The second Spitfire Girl novel from bestselling author Fenella J Miller. The ATA training base, Hampshire, 1940. Ellie Simpson is attached to an Air Transport Auxiliary base in Hampshire. Life as an ATA pilot is tough, but despite the long hours and danger, Ellie can think of nowhere she'd rather be. Not only does she love flying, but doing important war work, alongside new-found friends, provides a welcome distraction from worrying about loved ones fighting on the front line. Being an ATA girl is definitely exciting, but as Ellie soon finds out wearing the distinctive blue uniform also means putting her life on the line every time she takes to the skies. It will take friendship and a strength she didn't know she possessed to help her county – and those she loves – to survive. An inspiring story of an incredible girl going above and beyond during World War II. 'We had returned to a different world. We had taken off in peace at nine-thirty and landed in war at noon.' Jackie Moggridge was just nineteen when World War Two broke out. Determined to do her bit, she joined the Air Transport Auxiliary. Ferrying aircraft from factory to frontline was dangerous work, but there was also fun, friendship and even love in the air. At last the world was opening up to women... or at least it seemed to be. From her first flight at fifteen to smuggling Spitfires into Burma, Jackie describes

the trials and tribulations, successes and frustrations of her life in the sky.

Diana Mackintosh came of age to the drone of sirens alerting the people of Malta to the arrival of relentless flights of belligerent German and Italian menace – the bombers she first imagined as a swarm of black flies, pests that stung and cursed her Mediterranean homeland. The three-year onslaught never took a day off; it was endless, but supplies were not. The hope of a shipment of high protein became an ongoing dream. The only time Diana wasn't hungry was when she slept. Her story of that time, and in 2020 she is one of the very few remaining who experienced it first-hand, makes it clear why Malta was collectively awarded the George Cross, the highest British civilian honour for heroism. Of course, as she argues, no one was trying to be heroic, but somehow they helped reverse the fortunes of the Second World War in the Mediterranean and North Africa. Now at the age of

The remarkable autobiography of a pioneering female aviator who left a privileged life to serve in World War II. Her father was a millionaire race-car driver who became chairman of Bentley Motors, and her grandfather cofounded the De Beers mining company. But by the late 1930s, debutante Diana Barnato had enough of her affluent, chaperoned existence and sought excitement in flying—soloing at Brooklands after only six hours' training. Joining the Air Transport Auxiliary in 1941 to help ferry aircraft to squadrons and bases throughout the country, she flew scores of different aircraft—fighters, bombers, and trainers—in all kinds of conditions, and without a radio. By 1945, Barnato had lost many friends, a fiancé, and a husband—but she continued to fly. In 1962 she was awarded the Jean Lennox Bird Trophy for notable achievement in aviation, but her greatest moment was yet to come, when in 1963 she flew a Lightning through the sound barrier, becoming “the fastest woman in the world.” *Spreading My Wings* is her remarkable memoir, brimming with history and adventure.

Spitfire Stories, published in association with Imperial War Museums, is a fascinating anthology of first-hand stories from Spitfire heroes and heroines of the Second World War. The Spitfire is the world's most iconic aeroplane. Coming into its own during the Battle of Britain, it became famous during the Second World War as the only plane that could match the enemy fighters in the sky. Yet, even today, the history of the Spitfire contains many hitherto hidden or little-known stories of the men and women behind the plane; not only the gifted creators and inventors who brought the Spitfire to life, or the brave fighter pilots from many countries who triumphed in battle, but also the thousands of other people whose lives were affected by their personal connection to it - engineers, ground crew, factory or office workers, and their families. *Spitfire Stories* recounts the memories and stories of these

people, from the birth of the iconic Spitfire in the 1930s to the present day. Among these accounts is the extraordinary tale of the fighter pilot who only discovered, fifty years on, the tragic truth of his last Spitfire flight, the businessman whose blank cheque changed the course of the war, the ninety-five-year-old Royal Air Force engineer who was determined to be reunited with his beloved Spit before he died, and the little girl who inspired the plane's creation - and went on to marry a movie star. Using documents, letters and photographs from the Imperial War Museums' unparalleled archive, plus exclusive first-hand interviews, these stories of the Spitfire are a revelatory collection of small but significant histories, to be treasured by all who love and admire the iconic plane.

