

The Concise History Of The Crusades

An innovative and comprehensive exploration of revolutions from the French Revolution of 1789 to the most recent 2011 Arab uprisings, which presents a new framework for the study of revolutions, and marks not only the political conditions leading to revolution but also the human emotion bound up in these tumultuous events.

England's Protestant Reformation was a bloody and violent affair as various factions in the church and nation battled over the future of Christianity. Between 1556 and 1645, two Archbishops of Canterbury and a King of England were executed. At the heart of it all was a book crafted by Archbishop Thomas Cranmer. The Book of Common Prayer guided – and some would say, goaded – a religious shift entirely unique in Christendom. The BCP charted a controversial middle road between Catholic heritage and Protestant reform. It was a road, filled with passions, colorful personalities and life-and-death struggles. Suitable for church forums or private study, Concise History is both challenging and accessible. Each lesson includes questions to guide group discussion and to provoke serious personal reflection. Clergy, laity and students of Anglican history and theology will find in this work a dramatic narrative and an invitation to deepen their faith.

Focuses on the cultural significance of theatre This streamlined, engaging text helps students understand the events, places and people that have influenced the history of theatre. Learning Goals Upon completing this book, readers will be able to: Identify the major time periods and geographic areas associated with the history of theatre Distinguish relevant characteristics of theatre in diverse times and places. Describe the underlying cultural, economic, and political environments as they affected theatre in different times and places. Associate major participants who made theatre within their historical and regional context.

Despite its position at the heart of Europe and its quintessentially European nature, Switzerland's history is often overlooked within the English-speaking world. This comprehensive and engaging history of Switzerland traces the historical and cultural development of this fascinating but neglected European country from the end of the Dark Ages up to the present. The authors focus on the initial Confederacy of the Middle Ages; the religious divisions which threatened it after 1500 and its surprising survival amongst Europe's monarchies; the turmoil following the French Revolution and conquest, which continued until the Federal Constitution of 1848; the testing of the Swiss nation through the late nineteenth century and then two World Wars and the Depression of the 1930s; and the unparalleled economic and social growth and political success of the post-war era. The book concludes with a discussion of the contemporary challenges, often shared with neighbours, that shape the country today.

For a small, prosperous country in the middle of Europe, modern Austria has a very large and complex history, extending far beyond its current borders. Today's Austrians have a problematic relationship with that history, whether with the multi-national history of the Habsburg Monarchy, or with the time between 1938 and 1945 when Austrians were Germans in Hitler's Third Reich. Steven Beller's gripping and comprehensive account traces the remarkable career of Austria through its many transformations, from German borderland, to dynastic enterprise, imperial house, Central European great power, failed Alpine republic, German

province, and then successful Alpine republic, building up a picture of the layers of Austrian identity and heritage and their diverse sources. It is a story full of anomalies and ironies, a case study of the other side of European history, without the easy answers of more clearly national narratives, and hence far more relevant to today's world.

This brisk narrative charts the history of the United States Navy from its birth during the American Revolution through its emergence as a global power amid the world wars of the twentieth century and finally to its current role as a superpower in the twenty-first century.

When the British occupied the tiny island of Hong Kong during the First Opium War, the Chinese empire was well into its decline, while Great Britain was already in the second decade of its legendary "Imperial Century." From this collision of empires arose a city that continues to intrigue observers. Melding Chinese and Western influences, Hong Kong has long defied easy categorization. John M. Carroll's engrossing and accessible narrative explores the remarkable history of Hong Kong from the early 1800s through the post-1997 handover, when this former colony became a Special Administrative Region of the People's Republic of China. The book explores Hong Kong as a place with a unique identity, yet also a crossroads where Chinese history, British colonial history, and world history intersect. Carroll concludes by exploring the legacies of colonial rule, the consequences of Hong Kong's reintegration with China, and significant developments and challenges since 1997.

An illustrated introduction to Mexico's historical and contemporary issues, problems and events.

