How to enjoy a day at the races-and bet to win! The last two years have seen a record number of Americans tune in for climatic Triple Crown races featuring Smarty Jones and Funny Cide; in 2004, television viewership jumped a whopping 61 percent over the record set in 2003, and the Belmont Stakes race itself drew a record crowd of more than 120,000! This easy-to-understand guide shows first-time visitors to the track how to enjoy the sport of horse racing-and make smart bets. It explains what goes on at the track, what to look for in horses and jockeys, how to read a racing form and do simple handicapping, and how to manage betting funds and make wagers that stand a good chance of paying off. Complete with coverage of off-track and online betting, it's just what anyone needs to play the ponies-and win! Richard Eng (Las Vegas, NV) is a racing writer and handicapper for the Las Vegas Review-Journal, a columnist for the Daily Racing Form, and the host of a horseracing radio program in Las Vegas. He was formerly a part of the ABC Sports team that covered the Triple Crown.

A gripping look at the great duel between Affirmed, the last horse to win the Triple Crown—comprised of the Kentucky Derby, the Preakness Stakes, and the Belmont Stakes—and his archrival, Alydar. From the moment they first galloped head-to-head in Saratoga Springs, the two chestnut colts showed they were the stuff of racing legend. Alydar, all muscle with a fearsome closing kick, was already the popular favorite to win the Kentucky Derby. Affirmed, deceptively laid-back streamlined elegance, was powered forward by his steely determination not to settle for second place. In the Sport of Kings, the Triple Crown is the most valued prize, requiring a horse to win not just one race, but three: the Kentucky Derby, the Preakness Stakes, and the Belmont Stakes. And 1978 would not be just for the record books, but also one of the greatest dramas ever played out in the racing world. There were names to conjure with, worthy of the Sport of Kings. The bloodline of Native Dancer. The teen wonderboy jockey Steve Cauthen. The once unbeatable Calumet Farm—the Damn Yankees of the racing world—now in eclipse and hoping for a comeback. The newcomer Harbor View Farm—owned by brash financier Louis Wolfson, who wouldn't let even a conviction and a prison sentence for securities violations stand in the way of his dreams of glory. And the racetracks themselves: Belmont, Saratoga, Pimlico. And, of course, Churchill Downs. It has been thirty-five years since Affirmed and Alydar fought for the Triple Crown, thirty-five years when no other

horse has won it. Duel for the Crown brings this epic battle to life. Not just two magnificent Thoroughbreds but the colorful human personalities surrounding them, caught up in an ever-intensifying battle of will and wits that lasted until the photo finish of the final Triple Crown race . . . and Alydar and Affirmed leaped into the history books.

Applies computer analysis to such aspects of thoroughbred handicapping as class, form, speed, consistency, weight, and post position, provides computer printouts and betting tips, and discusses computer-generated systems for playing the races

Beyer on Speed shows the way, explaining how to relate the numbers to such factors as pace, track bias, and track conditions. It reveals optimal uses of the figures based on computer analysis of more than 10,000 races. Beyer on Speed presents a revolutionary way to play the horses and win. Blending colorful anecdotes with incisive instruction, this is a landmark book by a master handicapper.

Beautiful Jim Key -- the one-time ugly duckling of a scrub colt who became one of the most beloved heroes of the turn of the century -- was adored not for his beauty and speed but rather for his remarkable abilities to read, write, spell, do mathematics, even debate politics. Trained with patience and kindness by one of the most renowned horse whisperers of his day -- former slave, Civil War veteran, and self-taught veterinarian Dr. William Key -- Jim performed in expositions across the country to wildly receptive crowds for nine glorious years, smashing box office records, clearing towering hurdles of skepticism and prejudice, and earning the respect and admiration of some of the most influential figures of the era, from Booker T. Washington to President William McKinley. This is the remarkable true saga of a truly exceptional animal -- and the no less exceptional man who led him to greatness.