This nonfiction picture book is an excellent choice to share during homeschooling, in particular for children ages 4 to 6. It's a fun way to learn to read and as a supplement for activity books for children. Nelle Harper Lee grew up in the rocky red soil of Monroeville, Alabama. From the get-go she was a spitfire. Unlike most girls at that time and place, Nelle preferred overalls to dresses and climbing trees to tea parties. Nelle loved to watch her daddy try cases in the courtroom. And she and her best friend, Tru, devoured books and wrote stories of their own. More than anything Nelle loved words. This love eventually took her all the way to New York City, where she dreamed of becoming a writer. Any chance she had, Nelle sat at her typewriter, writing, revising, and chasing her dream. Nelle wouldn't give up--not until she discovered the right story, the one she was born to tell. Finally, that story came to her, and Nelle, inspired by her childhood, penned *To Kill a Mockingbird*. A groundbreaking book about small-town injustice that has sold over forty million copies, Nelle's novel

Top-class pilots were crucial to the survival of Great Britain during the dark days of the Blitz, and playing a vital role in fending off the German attack were the women's section of the Air Transport Auxiliary, a close and dedicated circle of female pilots. In the midst of events that would shape history, these women risked their lives to ferry aircraft day and night from factory to the arena of war, and lasting friendships were born. Together, Edith Allam and her fellow pilots faced Nazi terror, class prejudice, and the forbidden romances of wartime - yet their remarkable strength carried them through. Spitfire Girls evokes all of the drama of this extraordinary period of history, and is a tribute to the heroism of these brave women, without whom the Battle of Britain might never have been won. Truly inspirational, it is the tale of adventure, courage and the relationships that shape all of our lives. Jackie Howard has always been prim, proper, and perfect. Jackie is surrounded by the enemy—loud, dirty, annoying boys who have no concept of personal space. Okay, several of the oldest guys are flat-out gorgeous. But still annoying. She's not

Three skilled aviators determined to help win the war. Three brave women who know their place is not at home. At the height of World War II, the British Air Transport Auxiliary need help. A group of young women volunteer for action, but the perils of their new job don't end on the tarmac. Things are tough in the air, but on the ground their abilities as pilots are constantly questioned. There is friction from the start between the new recruits. Spirited American Lizzie turns heads with her audacity, but few can deny her flying skills. She couldn't be more different from shy, petite Ruby, who is far from diminutive in the sky. It falls to pragmatic pilot May to bring the women together and create a formidable team capable of bringing the aircraft home. As these very different women fight to prove themselves up to the task at hand, they are faced with challenges and tragedies at every turn. They must fight for equal pay and respect while handling aircraft that are dangerously ill-equipped; meanwhile, lives continue to be lost in the tumult of war. Determined to assist the war effort doing what they love, can May, Lizzie and Ruby put aside their differences to overcome adversity, and will they find love in the skies?

Why would the well-bred daughter of a New England factory-owner brave the U-boat blockades of the North Atlantic in the

bitter winter of 1941? What made a South African diamond heiress give up her life of house parties and London balls to spend the war in a freezing barracks on the Solent? And why did young Margaret Frost start lying to her father during the Battle of Britain? They - and scores of other women - weren't allowed to fly in combat, but what they did was nearly as dangerous. Unarmed and without instruments or radios, they delivered planes for the Air Transport Auxiliary to the RAF bases from which male pilots flew into battle. At the mercy of the weather and any long-range enemy aircraft that pounced on them, dozens of these women died, among them Amy Johnson, Britain's most famous flyer. But the survivors shared four unrepeatable years of life, adrenaline and love. The story of this 'tough bunch of babes' (in the words of one of them) has never been told properly before. The author has interviewed all the surviving women pilots, who came not just from the shires of England, but also from the U.S.A, Chile, Australia, Poland and Argentina. Paid £ 6.00 a week, they flew - in skirts - up to 16 hours a day in 140 different types of aircraft, though most of them liked spitfires best.

This WWII biography recounts the heroic contributions of a female pilot who flew Spitfires, Hurricanes and Wellington Bombers for the RAF. A farmer's daughter from Oxfordshire, Mary Ellis fell in love with flying at the age of eleven, when she rode in a biplane at a flying circus. Already a licensed pilot by the time the Second World War broke out, Mary joined the Air Transit Auxiliary in 1941. As a ferry

pilot, she transported aircraft for the Royal Air Force, including more than four hundred Spitfires and seventy-six different kinds of aircraft. After the war, Mary accepted a secondment to the RAF as one of the first pilots to fly the new Gloster Meteor, Britain's first fighter jet. By 1950, she became Europe's first female air commandant. In this authorized biography, Mary and biographer Melody Foreman vividly recount her action-packed career spanning almost a century of aviation. Mary says: I am passionate for anything fast and furious. I always have been since the age of three and I always knew I would fly. The day I stepped into a Spitfire was a complete joy and it was the most natural thing in the world for me.

Through the darkest days of the Second World War, an elite group of courageous civilian women risked their lives as aerial courier pilots, flying Lancaster bombers, Spitfires and many other powerful war machines in thousands of perilous missions. The dangers these women faced were many: they flew unarmed, without radio and in some cases without instruments, in conditions where even unexpected cloud could mean disaster. In *The Female Few*, five of these astonishingly brave women tell their awe-inspiring tales of incredible risk, tenacity and sacrifice. Their spirit and fearlessness in the face of death still resonates down the years, and their accounts reveal a forgotten chapter in the history of
