As a design object beyond its practical purpose, the automobile has left an indelible mark on the world we live in. There is scarcely another everyday item which has been designed in a more sophisticated and inventive manner and which offers a larger projection area. This can be seen with particular clarity in the sports car of the 1950s, '60s, and '70s, which are fast, beautiful, eccentric, and innovative. In recent decades, these coveted collector's items have attained cult status, and have come to be widely regarded as dream cars for eternity. In an exciting journey through time, this volume pays homage to a selection of exclusive sports cars by legendary manufacturers--including Porsche, Ferrari, and Jaguar--showing them to be artworks in their own right. Essays, biographies, and brilliant color photographs shed light on the sports car's unparalleled unity of form, technology, design, and emotions.

Using the life and career of Don Simpson as a point of departure, High Concept takes readers on a riveting journey inside the Hollywood of the 1980s and 90s. For over two decades Simpson was Hollywood's reigning bad boy, yet through the same period he and his partner, Jerry Bruckheimer were the most successful independent producers in the Hollywood history. The revelations in High Concept are astounding! Through intensive research Fleming has created a dramatic tale of the rise of the key players and how the Don Simpson way became the Hollywood way. Through an interwoven narrative of the decadence and greed, hypocrisy and hysteria, profligacy and moral emptiness of the key power brokers, Fleming returns to the core concept of excess and how it continues to drive Hollywood.

Dreamed up by drivers trying to outdo each other on the mountain passes of Japan, the art of the sideways descent of a switchback-what Wired described as "the fishtailing ballet of burning rubber called drifting"-has made it to the United States in a big way. What began as a new kind of daredevil driving among teens has, over two decades, become a sanctioned sport, making its way across the Pacific through video games and magazines, anime and the Internet, to take root in California's fertile underground racing culture. Drifting tells the story of drifting from its arrival on the West Coast to its emergence as the hottest form of motorsport in the United States. A dramatic visual record of the sport in America that includes over 400 photos, the book also profiles the people, teams, techniques, web sites, publications, videos, and trends that have made drifting the phenomenon that it is today. For the curious newcomer, author Antonio Alvendia's introduction succinctly explains what drifting is, setting the stage for the thrilling automotive drama that then unfolds. For the veteran drifting fan, this book is the first illustrated book on the latest motorsport to conquer the world.

Stairs: A Walking Guide to the Historic Staircases of Los Angeles, and features another collection of exciting urban walks through parks, canyons, and neighborhoods unknown and unseen by most Angelinos. Each walk is rated for duration, distance, and difficulty, and is accompanied by a map. The walks, like those in Secret Stairs, are filled with fascinating factoids about historical landmarks—the original Bat Cave from Batman, the lake where Opie learned to fish on The Andy Griffith Show, or the storage barn for one of L.A.'s oldest wineries. The book also highlights the people who made the landmarks famous: the infamous water engineer William Mulholland; the convicted murderer and philanthropist Colonel Griffith J. Griffith; Charles Lummis, who walked from Cincinnati to Los Angeles to take a job on the L.A. Times; and tobacco millionaire Abbot Kinney, who dug canals to drain the marshes south of Santa Monica and create his American "Venice." Written in the entertainingly informed style that has made Secret Stairs a Los Angeles Times best-seller, Secret Walks is the perfect book for the walker eager to explore but tired of the crowds at Runyon Canyon or Temescal Park. Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*.

Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the

cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.