The Baltic region is frequently neglected in broader histories of Europe and its international significance can be obscured by separate treatments of the various Baltic states. With this wide-ranging survey, Andrejs Plakans presents an integrated history of three Baltic peoples - Estonians, Latvians and Lithuanians - and draws out the common threads to show how it has been shaped by their location in a strategically desirable corner of Europe. Subordinated in turn by Baltic German landholders, the Polish nobility and gentry, and then by Russian and Soviet administrators, the three nations have nevertheless kept their distinctive identities - significantly retaining three separate languages in an ethnically diverse region. The book traces the countries' evolution from their ninth-century tribal beginnings to their present status as three thriving and separate nation states, focusing particularly on the region's complex twentieth-century history, which culminated in the eventual re-establishment of national sovereignty after 1991.

In 1914 the world engaged in global conflict that was to scar human history and redefine the meaning of the word "war". Known as the Great War, decades of burgeoning imperialism and the formation of complex alliances brought the world's great powers face to face in conflict on a hitherto unprecedented scale. When the war ended in 1918, four empires had ceased to exist, the map of Europe had been redrawn and a generation of young men had been lost. This book tells the story of the conflict dubbed "the war to end all wars."

With a chronological narrative that offers a truly global context, *The Making of the West: A Concise History* tells the story of the cross-cultural exchanges that have shaped Western history. This author-abridged version of the parent text offers the flexibility of a

Get Free The Concise History Of The Crusades

brief book along with a full-color map and art program and comprehensive supplement options, including a free sourcebook. The result is a brief book that, in addition to being an excellent price, is an excellent value.

A chronology of world history ranges from the dawn of humankind to the present day, examining important events, milestones, ideas, and personalities that occurred simultaneously in different regions of the world.

This concise yet rich introduction to the French Revolution explores the origins, development, and eventual decline of a movement that defines France to this day. Through an accessible chronological narrative, Sylvia Neely explains the complex events, conflicting groups, and rapid changes that characterized this critical period in French history. She traces the fundamental transformations in government and society that forced the French to come up with new ways of thinking about their place in the world, ultimately leading to liberalism, conservatism, terrorism, and modern nationalism. Throughout, the author focuses on the essential political events that propelled the Revolution, at the same time deftly interweaving the intellectual, social, diplomatic, military, and cultural history of the time. Neely explains how the difficult choices made by the royal government and the revolutionaries alike not only brought on the collapse of the Old Regime but moved the nation into increasingly radical policies, to the Terror, and finally to the rise of Napoleon Bonaparte. Written with clarity and nuance, this work offers a deeply knowledgeable understanding of the political possibilities available at any given moment in the course of the Revolution, placing them in a broad social context. All readers interested in France and revolutionary history will find this an engaging and rewarding read.

In an ever-shrinking world, the need for a global perspective in dealing with the modern world has become acute. This book attempts to provide such a perspective by investigating the major changes in geopolitics and world economy during the past 500 years. However compact, it enables us to understand the present unravelling of Communism and the growing challenge from Asia to Western Superiority. It is shown that in so many ways the problems of the contemporary world spring from the unprecedented era of western domination, which the non-western world is now trying to unlive.

An introduction to the core Christian doctrines, the historical context in which they arose, and their ongoing importance to contemporary Christian belief and practice. Justo González has long been recognized as one of our best teachers and interpreters of the church's belief and history. In this new volume he lays out the answers to three questions crucial to understanding the Christian tradition: First, what are the core Christian doctrines? What ideas and convictions form the heart of Christian identity? Second, Where did these doctrines come from? What are the historical contexts in which they first rose to prominence? How have they developed across the history of the church? Finally, what do these doctrines mean today? What claims do they continue to place on Christian belief and practice in the twenty-first century? Written with the clarity and insight for which González is famous, *A Short History of Christian Doctrine* will serve the needs of students in church history, historical theology, and systematic theology classes in college/university settings, as well as seminaries/theological schools.

