

Strategic Market Management European Edition

This book examines the ways in which companies create and sustain their competitive advantage. Utilizing a marketing strategy framework which provides you with the tools and techniques to assess the role of marketing strategy in an organization and to evaluate its impact and contribution.

Strategic management has traditionally concerned itself with delivering objectives based on an assessment of resources and the market environment. However, there are many actors considered 'outside' the firm that inevitably shape the dynamics within the market. Nonmarket strategies entail social, political, and legal arrangements that reinforce or enable market strategies, providing a comprehensive approach to improving performance and gaining a competitive advantage. This book introduces nonmarket strategic management within these contexts. Divided into two parts, the first part offers theories and managerial support for coping with the complex business realities surrounded by social, political and legal spheres; the second part presents examples of the challenges firms in the nonmarket environment. These examples show how firms can strategically manage and work with social, political and regulatory stakeholders to achieve their goals. Written by two leading scholars in the area, this book is essential reading for business students, managers and leaders.

A compact overview of the most relevant concepts and developments in International Management. The various strategy concepts of internationally active companies and their implementation in practice are the core of this book. The authors describe the particularities of international value chain activities and management functions and offer a thorough understanding of how Production & Sourcing, Research & Development, Marketing, Human Resource Management and Controlling have to be designed in an international company and what models are available to understand those activities in an international context. In 23 lessons, a comprehensive overview of all key issues is given. Each lesson is accompanied by a case study from an international company to facilitate the understanding of all important factors involved in strategic international management. In this third edition, all chapters have been updated, all case studies revised, new chapters and recent data were integrated.

Marketers everywhere are talking about content, but not everyone is saying the same thing. Some professionals love content and believe it has revolutionized the practice of marketing. To others, it's mere hype: a new name for what marketers have always done. The Definitive Guide to Strategic Content Marketing brings together all of these diverse perspectives, structuring them around useful key topics that provide insight into the multi-faceted nature of content marketing, featuring interviews with leading academics, industry experts, global thought leaders and influencers. The editors of The Definitive Guide to Strategic Content Marketing weave different voices together to present a balanced view of content marketing, grouping the discussion around relevant subjects such as content monetization, native advertising, visuals vs video, and the challenge of measuring results. This structure allows readers to move through the book according to their interests, and cherry-pick the most useful aspects of each discussion to apply to their own marketing initiatives. Containing contributions from brands such as GE, General Motors, HSBC, Football Association, Diageo and Pernod Ricard, and agencies including Ogilvy Group UK, Havas, Zenith, Vizeum, Accenture and more, this book is a truly unique resource. Online resources include bonus chapters. With a foreword written by Tom Goodwin, author of Digital Darwinism and EVP, Head of Innovation at Zenith USA, this book contains insight and contributions from a wealth of A-list industry professionals and influencers, including: Tim Lindsay, Bob Garfield, Bob Hoffman, Faris Yakob, Thomas Kolster, Rebecca Lieb, Tia Castagno, Scott Donaton, Rober Rose, David Berkowitz, Professors Mara Einstein, Mark Ritson and Douglas Rushkoff.

Strategic Marketing Management (5th edition) offers a comprehensive framework for strategic planning and outlines a structured approach to identifying, understanding, and solving marketing problems. For business students, the theory advanced in this book is an essential tool for understanding the logic and the key aspects of the marketing process. For managers and consultants, this book presents a conceptual framework that will help develop an overarching strategy for day-to-day decisions involving product and service design, branding, pricing, promotions, and distribution. For senior executives, the book provides a big-picture approach for developing new marketing campaigns and evaluating the success of ongoing marketing programs.

With a view to continue the current growth momentum, excel in all phases of business, and create future leadership in Asia and across the globe, there is a felt need to develop a deep understanding of the Asian business environment, and how to create effective marketing strategies that will help growing their businesses.

