Neurology abounds with eponyms--Babinski's sign, Guillain-Barre' syndrome, Alzheimer's disease, etc. Neurologists and neuroscientists, however, are often hazy about the origin of these terms. This book brings together 55 of the most common eponyms related to the neurological examination, neuroanatomy, and neurological diseases. The chapters have a uniform structure: a short biography, a discussion of and a quotation from the original publication, and a discussion of the subsequent evolution and significance of the eponym. Photographs of all but two of the eponymists have been included. The material is organized into sections on anatomy and pathology, symptoms and signs, reflexes and tests, clinical syndromes, and diseases and defects. The selection of eponyms was based on the frequency of use, familiarity of clinical neurologists with the concept, and the significance within neurology of the individual who coined the eponym. This volume covers some of the classic ideas in the history of clinical neurology. It will be of interest to neurologists, neuroscientists, medical historians, and their students and trainees.

"Lori Wilde has created a rich and wonderful story about the charm of small town life combined with the power and passion of first love. Delicious!" —New York Times Bestselling author Robyn Carr Come back to Twilight, Texas with award-winning author Lori Wilde. The First Love Cookie Club is heartwarming contemporary romance fiction, the story of a famous writer's return to the hometown she once fled in humiliation—only to discover that the boy she foolishly gave her heart to those many years ago might just be her Christmas miracle. Fans of Debbie Macomber, Susan Wiggs, Susan Mallery, and Sherryl Woods will delight over The First Love Cookie Club, a wonderfully poignant tale of small town second chances.

The Kollin brothers introduced their future world, and central character Justin Cord, in The Unincorporated Man. Justin created a revolution in that book, and is now exiled from Earth to the outer planets, where he is an heroic figure. The corporate society which is headquartered on Earth and rules Venus, Mars, and the Orbital colonies, wants to destroy Justin and reclaim hegemony over the rebellious outer planets. The first interplanetary civil war begins as the military fleet of Earth attacks. Filled with battles, betrayals, and triumphs, The Unincorporated War is a full-scale space opera that catapults the focus of the earlier novel up and out into the solar system. Justin remains both a logical and passionate fighter for the principles that motivate him, and remains the most dangerous man alive. The second edition of The Concise Guide to Writing helps students through all phases of the writing process. With new chapters on justifying an evaluation, reading critically, conducting research in the library and on the internet, and citing sources, this flexible rhetoric offers valuable information for first-year composition courses.

A creature whispers: If not for the cat, And the scarcity of cheese, I could be content. Who is this creature? What does it like to eat? Can you solve the riddle? Seventeen haiku composed by master poet Jack Prelutsky and illustrated by renowned artist Ted Rand ask you to think about seventeen favorite residents of the animal kingdom in a new way. On these glorious and colorful pages you will meet a mouse, a skunk, a beaver, a hummingbird, ants, bald eagles, jellyfish, and many others. Who is who? The answer is right in front of you. But how can you tell? Think and wonder and look and puzzle it out!

The idea of a NATO Science Committee Institute on "Materials for Advanced Batteries" was suggested to JB and DWM by Dr. A. G. Chynoweth. His idea was to bring together experts in the field over the entire spectrum of pure research to applied research in order to familiarize everyone with potentially interesting new systems and the problems involved in their development. Dr. M. C. B. Hotz and Professor M. N. Ozdas were instrumental in helping organize this meeting as a NATO Advanced Science Institute. An organizing committee consisting of the three of us along with W. A. Adams, U. v Alpen, J. Casey and J. Rouxel organized the program. The program consisted of plenary talks and poster papers which are included in this volume. Nearly half the time of the conference was spent in study groups. The aim of these groups was to assess the status of several key aspects of batteries and prospects for research opportunities in each. The study groups and their chairmen were: Current status and new systems J. Broadhead High temperature systems W. A. Adams Interface problems B. C. H. Steele Electrolytes U. v Alpen Electrode materials J. Rouxel These discussions are summarized in this volume. We and all the conference participants are most grateful to Professor J. Rouxel for suggesting the Aussois conference site, and to both he and Dr. M. Armand for handling local arrangements.