To this day, Japan's modern ascendancy challenges many assumptions about world history, particularly theories regarding the rise of the west and why the modern world looks the way it does. In this engaging new history, Brett L. Walker tackles key themes

Get Free The Concise History Of The Crusades

regarding Japan's relationships with its minorities, state and economic development, and the uses of science and medicine. The book begins by tracing the country's early history through archaeological remains, before proceeding to explore life in the imperial court, the rise of the samurai, civil conflict, encounters with Europe, and the advent of modernity and empire. Integrating the pageantry of a unique nation's history with today's environmental concerns, Walker's vibrant and accessible new narrative then follows Japan's ascension from the ashes of World War II into the thriving nation of today. It is a history for our times, posing important questions regarding how we should situate a nation's history in an age of environmental and climatological uncertainties. Neil Kent's book sweeps through Sweden's history from the Stone Age to the present day. Early coverage includes Viking hegemony, the Scandinavian Union, the Reformation and Sweden's political zenith as Europe's greatest superpower in the seventeenth century, while later chapters explore the Swedish Enlightenment, royal absolutism, the commitment to military neutrality and Pan-Scandinavianism. The author brings his account up to date by focusing on more recent developments: the rise of Social Democracy, the establishment of the welfare state, the country's acceptance of membership in the European Union and its progressive ecological programme. The book successfully combines the politics, economics and social and cultural mores of one of the world's most successfully functioning and humane societies. This is an informative and entertaining account for students and general readers.

The massive size of the original six-volume History of Woman Suffrage has likely limited its impact on the lives of the women who benefitted from the efforts of the pioneering suffragists. By collecting miscellanies like state suffrage reports and speeches of every sort without interpretation or restraint, the set was often neglected as impenetrable. In their Concise History of Woman Suffrage, Mari Jo Buhle and Paul Buhle have revitalized this classic text by carefully selecting from among its best material. The eighty-two chosen documents, now including interpretative introductory material by the editors, give researchers easy access to material that the original work's arrangement often caused readers to ignore or to overlook. The volume contains the work of many reform agitators, among them Angelina Grimké, Lucy Stone, Carrie Chapman Catt, Charlotte Perkins Gilman, Anna Howard Shaw, Jane Addams, Sojourner Truth, and Victoria Woodhull, as well as Elizabeth Cady Stanton, Susan B. Anthony, Matilda Joslyn Gage, and Ida Husted Harper.

Engaging history of the rich cultural, social and political life of Spain from prehistoric times to the present.

Expanded and updated for the new millennium. Covering the life of Christ, the election of Pope Benedict XVI, and everything in between, A Concise History of the Catholic Church has been one of the bestselling religious histories of the past two decades and a mainstay for scholars, students, and others looking for a definitive, accessible history of Catholicism. With a clarity that will appeal to any reader, Thomas Bokenkotter divides his study into five parts that correspond to the major historical and epochal developments in Catholicism. His authoritative, thorough approach takes readers from the Church's triumph over paganism, through "the sound and fury of renewal," to a new section devoted to such topics as dissent and current developments in the ecumenical movement. Informative illustrations throughout the book, new to this edition, enrich the reader's experience, and the

addition of a wide-ranging bibliography increases its value as a sourcebook.

Kentucky is most commonly associated with horses, tobacco fields, bourbon, and coal mines. There is much more to the state, though, than stories of feuding families and Colonel Sanders' famous fried chicken. Kentucky has a rich and often compelling history, and James C. Klotter and Freda C. Klotter introduce readers to an exciting story that spans 12,000 years, looking at the lives of Kentuckians from Native Americans to astronauts. The Klotters examine all aspects of the state's history—its geography, government, social life, cultural achievements, education, and economy. *A Concise History of Kentucky* recounts the events of the deadly frontier wars of the state's early history, the divisive Civil War, and the shocking assassination of a governor in 1900. The book tells of Kentucky's leaders from Daniel Boone and Henry Clay to Abraham Lincoln, Mary Breckinridge, and Muhammad Ali. The authors also highlight the lives of Kentuckians, both famous and ordinary, to give a voice to history. The Klotters explore Kentuckians' accomplishments in government, medicine, politics, and the arts. They describe the writing and music that flowered across the state, and they profile the individuals who worked to secure equal rights for women and African Americans. The book explains what it was like to work in the coal mines and explains the daily routine on a nineteenth-century farm. The authors bring Kentucky's story to the twenty-first century and talk about the state's modern economy, where auto manufacturing jobs are replacing traditional agricultural work. A collaboration of the state historian and an experienced educator, *A Concise History of Kentucky* is the best single resource for Kentuckians new and old who want to learn more about the past, present, and future of the Bluegrass State.