Frameworks for Market Strategy helps students understand how to develop and implement a market strategy and how to manage the marketing process. Marketing activity is the source of insight on the market, customers, and competitors and lies at the core of leading and managing a business. To understand how marketing fits into the broader challenge of managing a business, Capon and Go address marketing management both at the business and functional levels. The book moves beyond merely presenting established procedures, processes, and practices and includes new material based on cutting-edge research to ensure students develop strong critical thinking and problem-solving skills for success. In this European edition, Capon and Go have retained the strong framework of the book, but have updated the cases, examples, and discussions to increase the book's relevance for students outside the USA. Key features include: • A strong strategic focus, teaching students how to analyze markets, customers, and competitors to plan, execute, and evaluate a winning market strategy • Practical examples from a range of contexts, allowing students to develop the skills necessary to work in for-profit, public, or non-profit firms • Emphasis on understanding the importance of working across organizational boundaries to align firm capabilities • Full chapters devoted to key topics, including brand management, digital marketing, marketing metrics, and ethical as well as social responsibilities • Focus on globalization with a chapter on regional and international marketing • Multiple choice, discussion, and essay questions at the end of each chapter Offering an online instructor's manual and a host of useful pedagogy – including videos, learning outcomes, opening cases, key ideas, exercises, discussion questions, a glossary, and more – this book will provide a solid foundation in marketing management, both for those who will work in marketing departments, and those who will become senior executives.

The classic **Marketing Management** is an undisputed global best-seller - an encyclopedia of marketing considered by many as the authoritative book on the subject. This third European edition keeps the accessibility, theoretical rigour and managerial relevance - the heart of the book - and adds: * A structure designed specifically to fit the way the course is taught in Europe. * Fresh European examples which make students feel at home. * The inclusion of the work of prominent European academics. * A focus on the digital challenges for marketers. * An emphasis on the importance of creative thinking and its contribution to marketing practice. * New in-depth case studies, each of which integrates one of the major parts in the book. This textbook covers admirably the wide range of concepts and issues and accurately reflects the fast-moving pace of marketing in the modern world, examining traditional aspects of marketing and blending them with modern and future concepts. A key text for both undergraduate and postgraduate marketing programmes.

The nature of the information marketplace is under continual evolution and all organisations in the information industry need to form new strategic alliances, identify new market segments and evolve new products, employing a full armoury of marketing tactics to succeed in the changing environment. In this fully revised second edition of **Information Marketing** Jenny Rowley explores the impact of globalization, digitization, connectivity and customization in the information marketplace. She introduces a number of new topics and a shift of emphasis which reflect both the changing nature of information services and also practical and theoretical perspectives on marketing. As well as being thoroughly revised and updated, themes that are more fully developed include: e-service, self-service, customer relationships, online branding, online marketing communications, measuring online activity and customer relationship management systems. This book's unique perspective makes it essential reading for professionals in information services as well as students in information management, library and information studies, business information, marketing, e-commerce and communication studies.

This book is a unique collection of comprehensive cases that explore concepts and issues surrounding strategic marketing. Chapters explain what strategic marketing is, and then discuss strategic segmentation, competitive positioning, and strategies for growth, corporate branding, internal brand management, and corporate reputation management. With case studies from a broad range of global contexts and industries, including Burger King, FedEx, and Twitter, readers will gain a working knowledge of developing and applying market-driven strategy. Through case analysis, students will learn to: examine the role of corporate, business, and marketing strategy in strategic marketing; recognize the implications of markets on competitive space with an emphasis on competitive positioning and growth; interpret the various elements of marketing strategy and apply them to a particular real-world situation; apply sound decision-making strategies and analytical frameworks to specific strategic marketing problems and issues; apply ethical frameworks to strategic marketing situations. **Strategic Marketing: Concepts and Cases** is ideal for advanced undergraduate and postgraduate students, as well as those studying for an MBA or executive courses in strategic marketing or marketing management.

