#1 New York Times bestselling author Dr. Mark Hyman sorts through the conflicting research on food to give us the skinny on what to eat. Did you know that eating oatmeal actually isn't a healthy way to start the day? That milk doesn't build bones, and eggs aren't the devil? Even the most health conscious among us have a hard time figuring out what to eat in order to lose weight, stay fit, and improve our health. And who can blame us? When it comes to diet, there's so much changing and conflicting information flying around that it's impossible to know where to look for sound advice. And decades of misguided "common sense," food-industry lobbying, bad science, and corrupt food polices and guidelines have only deepened our crisis of nutritional confusion, leaving us overwhelmed and anxious when we head to the grocery store. Thankfully, bestselling author Dr. Mark Hyman is here to set the record straight. In *Food: What the Heck Should I Eat?* -- his most comprehensive book yet -- he takes a close look at every food group and explains what we've gotten wrong, revealing which foods nurture our health and which pose a threat. From grains to legumes, meat to dairy, fats to artificial sweeteners, and beyond, Dr. Hyman debunks misconceptions and breaks down the fascinating science in his signature accessible style. He also explains food's role as powerful medicine capable of reversing chronic disease and shows how our food system and policies impact the environment, the economy, social justice, and personal health, painting a holistic picture of growing, cooking, and eating food in ways that nourish our bodies and the earth while creating a healthy society. With myth-busting insights, easy-to-understand science, and delicious, wholesome recipes, *Food: What the Heck Should I Eat?* is a no-nonsense guide to achieving optimal weight and lifelong health.

Eliminate avoidable toxins, mitigate the effects of those you can't avoid, and enjoy a longer life with this essential health guide from a pioneer in integrative medicine, Dr. Joe Pizzorno—the author, teacher, practitioner, and founder of Bastyr University, the country's first and largest fully accredited university of natural medicine. Dr. Joe Pizzorno is convinced that lifelong good health rests on two key determinants: your exposure to toxins and your ability to process them in your body. While lifestyle, diet, and genetics all play a major role in well-being, many symptoms of declining health and chronic disease are rooted in toxic overload—our exposure to a barrage of chemicals, heavy metals, radiation, electromagnetic frequencies, and pollution that are the byproducts of modern life. While the human body has an innate capacity to detoxify, it cannot cope with the elevated levels of toxins we are exposed to today. Most alarmingly, this toxic overload has helped transform once rare diseases into epidemics affecting people of all ages. In *The Toxin Solution*, Dr. Pizzorno provides the proven detox and tailored methods he has developed to heal toxic overload and restore health in just eight weeks. With this essential guide you will learn how to: Avoid toxins in food and the products you use; Mend your gut and prepare for detox; Support your body in releasing the chemicals; Repair some of the damage toxins have caused. Fortunately, our bodies have a tremendous capacity for healing and recovery. With *The Toxin Solution* you will discover how releasing and avoiding toxins can help you to feel better today—and every day for the rest of your life.

Breakouts. Dryness. Redness. Oiliness. If you're like most women, you've been on a never-ending quest for perfect skin—or even just good skin—since adolescence. It's a frustrating pursuit to say the least, filled with one disappointing (and expensive) miracle solution after another. Why is it so hard to get good skin? Adina Grigore, founder of the organic skincare line S.W. Basics, would argue that getting clear, calm, happy skin is about much more than products and peels. Or, rather, it's about much less. In Skin Cleanse, she guides readers through a holistic program designed to heal skin from the inside out. We tend to think of our skin as a separate entity from the rest our bodies when in fact it is our largest organ. The state of our skin is a direct reflection of what our bodies look like on the inside. So Adina's program begins as any healthy regime should: with the basics for full-body health. That means eating plenty of fresh, whole foods; drinking more water; getting blood pumping and oxygen flowing to your cells through movement; and giving your skin a chance to repair and regenerate by resting. From there, readers are challenged to a skin cleanse that requires going product-free for twenty-four hours. Once detoxed, Adina then shows us how to overhaul our beauty routine, how to carefully add some products back in, and even how to make our own products at home, with advice and targeted solutions for specific skin conditions such as acne, dry skin, oily skin, and more. The secret to beautiful, stress-free skin is simple: it's an inside job. Leading Harvard Medical School expert and "obesity warrior" (Time magazine) Dr. David Ludwig rewrites the rules on weight loss, diet, and health in this guide to retraining your cells and reclaiming your health for life. Forget everything you've been taught about dieting. In Always Hungry?, renowned endocrinologist Dr. David Ludwig explains why traditional diets don't work and presents a radical new plan to help you lose weight without hunger, improve your health, and feel great. For over two decades, Dr. Ludwig has been at the forefront of research into weight control. His groundbreaking studies show that overeating doesn't make you fat; the process of getting fat makes you overeat. That's because fat cells play a key role in determining how much weight you gain or lose. Low-fat diets work against you by triggering fat cells to hoard more calories for themselves, leaving too few for the rest of the body. This "hungry fat" sets off a dangerous chain reaction that leaves you feeling ravenous as your metabolism slows down. Cutting calories only makes the situation worse by creating a battle between mind and metabolism that we're destined to lose. You gain more weight even as you struggle to eat less food. Always Hungry? turns dieting on its head with a three-phase program that ignores calories and targets fat cells directly. The recipes and meal plan include luscious high-fat foods (like nuts and nut butters, full-fat dairy, avocados, and dark chocolate), savory proteins, and natural carbohydrates. The result? Fat cells release their excess calories, and you lose weight - and inches - without battling cravings and constant hunger. This is

dieting without deprivation. Forget calories. Forget cravings. Forget dieting. Always hungry? reveals a liberating new way to tame hunger and lose weight for good.

A New York Times bestseller! Cofounder of the international beauty company Caudalíe shares the simple, natural, time-tested beauty secrets she learned growing up in France that any woman can use to look younger, healthier, and more radiant without harsh products or drastic procedures. When Mathilde Thomas moved from her native France to the United States to expand her skin-care company, Caudalíe, she wanted to find out what American women wanted from their beauty routines. She interviewed thousands of women and was struck by how different the French and American approaches to beauty were. American women are all about the quick fix—the elusive product or procedure that will instantly solve a nagging beauty problem, even if it hurts, is wildly expensive, or is damaging in the long term. The French, by contrast, approach beauty as an essential and pleasurable part of the day, a lifelong and active investment that makes you look and feel good. Mathilde used these insights to turn Caudalíe into one of America's top beauty brands. Drawing on her company's twenty years of scientific skin-care expertise backed by the research of doctors and dermatologists—as well as the beauty secrets she learned growing up on a vineyard in Bordeaux—*The French Beauty Solution* covers everything from how to use natural ingredients such as oil and honey to wash your face; what foods to eat for healthier hair, skin, and nails; and the amazing properties of grapes and grapeseed oil. She also introduces an easy three-day grape cleanse that European aristocrats have been using to detox for hundreds of years. Blending stories, science, DIY recipes, and tons of savoir faire, *The French Beauty Solution* is the last beauty regimen you'll ever need.

#1 New York Times Bestseller Winner of the 2014 Living Now Book Award for Inspirational Memoir "An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation." —Elizabeth Gilbert *Nightline* anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. *10% Happier* takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.