In The Winning Horseplayer, Andrew Beyer builds on the strategy of speed handicapping that he detailed brilliantly in Picking Winners by introducing the concept of trip handicapping. Through an unbeatable combination of case studies and lively anecdotes, Beyer shows the smart bettor how to combine past performance data with an understanding of trips, track bias, and pace. This advanced guide to handicapping, which includes a new preface by the author, offers a

generous dose of the wit and wisdom that have made Beyer a legend in the sport.

Thoroughbred Horse Handicapping and wagering using the Holy Bible of Horse Racing is a book that contains a primer for folks that do not know much about thoroughbred horse racing. In addition, it provides a methodology for picking horses that will most likely finish second or better in races that are qualified for wagering. It then describes different approaches to wagering. There are what I call another section which I call special conditions that prompt special attention and will provide an avenue for Win/Place/Show bets (across the board), as well as some short stories of the some of the real characters I have met while playing the ponies.

In the bestselling tradition of the The Eighty-Dollar Champion, the propulsive, inspiring Cinderella story of Stymie, an unwanted Thoroughbred, and Hirsch Jacobs, the once dirt-poor trainer who bought the colt on the cheap and molded him into the most popular horse of his time and the richest racehorse the world had ever seen. In the wake of World War II, as turmoil and chaos were giving way to a spirit of optimism, Americans were looking for inspiration and role models showing that it was possible to start from the bottom and work your way up to the top-and they found it in Stymie, the failed racehorse plucked from the discard heap by trainer Hirsch Jacobs. Like Stymie, Jacobs was a commoner in "The Sport of Kings," a dirt-poor Brooklyn city slicker who forged an unlikely career as racing's winningest trainer by buying cheap, unsound nags and magically transforming them into winners. The $1,500 pittance Jacobs paid to claim Stymie became history's biggest bargain as the ultimate iron horse went on to run a whopping 131 races and win 25 stakes, becoming the first Thoroughbred ever to earn more than $900,000. The Cinderella champion nicknamed "The People's Horse" captivated the masses with his rousing charge-from-behind stretch runs, his gritty blue-collar work ethic, and his rags-to-riches success story. In a golden age when horse racing rivaled baseball and boxing as America's most popular pastime, he was every bit as inspiring a sports hero as Joe DiMaggio and Joe Louis. Taking readers on a crowd-pleasing ride with Stymie and Jacobs, Out of the Clouds -- the winner of the Dr. Tony Ryan Book Award -- unwinds a real-life Horatio Alger tale of a dauntless team and its working-class fans who lived vicariously through the stouthearted little colt they embraced as their own.

Is betting a horse who was claimed last start a winning strategy?What are the signs that an upcoming favorite looks vulnerable?How about if you combine a class drop with a jockey switch?Should you bet everyone who won last out by 8 lengths or more?You may have an opinion about these handicapping questions. But wouldn't it be nice to see long-term data? What if you could analyze these topics-and dozens more-by seeing how they did in every race in North America from 2014 through 2017-some 168,227 in all?That's what The Skeptical Handicapper: Using Data and Brains to Win at the Racetrack is all about. Is what you believe true? Let's find out.But this book is not just a dry recitation of numbers. Author Barry Meadow-who wrote Money Secrets at the Racetrack, the definitive guide to money management at the races-takes you on a handicapping journey which covers virtually every question you may have about what's profitable and what isn't, and why. He should know-for more than 20 years, he was a

full-time thoroughbred player. And he was a steady, big-money winner. Now he reveals for the first time what he's learned-and what can help you win. With the help of thoroughbred analytic specialist Ken Massa of Handicapping Technology and Research, he'll show you exactly how to win now and into the future. With data and facts, not just opinions.If you're serious about winning at the races today, this is the one book you must have. And only Barry Meadow could write it.

In more than a century of American Thoroughbred racing, only thirteen horses have won the Triple Crown--the Kentucky Derby, the Preakness Stakes, and the Belmont Stakes..Veteran turf writer and racing historian Edward L. Bowen takes us through the rich history of one of the most formidable and exciting challenges in all of sport.

