The pleasant atmosphere at a dude ranch darkens with the unwelcome appearance of an ex-Hollywood western star who enjoys causing trouble. Money issues, secrets from the past, and a star-struck young woman provide plenty of motives for the Sheriff when a murder occurs. "The dude ranch was well-run-the scenery was magnificent-but suggestions of tragedy were in the clear mountain air. The appearance of Spike Noland, "Lothario of the Lariat" and ex-Hollywood actor, brought to light secrets hidden for many years. An old murder charge in which the ranch owner had been involved draws guests and friends into the circle of events, as Noland lives up to his reputation as a 'bad' performer. A smoothly written mystery, its plot is completely developed and its characters are neither bizarre nor trite." (F.A.P., Rochester, NY, Democrat and Chronicle, 1955) Murder in Jackson Hole was first published in 1955. For additional classic crime fiction, visit [CoachwhipBooks.com](http://CoachwhipBooks.com).

"The irresistible enthusiasm of Great Adaptations couldn't come at a better time."—David P. Barash, Wall Street Journal "Be very amazed."—Carl Safina, author of Beyond Words and Becoming Wild How one scientist unlocked the secrets behind some of nature's most astounding animals From star-nosed moles that have super-sensing snouts to electric eels that paralyze their prey, animals possess unique and extraordinary abilities. In Great Adaptations, Kenneth Catania presents an entertaining and engaging look at some of nature's most remarkable creatures. Telling the story of his biological detective work, Catania sheds light on the mysteries behind the behaviors of tentacled snakes, tiny shrews, zombie-making wasps, and more. He shows not only how studying these animals can provide deep insights into how life evolved, but also how scientific discovery can be filled with adventure and fun. Beginning with the star-nosed mole, Catania reveals what the creature's nasal star is actually for, and what this tells us about how brains work. He explores how the deceptive hunting strategy of

tentacled snakes leads prey straight to their mouths, how eels use electricity to control other animals, and why emerald jewel wasps make zombies out of cockroaches. He also solves the enigma of worm grunting—a traditional technique in which earthworms are enticed out of the ground—by teaming up with professional worm grunners. Catania demonstrates the merits of approaching science with an open mind, considers the role played by citizen scientists, and illustrates that most animals have incredible, hidden abilities that defy our imagination. Examining some strange and spectacular creatures, *Great Adaptations* offers a wondrous journey into nature's grand designs.

Can a Los Angeles P.I. unravel an enigma wrapped in a mystery in time to stop a barbarous racketeer with a personal vendetta? Newly-minted private eye Ben Malone, a former LAPD homicide detective, wishes he could catch a case just so that he can pay the rent on his office at the end of the month. But when a gorgeous and mysterious, high-class call girl shows up at his office and hires him for a bizarre assignment, Malone is quickly reminded of the old idiom, "be careful what you wish for." Between his new client's story starting to unravel, being forced to keep information about a murder his client says she witnessed from his best friend and former partner, LAPD Detective Jaime Reyes, and facing the fallout when a savagely cruel mobster linked to his client starts to make the case personal for him, Malone is being pulled in a hundred directions at once. Fortunately for him, he's got a friend in low places in the form of Vasily Dmitriyev, a criminal in his own right, but someone always willing to back Malone in a jam. As Malone, Vasily, and eventually Reyes, team up to cope with the fallout from Malone's battle against the dark forces of the human-trafficking syndicate boss, a new problem arises when Malone's client starts to look more like a murderer than an innocent witness to a murder. The clock is ticking, the body count is rising, the circumstances darken, testing Malone's ability to figure out just who is fair and who is foul. *Fair Is Foul and Foul Is Fair* is the second novel in the Malone Mystery series, a riveting private investigator series of crime and suspense thrillers. If you like breathtaking action, sarcastic humor, and a hint of romance, then you'll love Larry Darter's edge-of-your-seat story.\* This book is an edited and revamped second edition with changes to enhance reader experience of the novel of the same name previously published by this author.\*