This book tells the story of humankind as producers and reproducers from the Paleolithic to the present. Renowned social and cultural historian Merry Wiesner-Hanks brings a new perspective to world history by examining social and cultural developments across the globe, including families and kin groups, social and gender hierarchies, sexuality, race and ethnicity, labor, religion, consumption, and material culture. She examines how these structures and activities changed over time through local processes and interactions with other cultures, highlighting key developments that defined particular eras such as the growth of cities or the creation of a global trading network. Incorporating foragers, farmers and factory workers along with shamans, scribes and secretaries, the book widens and lengthens human history. It makes comparisons and generalizations, but also notes diversities and particularities, as it examines the social and cultural matters that are at the heart of big questions in world history today.

The second edition of this accessible study of Mexico includes two new features: an examination of cultural developments since Independence from Spain in 1821 and a discussion of contemporary issues up to the time of publication. Several new plates with captions expand the thematic coverage in the book. The updated edition examines the administration of Vicente Fox, who came to power with the elections of 2000. The new sections reinforce the importance of Mexico's long and disparate history, from the Precolumbian era onwards, in shaping the country as it is today. This *Concise History* looks at Mexico from political, economic and cultural perspectives, and tackles controversial themes such as the impact of the Spanish Conquest and the struggle to establish an independent Mexico. A broad range of readers interested in the modern-day Americas should find here a helpful introduction to

this vibrant and dynamic North-American society.

A comprehensive introduction to the history of this turbulent region that spans from pre-Islam to the present day, *A Concise History of the Middle East* is distinguished by its clear style, broad scope, and balanced treatment. This widely acclaimed text by Arthur Goldschmidt Jr. explores the evolution of Islamic institutions and culture, the influence of the West, modernization efforts in the Middle East, the struggle of various peoples for political independence, the Arab-Israeli conflict, the reassertion of Islamic values and power, the issues surrounding the Palestinian Question, and the Middle East post-9/11 and post-Arab uprisings. The twelfth edition has been fully revised to reflect the most recent events in, and concerns of, the region, including the presence of ISIS and other non-state actors, the civil wars in Syria and Yemen, and the refugee crisis. In addition, the authors have added coverage of women's history, including new biographies of great and unsung women in the Middle East, to provide a fuller understanding of the cultural, political, and socioeconomic conditions in the Middle East. New parts and part timelines will help students grasp and contextualize the long and complicated history of the region. With updated biographical sketches and glossary and a new concluding chapter, *A Concise History of the Middle East* remains the quintessential text for students of Middle East history.

One hundred and fifty years after the first shots were fired on Fort Sumter, the Civil War still captures the American imagination, and its reverberations can still be felt throughout America's social and political landscape. Louis P. Masur's *The Civil War: A Concise History* offers a masterful and eminently readable overview of the war's multiple causes and catastrophic effects. Masur begins by examining the complex origins of the war, focusing on the pulsating tensions over states rights and slavery. The book then proceeds to cover, year by year, the major political, social, and military events, highlighting two important themes: how the war shifted from a limited conflict to restore the Union to an all-out war that would fundamentally transform Southern society, and the process by which the war ultimately became a battle to abolish slavery. Masur explains how the war turned what had been a loose collection of fiercely independent states into a nation, remaking its political, cultural, and social institutions. But he also focuses on the soldiers themselves, both Union and Confederate, whose stories constitute nothing less than America's Iliad. In the final chapter Masur considers the aftermath of the South's surrender at Appomattox and the clash over the policies of reconstruction that continued to divide President and Congress, conservatives and radicals, Southerners and Northerners for years to come. In 1873, Mark Twain and Charles Dudley wrote that the war had "wrought so profoundly upon the entire national character that the influence cannot be measured short of two or three generations." From the vantage of the war's sesquicentennial, this concise history of the entire Civil War era offers an invaluable introduction to the dramatic events whose effects are still felt today.