Back in the day – say, the 1930s – if you wanted to gamble, the only legal action was the local horse track. Sure, Nevada had casinos, but nowhere else. There were no lotteries, no riverboats, no Internet. Horse racing was not just the only legal gambling option, but it was also one of America's most popular sporting events. Only baseball could rival horse racing for fan appeal and newspaper headlines. It was a time of Seabiscuit, War Admiral, and Whirlaway. Flash forward to today. Some form of gambling is available in almost every state. There are casinos damn near everywhere, on land, on water, on reservations. Mega-jackpot state lotteries flourish. Daily Fantasy Sports are the latest "next big thing" online, and, of course, we've gone through a boom-and-bust-and-reborn cycle with online poker. And racing? Long proclaimed dead more than once, horse racing, specifically Thoroughbred racing, is alive and well. Who doesn't know about American Pharoah, the first Triple Crown AND Breeder's Cup winner ever? There are new tracks popping up across the country, and horse racing is as strong as ever overseas, as England, Europe, Australia, New Zealand, Japan, and Hong Kong have strong racing programs. And, thanks to the Internet, you can wager on ALL OF IT. The ABC's of Online Horse Racing looks at the various online websites that provide you with a box seat on the action. Every aspect of setting up an account and learning the betting pad are covered, and later chapters teach you how to handicap like the professionals. Geared to gamblers who have never considered betting the ponies, The ABC's of Online Horse Racing is a beginner's guide to online horse racing, teaching you how and where to watch, wager, and win in the 21st Century version of this great sport.

This book profiles the two hundred most famous racehorses of the twentieth century and gives ratings for six hundred others. What juvenile star beat older horses twice? What was the final score between Affirmed and Alydar? What was Man o' War's greatest victory margin? How many starts did indestructible mare Imp make? What male champion did the great filly Twilight Tear whip? Who beat both Exceller and John Henry on grass? Who defeated Forego, Secretariat, and Riva Ridge? How much weight did Discovery carry when he was only four? Learn the answers and many more in this landmark book!

Some of horse racing's most respected authorities looked at feats of greatness, world records, legendary rivalries, and innovations to rank the sport's top 100 moments. They weighed individual accomplishments against industry initiatives, innovations against lucky breaks to come up with the definitive list. They pondered Secretariat's 31-length Belmont Stakes victory, Smarty Jones' elusive Triple Crown, the creation of the Breeders' Cup, and advancements in equine surgery. Racing's top 100 list will generate

debate for years to come, just as did the ranking of Man o' War over Secretariat as Horse of the Century. Richly illustrated with historic and modern photos, Horse Racing's Top 100 Moments also contains comprehensive lists of leading earners, fastest times, highest prices, and most races won.

In The Ghost Horse, Joe Layden tells the inspiring true tale of a one-eyed, club-footed thoroughbred racehorse and a journeyman trainer, Tim Snyder, who scraped together every penny he had to purchase the broken and unwanted filly. Snyder helped the horse overcome its deficiencies, eventually naming her in part after his deceased wife, Lisa, the great and only love of his life—a bright and sweet-tempered woman whose gentle demeanor seemed eerily reflected in the horse. The trainer (and now owner) was by nature a crusty and combative sort, the yin to his wife's yang, a racetrack lifer not easily moved by new-age mysticism or sentiment. And yet in those final days back in 2003, when Lisa Snyder lay in bed, her body ravaged by cancer, she reassured her family with a weak smile. "It's okay," she'd say. "I'll see you again. I'm coming back as a horse." Tim Snyder did not then believe in reincarnation. But he acknowledged the strangeness of this journey, the series of coincidences that brought them together, and the undeniable similarities between the horse and his late wife. And so did those who knew the couple well, and who could now only marvel at the story of the filly, Lisa's Booby Trap, and the down-on-his-luck trainer who apparently had been given a new lease on life. The Ghost Horse is a powerful horseracing story of underdogs and second chances.

