a vibrant kitten with "lighted feet" and a musical beat. No one wanted to be his friend because he was "different" than the other kittens of Rainbow Land. His unique ability led him to become a remarkable beam of light in Rainbow Land, as Quando, a squirrel, was attracted to his vibrant beat that led to a remarkable friendship between them. "Wow, you're a rock star," she said as she was amazed by his talent. "You have your own show on your feet." The two later became lost and captured into the heart of the forest and became the property of a notorious bear who used Sparky's talent as a means of entertainment for his children. Sparky later escaped and reunited with Quando, and the friendship became that of a lifetime.

Meet Sparky. This adorable Dalmatian puppy is an important member of the team at the fire station. But he's more than just a cute character in a book: Sparky is the official spokesdog for the National Fire Protection Association (NFPA), and what he has to say can actually save lives. This canine hero rescued a little girl and her family, and now he's helping kids become junior fire inspectors right in their own homes. In colorful, appealing illustrations, Sparky takes a group of young animals through the neighborhood, pointing out hazards, giving basic fire prevention and safety tips, and showing them how to be prepared in case of an emergency. From having a working smoke alarm to being careful with candles and knowing where your exits are, Sparky's advice may be the most important thing children--and their parents--ever learn.

A shocking exploration of America's preferred method of capital punishment. In early 2013, Robert Gleason became the latest victim of the electric chair, a peculiarly American execution method. Shouting Póg mo thóin ("Kiss my ass" in Gaelic), he grinned as electricity shot through his system. When the current was switched off,

his body slumped against the leather restraints, and Gleeson, who had strangled two fellow inmates to ensure his execution was not postponed, was dead. The execution had gone flawlessly—not a guaranteed result with the electric chair, which has gone horrifically wrong on many occasions. Old Sparky covers the history of capital punishment in America and the “current wars” between Edison and Westinghouse that led to the development of the electric chair. It examines how the electric chair became the most popular method of execution in America before being superseded by lethal injection. Famous executions are explored, alongside quirky last meals and poignant last words. The death penalty remains a hot topic of debate in America, and Old Sparky does not shy away from that controversy. Executions have gone spectacularly wrong, with convicts being set alight or needing up to five jolts of electricity before dying. There have been terrible miscarriages of justice, and the death penalty has not been applied even-handedly. Historically, African Americans, the mentally challenged, and poor defendants have been likely to get the chair, an anomaly which led the Supreme Court to briefly suspend the death penalty. Since the resumption of capital punishment in 1976, Texas alone has executed more than five hundred prisoners, and death row is full. It is springtime in the Khutzeymateen Valley of northern British Columbia and the rainforest has again come alive after a long winter's nap. A new addition to the valley is Sparky, a frisky mischievous grizzly bear cub eager to explore the world the bears call Waipo. During Sparky's first summer there is much to learn; not only from his mother, but also from the other creatures of the forest and from nature itself. *Sparky: The World's Most Lovable and Mischievous Bear Cub* takes the reader on an intriguing journey into the lives of the elusive grizzly bear, as seen through the eyes of a first-year cub. This novel is based upon factual information and stories recorded by the author over a ten year period of studying and photographing the Khutzeymateen Valley grizzly bears. This remarkable harborage is home to hundreds of species of flora and fauna, including approximately sixty grizzly bears. Shymanski has delicately woven her observations into a playful, heartwarming story to delight all ages. *Sparky: The World's Most Lovable and Mischievous Bear Cub* is a beautiful, magical tale of the mystical Khutzeymateen Valley and the grizzly bears, who, if they could speak, might have told the story themselves.

Imagine moving to a new home and a new way of life. Do you think you'd be excited or frightened? How about a little bit of both. In her book, *Sparky the Bog Dog*, author Janet DiLeo

Wade introduces newly adopted Sparky. From his suburban home in Louisiana, he moves to life on a cranberry bog in Massachusetts. His mischievous and adventurous spirit are a constant delight and surprise to his new owners. His desire for exploration and charming canine personality expose him to fun-filled situations, as well some that aren't as fun, such as a night spent lost in the cranberry bog. Sparky the Bog Dog is based on DiLeo Wade's life with her dog, Corky. Like Sparky, he moved from Louisiana to Massachusetts. And like Sparky, he enjoys life with a loving family and an adventure from time to time.

We all know that Sparky grows up to be a trusted fire dog at Fire Station Number 5. Now you can learn how Sparky was born on a farm as one of twelve puppies in a litter. All of the puppies loved the farm, but as they grew up they each found a home, a special job, and family of their own.