This volume presents a survey of the rich heritage of the city of Massachusetts, showing how it has long exerted an influence disproportionate to its size. The authors argue that the experiences of the people of Massachusetts have been emblematic of larger themes in American history.

From Algeria and Libya to Egypt and Syria, the Arab world commands Western headlines, even as its complex politics and

Get Free The Concise History Of The Crusades

cultures elude the grasp of most Western readers and commentators. Perhaps no other region is so closely linked to contemporary U.S. foreign policy, and nowhere else does the unfolding of events have such significant consequences for America. A Concise History of the Arabs argues that the key to understanding the Arab world today—and in the years ahead—is unlocking its past. John McHugo takes the reader on a journey through the political, social, and intellectual history of the Arabs from the Roman Empire right up to the present day. His sweeping and fluent account describes in vivid detail the mission of the Prophet Muhammad, the expansion of Islam, the origins of Shiism, medieval and modern conflicts, the fall of the Ottoman Empire, the interaction with Western ideas, the struggle to escape foreign domination, the rise of Islamism, and the end of the era of dictators. McHugo reveals how the Arab world came to have its present form, why change was inevitable, and what choices lie ahead following the Arab Spring. This deeply informed and accessible account is the perfect entry point for anyone seeking to comprehend this vital part of the world.

This book provides a history of the New Deal, exploring the institutional, political, and cultural changes experienced by the United States during the Great Depression.

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge scholarship, the Fifth Edition of *America: A Concise History* is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths — balance, explanatory power, and a brief-yet-comprehensive narrative — as well as its outstanding full-color visuals and built-in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped *America* into the ideal brief book for the modern survey course, at a value that can't be beat. Read the preface.

The first part of the study discusses the origins of the Armenians, the Urartian Kingdom, Armenia and the Achaemenid, Seleucid, Parthian, Roman, Sasanid and Byzantine periods. It also examines Christianity in Armenia and the development of an alphabet and literature. The work then continues with the history of Armenia during the Arab, Turkish and Mongol periods. A separate chapter deals with the history of Cilician Armenia and the Crusades. The second part concentrates on the Armenian communities in the Ottoman, Persian, Indian, and Russian empires (1500-1918). It also details the Armenian diaspora in Eastern and Western Europe, Africa, the Arab World, the Far East, and the Americas. The study concludes with lengthy chapters on the history of the three Armenian republics (1918-1920); (1921-1991 Soviet Armenia); and the current Armenian republic (1991-2001).

A Concise History of the Caribbean presents a general history of the Caribbean islands from the beginning of human settlement about seven thousand years ago to the present. It narrates processes of early human migration, the disastrous consequences of European colonization, the development of slavery and the slave trade, the extraordinary profits earned by the plantation economy, the great revolution in Haiti, movements toward political independence, the Cuban Revolution, and the diaspora of Caribbean people. Written in a lively and accessible style yet current with the most recent research, the book provides a compelling narrative of Caribbean history essential for students and visitors.

An incisive account of the entire history of historical writing worldwide by one of the leading intellectuals in the field.

Get Free The Concise History Of The Crusades

Born out of violence and the aspirations of its early settlers, the United States of America has become one of the world's most powerful nations. The book begins in colonial America as the first Europeans arrived, lured by the promise of financial profit, driven by religious piety and accompanied by diseases which would ravage the native populations. It explores the tensions inherent in a country built on slave labour in the name of liberty, one forced to assert its unity and reassess its ideals in the face of secession and civil war, and one that struggled to establish moral supremacy, military security and economic stability during the financial crises and global conflicts of the twentieth century. Woven through this richly crafted study of America's shifting social and political landscapes are the multiple voices of the nation's history: slaves and slave owners, revolutionaries and reformers, soldiers and statesmen, immigrants and refugees. These voices help define the United States at the dawn of a new century.

Whether used for personal reference or as a text for a class in the history of the wind band this book is the most comprehensive single-volume history of the wind band ever written. This volume draws on the author's multi-volume History and Literature of the Wind Band and follows the development of the wind band through the civic, court, church and military performances of the Ancient World through the nineteenth century.