The European edition of **Strategic Market Management** has been prepared with the objective of taking David Aaker's outstanding and well-established textbook and presenting it to a European audience. It retains the culture of the original text, to maintain its accessibility and continue its emphasis on practical action. It has also kept the compactness, which has made it so popular with graduate and executive students and managers, while keeping a comprehensive coverage of major and emerging themes in strategy. The core value of the original text, that the development, evaluation and implementation of business strategies are essential to successful management, is also retained in the European edition. The book is essential reading for any management or business school course that focuses on the management of strategies. It is especially appropriate for marketing strategy, strategic management and business policy courses. It is also designed to be used by managers who need to develop strategies or who run a small business and want to improve their strategy development and planning processes.

Presents a process based approach that integrates Marketing with other aspects of Management such as strategy, organisational theory, strategic financial management and management accounting. This work presents a process-based approach that draws heavily on Business Process Re-engineering (BPR).

Strategic Marketing: planning and control covers contemporary issues by exploring current developments in marketing theory and practice including the concept of a market-led orientation and a resource/asset-based approach to internal analysis and planning. The text provides a synthesis of key strategic marketing concepts in a concise and comprehensive way, and is tightly written to accommodate the reading time pressures on students. The material is highly exam focused and has been class tested and refined. Completely revised and updated, the second edition of **Strategic Marketing: planning and control** includes chapters on 'competitive intelligence', 'strategy formulation' and 'strategic implementation'. The final chapter, featuring mini case studies, has

been thoroughly revised with new and up to date case material.

As industries turn increasingly hostile, it is clear that strong brand-building skills are needed to survive and prosper. In David Aaker's pathbreaking book, *MANAGING BRAND EQUITY*, managers discovered the value of a brand as a strategic asset and a company's primary source of competitive advantage. Now, in this compelling new work, Aaker uses real brand-building cases from Saturn, General Electric, Kodak, Healthy Choice, McDonald's, and others to demonstrate how strong brands have been created and managed. A common pitfall of brand strategists is to focus on brand attributes. Aaker shows how to break out of the box by considering emotional and self-expressive benefits and by introducing the brand-as-person, brand-as-organisation, and brand-as-symbol perspectives. A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands. Aaker shows how to manage the "brand system" to achieve clarity and synergy, to adapt to a changing environment, and to leverage brand assets into new markets and products. As executives in a wide range of industries seek to prevent their products and services from becoming commodities, they are recommitting themselves to brands as a foundation of business strategy. This new work will be essential reading for the battle-ready.

First published in 1998, this volume emerged as part of the series *Plymouth Studies in Contemporary Shipping*, which represents a unique collection of papers and texts edited from the leading maritime institute in Western Europe at the University of Plymouth. Covering research from a range of geographical sectors but with a particular emphasis on Western Europe, developing countries and Eastern Europe the topics covered emerge from the full range of business areas including maritime economics, policy, statistics, logistics, law and business studies. Designed for both the practising academics and the shipping and ports industry itself, this series is an original and novel contribution to the maritime debate. This particular volume focuses on ports in Poland and Eastern Europe more widely as transition economies after the fall of the Soviet Union. Susanne Ferch and Michael Roe examine their use of strategic management systems to determine whether and how the highly turbulent environment is reflected in the systems at Poland's largest ports, Gdynia and Gdańsk. Particular focus is given to inter-port variations.

Intelligent Support Systems for Marketing Decisions examines new product development, market penetration strategies, and other marketing decisions utilizing a confluence of methods, including Decision Support Systems (DSS), Artificial Intelligence in Marketing and Multicriteria Analysis. The authors systematically examine the use and implementation of these methodologies in making strategic marketing decisions. Part I discusses the basic concepts of multicriteria analysis vis-à-vis marketing decisions and in new product development situations. Part II presents basic concepts from the fields of Information Systems, Decision Support Systems, and Intelligent Decision Support Methods. In addition, specialized categories of DSS (multicriteria DSS, web-based DSS, group DSS, spatial DSS) are discussed in terms of their key features and current use in marketing applications. Part III presents IDSS and a multicriteria methodology for new product development. Further chapters present a developmental strategy for analyzing, designing, and implementing an Intelligent Marketing Decision Support System. The implementation discussion is illustrated with a real-world example of the methods and system in use.