New York Times and USA Today bestselling authors W. Michael Gear and Kathleen O'Neal Gear are famous for writing novels about prehistoric America that are fast-paced, steeped in cultural detail, and smart. In People of the Owl they combine their distinctive trademark of high action with a rich psychological drama. Four thousand years ago, in what centuries later will be the southern part of the United States, a boy is thrust into manhood long before he's ready. Young Salamander would much rather catch crickets and watch blue herons fish than dabble in the politics of his clan. But when his heroic brother is killed, Salamander becomes the leader of America's first city. He inherits his brother's two wives, who despise him, and is forced to marry his mortal enemy's daughter to forge an alliance for the trade goods his people desperately need. Cast adrift in a stark wilderness of political intrigue where assassins are everywhere, young Salamander has no choice but to become a man—and quickly. The first novel in New York Times bestselling author Anne Bishop's Tir Alainn Trilogy. The youngest in a long line of witches, Ari senses that things are changing—changing for the worse. For generations, her kin have tended the Old Places, keeping the land safe and fertile. But with the Summer Moon, the mood of her neighbors has soured. And Ari is no longer safe. The Fae have long ignored what occurs in the mortal world, passing through on their shadowy roads only long enough to amuse themselves. But the roads are slowly disappearing, leaving the Fae Clans isolated and alone. Where harmony between the spiritual and the natural has always reigned, a dissonant chord now rings in the ears of both Fae and mortal. And when murmurs of a witch-hunt hum through the town, some begin to wonder if the different omens are notes in the same tune. And all they have to guide them is a passing reference to something called the Pillars of the World...

As a full classroom text or reference, The St. Martin's Handbook has everything -- from argument to research to writing for the Web -- for the way writing is taught today. Through her own classroom teaching, her travels nationwide to hear the voices and experiences of other teachers, and her research into how technologies change the way writing is done, Andrea Lunsford's unflagging commitment to students comes through in every part of the handbook.

Principles of Physics is a well-established popular textbook which has been completely revised and updated.

By studying the work of hundreds of the most original and effective business minds, the authors present a common architecture that illuminates exceptional analysis and creative performance. 2 x 2 Thinking is characterized by a fundamental appreciation for the dynamic and complex nature of business. The best strategists go out of their way to tackle dilemmas rather than merely solve problems. They use opposition, creative tension, iteration and transcendence to get to the heart of issues and involve critical others in finding the best solutions. The authors demonstrate how to apply the 2 x 2 approach to a wide range of important business challenges.

Greenwood Plantation in the Red Hills region of southwest Georgia includes a rare one-thousand-acre stand of old-growth longleaf pine woodlands, a remnant of an ecosystem that once covered close to ninety million acres across the Southeast. The Art of Managing Longleaf documents the sometimes controversial management system that not only has protected Greenwood's "Big Woods" but also has been practiced on a substantial acreage of the remnant longleaf pine woodlands in the Red Hills and other parts of the Coastal Plain. Often described as an art informed by science, the Stoddard-Neel Approach combines frequent prescribed burning, highly selective logging, a commitment to a particular woodland aesthetic, intimate knowledge of the ecosystem and its processes, and other strategies to manage the longleaf pine ecosystem in a sustainable way. The namesakes of this method are Herbert Stoddard (who developed it) and his colleague and successor, Leon Neel (who has refined it). In addition to presenting a detailed, illustrated outline of the Stoddard-Neel Approach, the book—based on an extensive oral history project undertaken by Paul S. Sutter and Albert G. Way, with Neel as its major subject—discusses Neel's deep familial and cultural roots in the Red Hills; his years of work with Stoddard; and the formation and early years of the Tall Timbers Research Station, which Stoddard and Neel helped found in the pinelands near Tallahassee, Florida, in 1958. In their introduction, environmental historians Sutter and Way provide an overview of the longleaf ecosystem's natural and human history, and in his afterword, forest ecologist Jerry F. Franklin affirms the value of the Stoddard-Neel Approach.

One Hostage Bride Kinley Kohl agrees to marry wealthy Greg Jansen to save her family. Her wedding day should be the happiest of her life...except that she doesn't love him. And she can't help but wonder if she's making a mistake. Even so, she refuses to let her loved ones down. Then moments before her nuptials, she's kidnapped—and her whole life changes. Three Determined Mercenaries Dominic Anthony has waited years to avenge his sister's murder. He knows Greg Jansen is dirty, but he needs a witness to help prove his case. Jansen's new bride is the perfect hostage. Kinley Kohl will tell him everything...or else. But his two business partners aren't so sure. Law and Riley Anders worry that Kinley isn't as guilty as she seems. And Law suspects she might be the one woman who can handle them all. From Target to Treasure In the wilds of Alaska, the three men try to pry Kinley open, only to discover she's both stronger and more innocent than they imagined. Her sweet beauty melts their suspicion and steals their hearts. Together, they awaken her passion and brand her as their own. When danger strikes, the men realize they must save Kinley or lose the love of their lives forever.

