"Prospective MBA students will find everything they need to prepare successful admission essays in this book. Containing 50 real essays students have written to gain admission to top business schools, this guide details the strengths of each essay, the inspiration of the student who wrote it, and what makes it a winner. The essays represent a diverse group of students and include those with traditional consulting and business backgrounds, as well as those with nontraditional backgrounds in areas such as public service, the military, and culinary arts. Crucial insights are included from business school admission officers who reveal what they are looking for in applicants, and successful applicants describe what worked for them and the mistakes they made that future applicants should avoid. Also included are strategies for the entire admission process, such as how to research the type of students that each school is seeking, ace the interview, and get powerful recommendations"--

Self-determination theory is a theory of human motivation that is being increasingly used by organizations to make strategic HR decisions and train managers. It argues for a focus on the quality of workers' motivation over quantity. Motivation that is based on meaning and interest is showed to be superior to motivation that is based on pressure and rewards. Work environments that make workers feel competent, autonomous, and related to others foster the right type of motivation, goals, and work values. The Oxford Handbook of Work Motivation, Engagement, and Self-Determination Theory aims to give current and future organizational researchers ideas for future research using self-determination theory as a framework, and to give practitioners ideas on how to adjust their programs and practices using self-determination theory principles. The book brings together self-determination theory experts and organizational psychology experts to talk about past and future applications of the theory to the field of organizational psychology. The book covers a wide range of topics, including: how to bring about commitment, engagement, and passion in the workplace; how to manage stress, health, emotions and violence at work; how to encourage safe and sustainable behavior in organizations; how factors like attachment styles, self-esteem, person-environment fit, job design, leadership, compensation, and training affect work motivation; and how work-related values and goals are forged by the work environment and affect work outcomes.

Case method teaching immerses students in realistic business situations--which include incomplete information, time constraints, and conflicting goals. The class discussion inherent in case teaching is well known for stimulating the development of students' critical thinking skills, yet instructors often need guidance on managing that class discussion to maximize learning. Teaching with Cases focuses on practical advice for instructors that can be easily implemented. It covers how to plan a course, how to teach it, and how to evaluate it. The book is organized by the three elements required for a great case-based course: 1) advance planning by the instructor, including implementation of a student contract; 2) how to make leading a vibrant case discussion easier and more systematic; and 3) planning for student evaluation after the course is complete. Teaching with Cases is ideal for anyone interested in case teaching, whether basing an entire course on cases, using cases as a supplement, or simply using discussion facilitation techniques. To

This book expands the current discussion on ethics, addressing the gap between "headline" ethics cases, which are often extreme and taken from a business context, and the everyday ethical challenges that we all face in school, work, relationships, and communities. Case studies throughout demonstrate concepts and provide opportunities for readers to apply theory as they consider everyday issues such as the temptation to lie about an arrest on a job application, peer pressure to steal or drink, and the implications of "ratting out" a classmate who is cheating or a co-worker who is stealing. By including a broad array of ethical challenges, this book makes ethics more accessible to the reader. Drawing from several academic disciplines, including social psychology and organizational behavior, this book explores the personal and environmental factors that influence our ethical decision-making. The book is appropriate for ethics courses in an array of disciplines as well as anyone interested in ethical challenges.

"Our Best 357 Colleges is the best-selling college guide on the market because it is the voice of the students. Now we let graduate students speak for themselves, too, in these brand-new guides for selecting the ideal business, law, medical, or arts and humanities graduate school. It includes detailed profiles; rankings based on student surveys, like those made popular by our Best 357 Colleges guide; as well as student quotes about classes, professors, the social scene, and more. Plus we cover the ins and outs of admissions and financial aid. Each guide also includes an index of all schools with the most pertinent facts, such as contact information. And we've topped it all off with our school-says section where participating schools can talk back by providing their own profiles. It's a whole new way to find the perfect match in a graduate school."

The Best 294 Business Schools Princeton Review

Rarely, if ever, have business schools experienced change as far-reaching and powerful as during the current wave of globalization. Understanding these changes, and their implications, was the charge given to an AACSB Task Force on Globalization of Management Education. In this comprehensive report, the Task Force explores broad globalization trends in management education that command the attention of any individual or institution striving to navigate in today's environment. Then, by exploring individual business school strategies, it provides valuable insights into how business schools can and should respond. The report aims to encourage and guide business schools to embrace globalization in ways that are mission-appropriate, manageable given available resources, and meaningful to the stakeholders being served. For organizations serving business schools, it will be a catalyst for action that elevates and improves business schools' capabilities. Readers will be left with the conviction that great opportunities exist for business schools to move from keeping pace with the sweeping changes of globalization, to leading the way.