Adopted internationally by business schools and MBA programmes, *The New Strategic Brand Management* is simply the reference source for senior strategists, positioning professionals and postgraduate students. Over the years it has not only established a reputation as one of the leading works on brand strategy, but also has become synonymous with the topic itself. Using an array of international case studies, Jean-Noël Kapferer covers all the leading issues faced by brand strategists today. With both gravitas and intelligent insight, the book reveals new thinking on topics such as putting culture and content into brands, the impact of private labels and the comeback of local brands. This updated fifth edition of *The New Strategic Brand Management* builds on its impressive reputation, including new information to enable students and practitioners to stay up to date with targeting, adding recent research and market knowledge to the discipline. With dedicated sections for specific types of brands (luxury, corporate and retail), international examples and case studies from companies such as Audi, Nivea, Toyota and Absolut Vodka; plus models and frameworks such as the Brand Identity Prism; it remains at the forefront of strategic brand thinking.

The ability to manage change-management processes depends on individual skills and organisational culture. These skills have to be increased and practiced; in this perspective, the reading and analysis of this casebook can generate mental training about innovation. In order to look for common problems and solutions for implementing managerial development, a rich portfolio of European cases, with at least one representative for every European component, is presented. Typically comparative works select different countries according to criteria such as English speaking, countries from the same region or industrialised countries. This book looks at comparative differences but also has sufficient cultural, social, political and economic homogeneity. Comparisons are more useful and easier to understand due to common implementation difficulties and possible change strategies. A general introduction leads on to some theoretical background, which presents the Editors' thinking about strategy, change management and the strategic approach to change management, representing the framework at the core of the book. A guide through the European examples introduces the cases themselves. Teaching notes on how to position the case, learning objectives, question discussion, case analysis and further reference are provided in order to show teachers and trainers how to use each individual case. This book is a tool for discussion and a framework to structure a debate about the evaluation of managerial evolution, providing trainers, students and practitioners with an instrument to understand how to face the difficulties each change management process is affected by.

Bringing together theories and concepts from brand management, consumer culture theory, marketing, communications, and design, this book provides an understanding of how organisations can successfully develop, market, and manage their brands. It draws extensively from scholarly research published in social sciences and humanities to provide a detailed discussion of the process of brand management and development. This book explores how organisations can design brand identities, develop brand marketing programmes, measure brand performance, and sustain brand equity, combining psychological, sociological, cultural, and management perspectives. It provides numerous examples that contextualise theory, enabling the reader to understand how past and present branding campaigns and strategies can be deconstructed, analysed, and evaluated, using these theoretical insights. With end-of-chapter case studies on Burberry, Juventus F.C., Pukka Herbs, YO!, and many other European and global brands, *Strategic Brand Management and Development* is an essential text for students in marketing, brand management, and consumer research, or for anyone interested in understanding the extraordinary power and scope of brands and branding in contemporary post-modern society.

As Europe moves towards becoming a truly single European market, its contribution to global marketing grows. This topical text expands upon existing international marketing theory and synthesizes it with colourful examples of relevant international marketing practice. Topics covered include: marketing information systems marketing research product development pricing issues international promotion distribution channels. With a strong theoretical framework, this informative text draws out the key issues within the developing European Union and the role it plays in marketing around the globe. Its excellent pedagogy (including case studies, summaries, text boxes and a website to run alongside), helps make it a valuable resource for academics and professionals alike. Market-Driven Management adopts a broad approach to marketing, integrating the strategic and operational elements of the discipline. Lambin's unique approach reflects how marketing operates empirically, as both a business philosophy and an action-oriented process. Motivated by the increased complexity of markets, globalisation, deregulation, and the development of e-commerce, the author challenges the traditional concept of the 4Ps and the functional roles of marketing departments, focusing instead on the concept of market orientation. The book considers all of the key market stakeholders, arguing that developing market relations and enhancing customer value is the responsibility of every member of the organization, and that the development of this customer value is the only way for a firm to achieve profit and growth. New to this edition: - Greater coverage of ethical issues and corporate social responsibility; cultural diversity; value and branding and the economic downturn - Broad international perspective - Thoroughly revised to reflect the latest academic thinking and research With its unique approach, international cases and complementary online resources, this book is ideal for postgraduate and upper level undergraduate students of marketing, and for MBAs and Executive MBAs.

