This book fills a long-standing need in the literature: Voodoo, Santeria, and Macumba as practised today in cities throughout the Western world. It is not another history or sociological study, but a candid personal account by two who came to "the religion" from the outside. It includes descriptions of the phenomena triggered by Voodoo practice, divination techniques, spells and a method of self-initiation.

Actuality and potentiality, substantial form and prime matter, efficient causality and teleology are among the fundamental concepts of Aristotelian philosophy of nature. Aristotle's Revenge argues that these concepts are not only compatible with modern science, but are implicitly presupposed by modern science. Among the many topics covered are the metaphysical presuppositions of scientific method; the status of scientific realism; the metaphysics of space and time; the metaphysics of quantum mechanics; reductionism in chemistry and biology; the metaphysics of evolution; and neuroscientific reductionism. The book interacts heavily with the literature on these issues in contemporary analytic metaphysics and philosophy of science, so as to bring contemporary philosophy and science into dialogue with the Aristotelian tradition.

Capturing witches Binding boggarts Driving away ghosts For years, Old Gregory has been the Spook for the county, ridding the local villages of evil. Now his time is coming to an end. But who will take over for him? Twenty-nine apprentices have tried—some floundered, some fled, some failed to stay alive. Only Thomas Ward is left. He's the last hope; the last apprentice. Can Thomas succeed? Will he learn the difference between a benign witch and a malevolent one? Does the Spook's warning against girls with pointy shoes include Alice? And what will happen if Thomas accidentally frees Mother Malkin, the most evil witch in the county ... ? In this lively and entertaining introduction to the philosophy of mind, Edward Feser explores the questions central to the discipline; such as 'do computers think', and 'what is consciousness'; and gives an account of all the most important and significant attempts that have been made to answer them.

Revenge of the Lawn is Richard Brautigan in miniature and contains no fewer than 62 ultra-short stories set mainly in Tacoma, Washington (where the author grew up) and in the flower-powered San Francisco of the late fifties and early sixties. In their compacted form, which ranges from the murderously short 'The Scarlatti Tilt' to one-page wonders like the sexually poignant poetry of 'An Unlimited Supply of 35 Millimetre Film', Brautigan's stories take us into a world where his fleeting glimpses of everyday strangeness leave stories and characters resonating in our heads long after they're gone. International bestseller and master storyteller Jeffrey Archer is at the very top of his game in a story of fate and fortune, redemption and revenge. If Danny Cartwright had proposed to Beth Wilson the day before, or the day after, he would not have been arrested and charged with the murder of his best friend. But when the four prosecution witnesses are a barrister, a popular actor, an aristocrat, and the youngest partner in an established firm's history, who is going to believe your side of the story? Danny is sentenced to twenty-two years and sent to Belmarsh prison, the highest-security jail in the land, from where no inmate has ever escaped. However, Spencer Craig, Lawrence Davenport, Gerald Payne, and Toby Mortimer all underestimate Danny's determination to seek revenge, and Beth's relentless quest to pursue justice, which ends up with all four fighting for their lives, Thus begins Jeffrey Archer's most powerful novel since Kane and Abel, with a cast of characters that will remain with you long after you've turned the last page. And if that is not enough, prepare for an ending that will shock even the most ardent of Archer's fans.

Widely revered as the father of Western literature, Homer was the author of the Iliad and the Odyssey, the epic poems which immortalised such names as Achilles, Cyclops, Menelaus, and Helen of Troy. In this vivid introduction, Elton Barker and Joel Christensen celebrate the complexity, innovation, and sheer excitement of Homer's two great works. Investigating the controversy surrounding the man behind the myths, they ask who Homer was and whether he even existed. Making parallels between Homeric hexameter and rap, and between his battle scenes and The Lord of the Rings, the authors highlight how his hugely influential epics deal with ageless questions that still confront us today. Perfect for new readers of the great poet and full of insights that will delight Homeric experts, this book will inspire you to discover – or rediscover – his masterpieces first-hand.

Such is the unthinkable mystery confronting ex-NYPD detective Willow Wylde, fresh out of rehab and finally able to find a job running a Cold Case squad in suburban Detroit. When the two rookie cops assigned to him take an obsessive interest in a decades-old disappearance of a brother and sister, Willow begins to suspect something out of the ordinary is afoot. "Writing a 'nuts and bolts' guide that is genuinely wise, charmingly conversational, and a pleasure to read requires a particular talent, and Jean Smith has proved once again that she has it."—Sylvia Boorstein, author of Don't Just Do Something, Sit There The third of Jean Smith's Beginner's Guides focuses on the Buddha's Eightfold Path—the concepts central to practicing the Buddha's teachings in daily life. The eight steps on the path are: right understanding, thought, speech, action, livelihood, effort, mindfulness, and concentration. Smith explains exactly what the Buddha had in mind, using translations of his own words and then elucidating them for us. Throughout the book are wonderful quotes from a broad range of Buddhist teachers, giving a taste of the very best each of them has to offer. The Beginner's Guide to Walking the Buddha's Eightfold Path is a prescription for happiness, not just for overcoming suffering, which is how

many people think of Buddhism. Here is a book for Buddhists of every tradition.

This book examines how neoliberalism is constituted from multiple, diverse elements; how these elements are brought together and made to cohere; and the challenges, contestations, and consequences of such. Informed by assemblage thinking, the collection builds on research that emphasizes the forms of experimentation, adaptation, and mutation through which neoliberalism is enacted and rendered workable across different spaces. Contributors provide original case studies on topics such as democratic administration, carbon markets, the sharing economy, behavioral economics, disease management, free trade, and youth volunteering. They interrogate the forms of expertise through which neoliberalism is rendered knowable; the diverse socio-technical practices that make neoliberalism governable; and the practices, effects, and tensions involved in the assembling of neoliberal subjects.
