Great poetry calls into question everything. It dares us to break free from the safe strategies of the cautious mind. It opens us to pain and joy and delight. It amazes, startles, pierces, and transforms us. It can lead to communion and grace. Through the voices of ten inspiring poets and his own reflections, the author of Sacred America shows how poetry illuminates the eternal feelings and desires that stir the human heart and soul. These poems explore such universal themes as the awakening of wonder, the longing for love, the wisdom of dreams, and the courage required to live an authentic life. In thoughtful commentary on each work, Housden offers glimpses into his personal spiritual journey and invites readers to contemplate the significance of the poet's message in their own lives. In Ten Poems to Change Your Life, Roger Housden shows how these astonishing poems can inspire you to live what you always knew in your bones but never had the words for. The present study is a step towards an historical and philological description of the founding literary tradition of Southern India. This so-called Cankam literature was composed around the beginning of the common era in a language today known as "Classical Tamil". Ten anthologies of its poetry have survived. Its literary techniques and their presuppositions are presented here in detail on the basis of an analysis of one of these anthologies, the Kur-untokai, which is a collection of 401 short love poems. While the introduction and the last chapter, on poetic style, are also meant for the general student of literature, the second and third chapters will be of interest mainly to specialists. These deal with syntax (especially particle syntax) and with the poetological background of the poetry. The formal features described include the use of formulae; the organisation of a poetic universe in terms of themes, topoi and motifs; syntactic types, such as circular construction; rhetorical figures, such as metaphors, similes and insets; poetic ambiguity achieved through the use of a symbolic code; puns; and intertextual allusions.

Sometimes it seems like there are as many definitions of poetry as there are poems. Coleridge defined poetry as "the best words in the best order." St. Augustine called it "the Devil's wine." For Shelley, poetry was "the record of the best and happiest moments of the happiest and best minds." But no matter how you define it, poetry has exercised a hold upon the hearts and minds of people

Praise Between arm-flexing states, the U.S. and Iran, the past burns and the future is held hostage. In a twilight present tense, the poets emerge, sure-footed and graceful, imagining another way, another vision of being. The range of these Iranian poets is prodigious and dizzying. Sometimes they "consider the saga of a bee / humming over minefields / in pursuit of a flower," sometimes they "bring your lips near / and pour your voice / into my mouth." From Tottel's Miscellany (1557) to the last twentieth-century Oxford Book of English Verse (1999), anthologies have been a prime institution for the preservation and mediation of poetry. The importance of anthologies for creating and re-creating the canon of English poetry, for introducing 'new' programmes of poetry, as a record of changing poetic fashions, audience tastes and reading practices, or as a profitable literary commodity has often been asserted. Despite its impact, however, the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English-speaking world. This volume is the first publication to explore the largely unmapped field of poetry anthologies in Britain. Essays

A dazzling collection of essays on how the best poems work, from the master poet and popular essayist "Poetry," Jane Hirshfield has said, "is language that foments revolutions of being." In ten eloquent and highly original explorations, she unfolds some of the ways this is done--by the inclusion of hiddenness, paradox, and surprise; by a perennial awareness of the place of uncertainty in our lives; by language's own acts of discovery; by the powers of image, statement, music, and feeling to enlarge in every direction. Closely reading poems by Dickinson, Bash?, Szymborska, Cavafy, Heaney, Bishop, and Komunyakaa, among others, Hirshfield reveals how poetry's world-making takes place: word by charged word. By expanding what is imaginable and sayable, Hirshfield proposes, poems expand what is possible. *Ten Windows* restores us at every turn to a more precise, sensuous, and deepened experience of our shared humanity and of the seemingly limitless means by which that knowledge is both summoned and forged.

you." So begins this astonishing book by one of our leading poets and critics. In an unprecedented exploration of the genre, Hirsch writes about what poetry is, why it matters, and how we can open up our imaginations so that its message—which is of vital importance in day-to-day life—can reach us and make a difference. For Hirsch, poetry is not just a part of life, it is life, and expresses like no other art our most sublime emotions. In a marvelous reading of world poetry, including verse by such poets as Wallace Stevens, Elizabeth Bishop, Pablo Neruda, William Wordsworth, Sylvia Plath, Charles Baudelaire, and many more, Hirsch discovers the meaning of their words and ideas and brings their sublime message home into our hearts. A masterful work by a master poet, this brilliant summation of poetry and human nature will speak to all readers who long to place poetry in their lives but don't know how to read it.

The Ten Lights of God is a series of eighty-one poems in which Afaa Michael Weaver explores the metaphysics of human consciousness. Influenced by the language poetry of writers such as Keith Waldrop, Anne Marie Waldrop, and Peter Gale Nelson, the poet weaves the energy of his concern for the lives of African/black men into a tapestry of the Jewish kabbalah with its notion of the body and the life of God being comprised of ten sefirot or lights. The vatic reach of these poems is contextualized in notions of the human interior as its own universe, seeking life and death themselves as the bridges to the unknowable. Weaver seeks to travel the interior of lyricism itself, the nakedness of human consciousness and its own nervous arrangement, which we know as language.

It demonstrates that many of the Whig writers frequently attacked as hacks and dunces were in fact successful and popular in their own time. Through a virtuosic array of short lyrics, prose poems, longer narrative sequences, resolutions, and disclaimers, Layli Long Soldier has created a brilliantly innovative text to examine histories, landscapes, her own writing, and her predicament inside national affiliations. "I am," she writes, "a citizen of the United States and an enrolled member of the Oglala Sioux Tribe, meaning I am a citizen of the Oglala Lakota Nation—and in this dual citizenship I must work, I must eat, I must art, I must mother, I must friend, I must listen, I must observe, constantly I must live." This strident, plaintive book introduces a major new voice in contemporary literature.