Just as football evolved with the introduction of the forward pass and basketball with the development of the jump shot, so too was handicapping forever changed by the use of speed figures--and it all started with Andrew Beyer's Picking Winners. This edition features a new foreword in which the author discusses the changes that have swept the sport since the book's original publication. Picking Winners remains a classic in the field of thoroughbred racing.

"An elegant and amusing account" of how gambling has been reshaped by the application of science and revealed the truth behind a lucky bet (Wall Street Journal). For the past 500 years, gamblers-led by mathematicians and scientists-have been trying to figure out how to pull the rug out from under Lady Luck. In The Perfect Bet, mathematician and award-winning writer Adam Kucharski tells the astonishing story of how the experts have succeeded, revolutionizing mathematics and science in the process. The house can seem unbeatable. Kucharski shows us just why it isn't. Even better, he demonstrates how the search for the perfect bet has been crucial for the scientific pursuit of a better world.

I graduated from University with a computer science degree many years ago when a degree meant something! I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle. I started my own computer business in my early 20's where I made good money and travelled across Europe. It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at £2K per advert and offices. I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business. In my late 30's around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form. It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair. This is where I believed maximum profit could be gained. The computer model allowed me to process 100's of handicap races per day and then formulate my system tweeking a horse's weight and BHB or OR (Official Rating). I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data. I eventually found the correct weight and BHB rating for a horse based on it's last performances in handicap races. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet.

The methods and angles that follow have been among Ken Osterman's favorites over the years. They have been developed and tested on races at racetracks all over the country. There are systems that cover all three main breeds of horse racing: thoroughbreds, quarter horses, and standardbreds. The rules of the handicapping angle are clearly explained and easy to find horses that qualify for a bet. There are a couple of systems that use that tote board and require no past performances. These are systems that Ken Osterman has used successfully at race and sports books. The rules for each system are clearly explained, so it is understood why they work. Tips for improving these systems are also provided. The Gambler Who Cracked the Horse-Racing Code Bill Benter did the impossible: He wrote an algorithm that couldn't lose at the track. Close to a billion dollars later, he tells his system. This book examines the elements necessary for a practical and successful computerized horse race handicapping and wagering system. Data requirements, handicapping model development, wagering strategy, and feasibility are addressed. A logit-based technique and a corresponding heuristic measure of improvement are described for combining a fundamental handicapping model with the public's implied probability estimates. The author reports significant positive results in five years of actual implementation of such a system. This result can be interpreted as evidence of inefficiency in pari-mutuel racetrack wagering. This paper aims to emphasize those aspects of computer handicapping which the author has found most important in practical application of such a system. Also included the Bill Benter "What Are My Odds?" Presentation at ICCM in 2004.

It was a cold and foggy February night in 1983 when a group of armed thieves crept onto Ballymany Stud, near The Curragh in County Kildare, Ireland, to steal Shergar, one of the Thoroughbred industry's most renowned stallions. Bred and raced by the Aga Khan IV and trained in England by Sir Michael Stoute, Shergar achieved international prominence in 1981 when he won the 202nd Epsom Derby by ten lengths -- the longest winning margin in the race's history. The thieves demanded a hefty ransom for the safe return of one of the most valuable Thoroughbreds in the world, but the ransom was never paid and Shergar's remains have never been found. In Taking Shergar: Thoroughbred Racing's Most Famous Cold Case, Milton C. Toby presents an engaging narrative that is as thrilling as any mystery novel. The book provides new analysis of the body of evidence related to the stallion's disappearance, delves into the conspiracy theories that surround the inconclusive investigation, and presents a profile of the man who might be the last person able to help solve part of the mystery. Toby examines the extensive cast of suspects and their alleged motives, including the Irish Republican Army and their need for new weapons, a French bloodstock agent who died in Central Kentucky, and even the Libyan dictator, Muammar al-Qadhafi. This riveting account of the most notorious unsolved crime in the history of horse racing will captivate serious racing fans and aficionados as well as entertain a new generation of horse racing enthusiasts.