Andrea Lunsford's comprehensive advice in The St. Martin's Handbook, Eighth Edition, supports students as they move from informal, social writing to both effective academic writing and to writing that can change the world. Based on Andrea's groundbreaking research on the literacy revolution, this teachable handbook shows students how to reflect on the writing skills they already have and put them to use both in traditional academic work and in multimodal projects like blog posts, websites, and presentations. Integrated advice on U.S. academic genres and language follows best practices for helping students from both international and native-speaker backgrounds improve their understanding of academic English. Throughout The St. Martin's Handbook, Andrea Lunsford encourages all of today's students to learn everything they need to communicate effectively with the diverse people sharing their classrooms, workspaces, and civic lives.

As the clock chimed the turn of the twentieth century, Lilly Nelly Aphrodite took her first breath. Born to a cabaret dancer and soon orphaned in a scandalous double murder, Lilly finds refuge at a Catholic orphanage, coming under the wing of the, at times, severe Sister August, the first in a string of lost loves. There she meets Hanne Schmidt, a teen prostitute, and forms a bond that will last them through tumultuous love affairs, disastrous marriages, and destitution during the First World War and the subsequent economic collapse. As the century progresses, Lilly and Hanne move from the tawdry glamour of the tingle-tangle nightclubs to the shadow world of health films before Lilly finds success and stardom in the new medium of motion pictures and ultimately falls in love with a man whose fate could cost her everything she has worked for or help her discover her true self. Gripping and darkly seductive, The Luminous Life of Lilly Aphrodite showcases all the glitter and splendour of the brief heyday of the Weimar Republic, and the rise of Hollywood to its golden age. As it foreshadows the horrors of the Second World War, the novel asks what price is paid when identity becomes unfixed and the social order is upended.

Bestselling Author Unveils New Historical Series Merrill Krause longs for a family of her own, but she's bound by a promise to her dying mother to care for her father and older brothers until they no longer need her. She enjoys being part of the family business, harvesting ice during the brutal Minnesota winters. Merrill actively takes part, possessing a keen ability to work with the horses--despite the advice of her good friend, who disapproves of her unladylike behavior. When Rurik Jorgenson arrives in their small town to join his uncle doing carpentry, he soon crosses paths with Merrill. But unlike other men, who are often frightened away by her older brothers, Rurik isn't intimidated by them or by Merrill's strength and lack of femininity. As he thrives under the mentorship of his uncle, Rurik dreams of inheriting the business and claiming Merrill as his wife. But while he is determined to start a new life, the past is determined to follow him when his former fiancée and her brother show up in town. Soon Rurik is put in the center of a major scandal that may damage his relationship with Merrill. Can they learn to trust God--and each other--and embrace the promise of love?

In Slavery in Árpád-era Hungary in a Comparative Context, Cameron Sutt examines servile labour in the first three centuries of the Hungarian kingdom and compares it with dependent labour in Carolingian Europe.

Nearly three years ago, world leaders agreed to the United Nations 2030 Agenda for Sustainable Development and its 17 Sustainable Development Goals (SDGs) – the central framework for guiding development policies throughout the world. This edition of The State of the World's Forests is aimed at enhancing our understanding of how forests and their sustainable management contribute to achieving several of the SDGs. Time is running out for the world's forests: we need to work across sectors, bring stakeholders together, and take urgent action. The State of the World's Forests 2018 identifies actions that can be taken to increase the contributions of forests and trees that are necessary to accelerate progress towards the SDGs. It is now critical that steps be taken to work more effectively with the private sector, and the informal forest sector must be transformed in order to bring broader economic, social and environmental benefits. Seventy years ago, when FAO completed its first assessment of the world's forest resources, the major concern was whether there would be enough timber to supply global demand; now we recognize the greater global relevance of our forests and trees. For the first time, The State of the World's Forests 2018 provides an assessment of the contribution of forests and trees to our landscapes and livelihoods. The purpose of this publication is to provide a much wider audience with an understanding of why forests and trees matter for people, the planet and posterity.