The text is a European adaptation of our current US book: Strategic Market Management, 9th Edition by David Aaker. This new edition is a mainstream text suitable for all business students studying strategy and marketing courses. Strategic Market Management: Global Perspectives is motivated by the strategic challenges created by the dynamic nature of markets. The premise is that all traditional strategic management tools either do not apply or need to be adapted to a more dynamic context. The unique aspects of the book are its inclusion of: A business strategy definition that includes product/market scope, value proposition, and assets and competences. A structured strategic analysis including a detailed customer, competitor, market, and environmental analysis leading to an understanding of market dynamics that is supported by a summary flow diagram, a set of agendas to help start the process, and a set of planning forms. Concepts of strategic commitment, opportunism, and adaptability and how they can and should be blended together. Bases of a value proposition and strong brands. A strategy without a compelling value proposition will not be market driven or successful. Brand assets that will support a business strategy need to be developed. Creating synergetic marketing with silo organisations defined by products or countries. All organisations have multiple products and markets and creating cooperation and communication instead of competition and isolation is becoming an imperative. A global perspective is an essential aspect of this new edition. This reflects the lived experience of the student reader but also their likely professional challenges. This is achieved by the extensive use of new examples and vignettes.

This third edition of Strategic Marketing Management confirms it as the classic textbook on the subject. Its step-by-step approach provides comprehensive coverage of the five key strategic stages: * Where are we now? - Strategic and marketing analysis * Where do we want to be? - Strategic direction and strategy formulation * How might we get there? - Strategic choice * Which way is best? - Strategic evaluation * How can we ensure arrival? - Strategic implementation and control This new revised and updated third edition has completely new chapters on 'The Nature and Role of Competitive Advantage' and 'The Strategic Management of the Expanded Marketing Mix', and extensive new material covering: * The changing role of marketing * Approaches to analysing marketing capability * E-marketing * Branding * Customer relationship management * Relationship management myopia * The decline of loyalty The book retains the key features that make it essential reading for all those studying the management of marketing - a strong emphasis on implementation, up to date mini cases, and questions and summaries in each chapter to reinforce key points. Widely known as the most authoritative, successful and influential text in the sector, the new edition remains an irreplaceable resource for undergraduate and graduate students of business and marketing, and students of the CIM Diploma.

The fifth edition of Marketing Strategy and Management builds upon Michael Baker's reputation for academic rigor. It retains the traditional, functional (4Ps) approach to marketing but incorporates current research, topical examples and case studies, encouraging students to apply theoretical principles and frameworks to real-world situations.

This exciting new textbook is built on the belief that strategic management principles are more straightforward than they seem. Unlike other textbooks, Essentials of Strategic Management does not overcomplicate the discussion with enigmatic layers of theory or irrelevant perspectives from other disciplines. Instead you will find focused, clearly articulated coverage of the key topics of strategic management, encouraging critical reflection and deeper exploration on your own terms. Fully developed to cover the essentials of any strategic management course, authors Martyn R. Pitt and Dimitrios Koufopoulos not only create understanding of the principles of strategy, but shows you how to apply them constructively in the face of real-world practicalities.

Strategic Brand Management 2e provides a comprehensive and up-to-date treatment of the subjects of brands, brand equity, and strategic brand management. Strategic brand management involves the design and implementation of marketing programmes and activities to build, measure, and manage brand equity. The book aims to provide managers with concepts and techniques to improve the long-term profitability of their brand strategies. It incorporates current thinking and developments on these topics from both academics and industry participants. It also combines a comprehensive theoretical foundation with numerous practical insights to assist managers in their day-to-day and long-term brand decisions.