"A fire dog from the Maxwell Street fire station tells the story of the Great Chicago Fire"--

Sparky and the Waarheid Camera is a darkly comic tale of oddballs, subterfuge, selfishness and disappointment, which contrast with the title character's charming innocence. The novel follows Sparky Donnelly, a ten-year-old boy whose superficially idyllic home life is about to shatter. Sparky is aware that something is wrong—a feeling which he experiences as a vague, indefinable dissatisfaction and naively attributes to his television-fueled perception that other people are living far more fun and exciting lives than he is. This idea obsesses Sparky and triggers an extraordinary dream of an entire day. Armed with several hundred dollars and a special camera that purportedly reveals the true essence of things rather than their outward appearance, Sparky gets a taste of a wide spectrum of dysfunctional and perverse adults in his travels. The conversations that ensue from these surreal encounters serve up slyly ironic and

raunchy humor, including some unwittingly sardonic observations by Sparky himself.

The children at Napville Elementary School always ignore Officer Buckle's safety tips, until a police dog named Gloria accompanies him when he gives his safety speeches.

Like the Caldecott Medal-winning *Officer Buckle and Gloria*, *Sparky* stars a pet who has more to offer than meets the eye. When our narrator orders a sloth through the mail, the creature that arrives isn't good at tricks or hide-and-seek . . . or much of anything. Still, there's something about *Sparky* that is irresistible. Winner of the Charlotte Zolotow Award

Sparky's story shines the spotlight on crimes against

American children that were sanctioned on a national scale by the United States government. At the age of six in 1955, she was sold by her parents to the Sex Magick cult run by the CIA under its illegal program of secret experimentation on mind control called Monarch. By the time she was ten, she'd been purposely split into multiple identities, each one associated with a different age and place as her family moved around the country to avoid Child Protective Services and the police. With each new identity, she forgot the last one. In Imperial Beach, California, inside a tough neighborhood of gangs and brothels abutting the Tijuana Sewer and the Mexican border, she discovered her own courage in the determined persona of a new character, Sparky MacGregor. As she grew older, Sparky's memory faded as she was moved from one location to the next. At the age of seventeen, she escaped from a camp in Big Sur, and left childhood behind. She became a physician, raised a family and moved to Moscow where she founded and ran an underground railroad for child sex trafficking victims from the former USSR. Years later, she returned to Imperial Beach to speak at an international conference on border security. The memory of her lost childhood suddenly returned.

In the tradition of Tuesdays With Morrie, Dan Ewald pens a memoir of his friendship with legendary Tigers manager Sparky Anderson, the man who taught him not only the nuances of baseball, but the importance of life's unwritten rules. Few sports figures, regardless of their position, have generated as much good will as Sparky Anderson, the legendary manager for the Cincinnati

Reds and the Detroit Tigers. Sparky met author Dan Ewald, in 1979, and thus was born a lifelong friendship not likely ever to be seen again in baseball. Along the way, Dan never took for granted the front row seat he had to watch one of history's most memorable managers' absolute mastery of baseball's nuances and intricacies. But the most important things Sparky taught Dan were the "unwritten rules" of life, which he practiced meticulously. To Sparky, a real professional was as great away from the diamond as he was on it. His goal was for his players to be the best husbands, fathers, and community leaders they could be—he believed that was the mark of a winner, not the box score. Sparky had a gift for taking something as inane as the infield fly rule and turning it into a lecture on how to lead a more meaningful life. In 2010, the old friends had planned a get-together before the end of the year. But Sparky's health was taking a turn for the worse, so Dan arranged a three-day visit as quickly as he could. During their last days together, the friends recalled the memories of a lifetime as each prepared silently for their final good-bye. When that weekend came to a close, Dan had grown to appreciate Sparky more than he ever thought he could. In this heartfelt memoir, Dan imparts to readers his best friend's spirit through his unforgettable life lessons and stories only the two of them shared. "Like a wizard, Sparky Anderson was white-haired and wise, and sitting with him was like visiting with an oracle. Dan Ewald, who spent more time with Sparky than any of us, beautifully captures the magic of Sparky's wit, humor, and humanity in these pages. All baseball fans should read it." -- Mitch

Albom, New York Times bestselling author of Tuesdays with Morrie and Have a Little Faith "No one understood Sparky better than Dan Ewald. Managing people in a scope far broader than a pennant race is a rare quality, and Sparky understood people, their insecurities, their motivations. This is a great read, a great understanding of the humanity of playing baseball." –Peter Gammons, MLB Network "For decades, it seemed like everyone in baseball knew Sparky Anderson, and almost all of us considered him a friend. But few knew him as Dan Ewald did. Here, Dan provides a unique look at an endearing man who led a significant life both in and out of the game." –Bob Costas
