In this book, the authors explain why telling students things over and over--and perhaps more slowly and more loudly--does not result in understanding. Instead, discover how to use a combination of questions, prompts, cues, direct explanations, and modeling to guide students' learning and build their understanding. Explore an approach to instruction that ensures you make the four strategic moves that help students become more capable and independent learners: (1) using robust and productive questions to check for understanding; (2) giving students prompts that focus them on the thought process they need to complete a learning task; (3) providing students with cues that focus them on specific information, errors, or partial understandings; and (4) explaining and modeling when students do not have sufficient knowledge to complete tasks. Chapters include: (1) Scaffolds for Learning: The Key to Guided Instruction; (2) Questioning to Check for Understanding; (3) Prompting for Cognitive and Metacognitive Processes; (4) Cueing Students' Attention for Learning; (5) Direct Explanation, Modeling, and Motivation; and (6) Answers to Questions on Considerations and Logistics. The book also includes: An Introduction; References; Related ascd Resources: Guided Instruction; and a Study Guide for Guided Instruction: How to Develop Confident and Successful Learners. "Robert Scholes has written an enviable book on the uses and abuses of literary theory in the teaching of literature. In her own singularly beautiful style, Newbery Medal winner Sharon Creech intricately weaves together two tales, one funny, one bittersweet, to create a heartwarming, compelling, and utterly moving story of love, loss, and the complexity of human emotion. Thirteen-year-old Salamanca Tree Hiddle, proud of her country roots and the "Indian-ness in her blood," travels from Ohio to Idaho with her eccentric grandparents. Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.

Why are dogs so eager to please their owners? Why are some cats bold and others shy? And why do chickens hide their eggs? In this follow-up to her groundbreaking international bestseller, *Animals in Translation*, animal scientist Temple Grandin delivers extraordinary insights into how animals think, helping us give our animals the best and happiest lives - on their terms, not ours. Drawing on her latest research, she identifies the core emotional needs of animals and how to fulfil them. Whether it's creating a happy home for a dog, encouraging cats to be less antisocial, keeping pigs from being bored, or knowing if the lion pacing in the zoo is miserable or just exercising, Grandin teaches us to challenge our assumptions about animal emotions. This is essential and fascinating reading for anyone who owns or cares for an animal.

them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother.” (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone’s communication. For example: **BE THERE OR GO ELSEWHERE**. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. **CHECK YOUR BIAS**. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. **HIDE YOUR PHONE**. Don’t just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you’re struggling to communicate with your kid’s teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions

such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Classic Books Library presents this brand new edition of the short story, “An Occurrence at Owl Creek Bridge” (1890) by Ambrose Bierce. In this text Bierce creatively uses both structure and content to explore the concept of time, from present to past, and reflecting its transitional and illusive qualities. The story is one of Bierce’s most popular and acclaimed works, alongside “The Devil’s Dictionary” (1911). Bierce (1842-c. 1914) was an American writer, journalist and Civil War veteran associated with the realism literary movement. His writing is noted for its cynical, brooding tones and structural precision.