This book helps students to develop a critical understanding of the service business scenarios and strategies used in marketing for emerging markets. The case studies presented focus on creating, communicating and delivering customer value to emerging market consumers through various marketing strategies, processes and programs in the context of emerging market dynamics, consumer diversity, and competitors. By illustrating a range of actual business situations, this case book will help students acquire the skills they need to make informed marketing decisions in emerging markets. Further, it provides instructors, students, and practitioners alike a framework for understanding the strategic marketing dynamics at work in these countries.

This proceedings volume highlights cutting-edge approaches for contemporary issues evolved in strategic marketing and the integration of theory and practice. It focuses on strategic research and innovative activities in marketing that can be used in everyday operations. The contributions have been divided into eight sections, grouping emerging marketing technologies together in a close examination of practices, problems and trends. The first section examines management challenges which influence societies, cultures, networks, organizations, teams, and individuals. It emphasizes ways business processes foster innovation and facilitate management transitions from dominant structures to more evolutionary, developmental paradigms. The second section discusses the benefits and guidelines to implementation of green marketing strategies. The following section pursues new perspectives of the role of location in marketing and its impact on consumer well-being. The next section explores the impacts of user generated content (UGC) on marketing theories and practice, which is followed by a section identifying how market-based assets can contribute to a sustainable competitive advantage. The sixth section covers understanding consumer perception to make marketing decisions. The final sections promote the use of business informatics and modeling in marketing and also the development of integrating information management in ways that change how people use information to engage in knowledge focused activities. The papers from the proceedings of the 6th International Conference on Strategic Innovative Marketing (IC-SIM 2017) have been written by scientists, researchers, practitioners and students that demonstrate a special orientation in strategic marketing, all of whom aspire to be ahead of the curve based on the pillars of innovation. This proceedings volume shares their recent contributions to the field and showcases their exchange of insights on strategic issues in the science of innovation marketing.

This book presents a collection of articles addressing a range of marketing strategies unique to emerging economies. It describes the component of strategic and tactical marketing, including the marketing mix, segments and targeting, product and market orientation,

employing the Internet and social media, penetration and loyalty strategies and innovation, and other strategy issues in the marketing context. In addition, the book focuses on creating, communicating, and delivering customer value to emerging market consumers through diverse marketing strategies, processes, and programs in the context of emerging markets' dynamics, consumer diversity, and competitors. Bringing together contributors from industry and academia to explore key marketing issues prevalent in India and other emerging economies, the book offers a unique and insightful read for a global audience. "This book, edited by Dr. Atanu Adhikari, offers important analytical and managerial insights into consumer behavior, firm strategy, market dynamics and marketing instruments (price, promotion, distribution and product). While marketing and management disciplines have developed useful empirical generalizations, the context is critical. This book does exactly that -- place the generalized results in the context of emerging markets and India. Accordingly, this is a valuable resource for scholars and practitioners." -- Dr. Gurumurthy Kalyanaram, Professor, City University of New York, USA and Tata Institute of Social Sciences, Mumbai, India; US Editor, International Journal of Learning and Change; and President, MIT South Asian Alumni Association "This book is a must-read for anyone interested in marketing to less-developed countries. While the focus of the chapters is on India, the lessons learned can be generally applied. The 32 chapters represent comprehensive coverage of nearly every topic related to marketing with many examples. Any manager interested in doing business in emerging markets, Professors who want a better knowledge of these markets, or students who want an excellent reference should acquire this book." -- Dr. Russell S. Winer, William Joyce Professor of Marketing, Stern School of Business, New York University, USA.