Winner of the Jewish Book of the Year Award The first comprehensive yet accessible history of the state of Israel from its inception to present day, from Daniel Gordis, "one of the most respected Israel analysts" (The Forward) living and writing in Jerusalem. Israel is a tiny state, and yet it has captured the world's attention, aroused its imagination, and lately, been the object of its opprobrium. Why does such a small country speak to so many global concerns? More pressingly: Why does Israel make the decisions it does? And what lies in its future? We cannot answer these questions until we understand Israel's people and the questions and conflicts, the hopes and desires, that have animated their conversations and actions. Though Israel's history is rife with conflict, these conflicts do not fully communicate the spirit of Israel and its people: they give short shrift to the dream that gave birth to the state, and to the vision for the Jewish people that was at its core. Guiding us through the milestones of Israeli history, Gordis relays the drama of the Jewish people's story and the creation of the state. Clear-eyed and erudite, he illustrates how Israel became a cultural, economic and military powerhouse—but also explains where Israel made grave mistakes and traces the long history of Israel's deepening isolation. With Israel, public intellectual Daniel Gordis offers us a brief but thorough account of the cultural, economic, and political history of this complex nation, from its beginnings to the present. Accessible, levelheaded, and rigorous, Israel sheds light on the Israel's past so we can understand its future. The result is a vivid portrait of a people, and a nation, reborn.

This authoritative survey by a Masonic historian traces the development of "the Craft" from ancient to modern times, chronicling its spread throughout Europe, the Far East, Africa, and the Americas.

From one of the world's leading historians? a comprehensive narrative of the 3,000 years that have formed Asia's people, culture, and global destiny Tracing its origins in Mesopotamia to its modern role on the global geopolitical stage, historian Arthur Cotterell offers a compelling, lively, and readable account of one of the most culturally diverse, and often misunderstood, parts of the world.

Get Free The Concise History Of The Crusades

Beginning with the emergence of the world's earliest civilization in 3000 BC, Asia: A Concise History provides a fascinating look at the global convulsions?like the rise and fall of Assyria and Persia, the medieval states that flourished after the advent of Islam, and the modern transformations triggered by the lightning conquests of imperial Japan?that have shaped the continent. Covers the great events and figures of Asian history, along with a look at the monumental remains that bear witness to those times: the ziggurats of Iraq, the Taj Mahal, the Great Wall of China, the temple of Angkor Wat Includes fascinating slices of history, including funeral arrangements for Qin Shi Huangdi in 210 BC; an extract from Lord Macartney's journal of his 1793 diplomatic mission to the Qing emperor Qian Long; and Toyotomi Hideyoshi's edict of 1587 banning firearms in Japan Features boxed inserts of special interest?like a Babylonian recipe for lamb stew circa 1500 BC Contains over 100 illustrations, maps, and photos Other books by Cotterell: The Minoan World, The First Emperor of China, The Encyclopedia of Mythology, and Chariot Destined to become a reference staple for history buffs and students of Asian history, Asia: A Concise History offers readers a breathtaking narrative and wealth of detail that make the formative periods, key events, and personalities from this once remote part of the world come alive. In its first Spanish edition, Herbert Klein's A Concise History of Bolivia won immediate acceptance within Bolivia as the new standard history of this important nation. Surveying Bolivia's economic, social, cultural and political evolution from the arrival of early man in the Andes to the present, this current version brings the history of this society up to the present day, covering the fundamental changes that have occurred since the National Revolution of 1952 and the return of democracy in 1982. These changes have included the introduction of universal education and the rise of the mestizos and Indian populations to political power for the first time in national history. This second edition brings this story through the first administration of the first self-proclaimed Indian president in national history and the major changes that the government of Evo Morales has introduced in Bolivian society, politics and economics.

Looks at the decay of the tsarist empire and the causes of the Revolution, discusses the aims of the Bolshevik party, and recounts the major events of the conflict

[Copyright: 84da9cf110dd4cf693ea3e7ca3b64c1a](https://www.amazon.com/dp/B000APR004)