Dieses Lehrbuch führt in verständlicher, systematischer und knapper Form in die Problemfelder der Marketingplanung ein. Sowohl die Marketingplanung auf der Unternehmens- und Geschäftsebene als auch die Planung des Marketing-Mix werden behandelt. Mit Hilfe von zahlreichen kurzen Fallbeispielen werden wesentliche Aspekte des Inhaltes veranschaulicht. Die Autoren haben in der 7. Auflage alle Kapitel überarbeitet und diverse neue Praxisbeispiele aufgenommen. Bei der Markenführung wurden einige Grundlagen ergänzt.

Strategic Marketing Management is a post-introductory text in Marketing which is thoroughly European - the French language edition is already the best-selling marketing textbook in France. Comprising sixteen chapters carefully structured within five parts, this book offers innovative and comprehensive coverage of strategic marketing management. In Part 1 the distinction between operational marketing and strategic marketing is made, and the reader is shown why, in the new European macromarket, strategy is most important and why the entire organization must be market-oriented. Part 2 opens with an analysis of the needs of individuals and organizations in order to establish the buyer's purchase and response behaviour, and examines the vital role of market research in this process. Part 3 is devoted to the tasks of strategic marketing. Part 4 looks closely at issues of implementation. Finally, in Part 5 there are fifteen topical case studies with follow-up questions which have been specially selected to illustrate and examine a wide range of strategic marketing management issues.

In recent years, the pace of technological growth—from the very first stages of research and development to full-scale industrial implementation—has quickened at an exponential rate. To better keep pace with rapidly-changing market demands, the gap between university research incubators and public-sector start-up companies has undergone a marked contraction. *Competitive Strategies for Academic Entrepreneurship: Commercialization of Research-Based Products* seeks to fill the gap in research between universities and the public, and offers cutting-edge insight into the current state of the field. Charting a course that moves from discussions of academic resistance and implications for knowledge-transfer theory to current case-studies of academic/industrial launch-pads like COTEC's Technology Commercialization Accelerator and the Maryland Industrial Partnerships program, this publication targets an audience of academicians, administrators, researchers, entrepreneurs, and established professionals, and seeks to provide insight into the mechanisms by which the research of today becomes the household names of tomorrow.

Creating and delivering superior customer value is essential for organizations operating in today's competitive environment. This applies to virtually any kind of organization. It requires a profound understanding of the value creation opportunities in the marketplace, choosing what unique value to create for which customers, and to deliver that value in an effective and efficient way. Strategic marketing management helps to execute this process successfully and to achieving sustainable competitive advantage in the market place. *Creating Customer Value Through Strategic Marketing Planning* discusses an approach that is both hands-on and embedded in marketing and strategy theory. This book is different from most other marketing strategy books because it combines brief discussions of the underlying theory with the presentation of a selection of useful strategic marketing tools. The structure of the book guides the reader through the process of writing a strategic marketing plan. Suggestions for using the tools help to apply them successfully. This book helps students of marketing strategy to understand strategic marketing planning at work and how to use specific tools. Furthermore, it provides managers with a practical framework and guidelines for making the necessary choices to create and sustain competitive advantage for their organizations.

Sport now has to compete for the consumer dollar with a vast array of leisure activities online as well as offline. Successful sport marketing is the result of carefully structured planning, creativity and perseverance. Integrating the unique characteristics of sport with traditional marketing theory, *Strategic Sport Marketing* presents a framework of strategic decision-making. The authors outline the diverse markets for sport: participants, sponsors, spectators and fans. International case studies and 'sportviews' selected from a wide range of sports and media illustrate the unique features of sport marketing. *Strategic Sport Marketing* is a practical tool and theoretical guide to sport marketing internationally. The fourth edition of this widely used text is fully revised and updated. It includes new material on sports promotion, customer service and social media, as well as new case studies. 'A sport marketing text at the undergraduate level needs to engage both student and teacher. . . I believe *Strategic Sport Marketing* does this rather well.' - *Sport Management Review* ' . . . a comprehensive illustration of the integration of sport marketing theory with sport marketing practice.' - *Journal of Sport Management*

An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. *Principles of Marketing* keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.
