"Anyone who cares about capital punishment should read this compelling, lucid account of the obstacles defense attorneys face and the strategies they adopt." --John Parry, University of Pittsburgh School of Law "With its compelling narratives of cases, strategies, and ethical dilemmas, Litigating in the Shadow of Death is difficult to put down. . . . This pathbreaking book encapsulates the experience of the most respected capital defenders in America and shows how they save even the worst of the worst from execution. It also shows how sleeping and otherwise incompetent lawyers bring death sentences to their clients. Litigating in the Shadow of Death explores the lawyers' tasks at every stage of the criminal process--investigation, client interviewing, conferring with victims' families, plea bargaining, trial, appeal, and post-conviction proceedings." --Albert W. Alschuler, Julius Kreeger Professor of Law and Criminology, University of Chicago "A unique and profoundly important contribution to the literature on the death penalty. White allows the leading capital defense attorneys to speak in their own voices. His work reveals a new source of arbitrariness in the death system--whether the penalty is imposed turns more on who is your lawyer than on how evil was your deed or your character. Litigating in the Shadow of Death offers concrete guidelines for better lawyering, protection of the innocent, and understanding the

artistry of the best capital attorneys. This is vivid, gripping stuff." --Andrew Taslitz, Professor of Law, Howard University "A most illuminating book by a splendid writer and an eminent critic of the capital punishment system." --Yale Kamisar, Professor of Law, University of San Diego "Welsh White has written another excellent book on the death penalty--this one on how defense attorneys in capital cases successfully prevent the state from executing their clients. Based on original research, Litigating in the Shadow of Death is informative and insightful. This is a book that all serious students of American capital punishment must read." --Richard Leo, University of California, Irvine Welsh S. Shortlisted for the 2018 Man Booker International Prize From Booker Prize-winner and literary phenomenon Han Kang, a lyrical and disquieting exploration of personal grief, written through the prism of the color white While on a writer's residency, a nameless narrator wanders the twin white worlds of the blank page and snowy Warsaw. THE WHITE BOOK becomes a meditation on the color white, as well as a fictional journey inspired by an older sister who died in her mother's arms, a few hours old. The narrator grapples with the tragedy that has haunted her family, an event she colors in stark white--breast milk, swaddling bands, the baby's rice cake-colored skin--and, from here, visits all that glows in her memory: from a white dog to sugar cubes. As the writer reckons with the enormity of her sister's death, Han Kang's trademark frank and chilling

prose is softened by retrospection, introspection, and a deep sense of resilience and love. THE WHITE BOOK--ultimately a letter from Kang to her sister--offers powerful philosophy and personal psychology on the tenacity and fragility of the human spirit, and our attempts to graft new life from the ashes of destruction.

Hailed as a hero for the new millennium, NUMA leader Kurt Austin must protect the seas' delicate ecosystem from a fish-farming organization with big plans for their genetically-modified product in this #1 New York Times-bestselling adventure series. A confrontation between a radical environmentalist group and a Danish cruiser leave many survivors trapped inside a sunken ship. But when the head of NUMA Special Assignments, Kurt Austin, and his colleague, Joe Zavala, are enlisted to run the rescue operation, they uncover a far more sinister agenda on the part of the supposed environmental group. Their agency, Sentinels of the Sea, is connected to a shadowy multinational corporation with plans for controlling the world's oceans. And somebody within the company is willing to kill anyone who gets in the way. When Austin narrowly escapes an explosion on his own boat, he becomes certain he's the next target. This can only mean he's onto something big. In fact, he's in the midst of an environmental

disaster that has already begun, and only he and NUMA® stand in the way.... In May 1992, as Serb forces closed in on their village of Hambarine, the three Causevic brothers made the fateful decision to split up and go separate ways in the hope that at least one of them would survive. One brother, Mufid, perished in unknown circumstances, and his human remains have still not been identified. Another brother, Mesa, made it to Travnik, and perished fighting in the armed resistance against international aggression and genocide. The third brother, Mirsad, endured months of daily beatings and torture at the infamous White House in the Omarska concentration camp, as well as hardships at the Manjaca concentration camp, before his release was finally arranged by the International Red Cross. Mirsad Causevic survived the impossible conditions imposed by the Serb aggression by virtue of his fierce determination, and that same iron will has enabled him to find the courage to share his story of suffering and unlikely survival with the world in his book, *Death in the White House*. It is a story that must be told, as new details about the truth about the genocide in Bosnia and Herzegovina are still coming out after twenty-five years. Now, through Mirsad's authentic witness account, the English speaking world will be able, in turn, to bear witness to the atrocities committed in Bosnia and Herzegovina by the Serb forces, particularly in the villages and concentration camps in the area of Prijedor. Mirsad's book also tells of his struggles to help others survive the atrocities, and of his love and support for his parents, then as their only surviving son, when they were reunited in

Croatia, and when they later decided to settle in Chicago as refugees. Again, Mirsad applied his indomitable will to the task of surviving and flourishing in Chicago, where he succeeded as an entrepreneur and has been able to provide support for his extended family as well as support for advocacy and activist groups in the community. Mirsad, among many other Bosnians of his generation, has kept his heart open to the hope that telling the truth about the genocide will lead to justice. He has dedicated every fiber of his being to bearing witness to that truth so that the world will know what happened in the Prijedor area and elsewhere. Mirsad's bearing witness is also, he tells us, a way to remember and to honor the memory of his brothers. In this way, his book is an act of resistance to genocide denial in Republika Srpska. The Bosnian Serbs routinely and cruelly deny their crimes and they have prohibited or actively discouraged the establishment of memorials for the victims while memorials for the perpetrators have been installed, for example, near the very site of the Trnopolje concentration camp. For Mirsad, this book is itself a memorial to his brothers and he has dedicated himself to seeing that there will be memorials erected to other victims, including 102 children who perished in the Prijedor area. Like Elie Wiesel, Mirsad writes that he harbors no hatred. And like Elie Wiesel, Mirsad writes that he only seeks justice: to achieve justice through memory. Mirsad's book, which honors the memory of his brothers and the memory of all the victims, is a profoundly important act of justice. We can only thank him for having the courage to tell his story. Now, when nationalist rhetoric continues to be on the rise

to defend her camp ... including her own demise!

For over sixty years, American guitarist John Fahey (1939–2001) has been a storied figure, first within the folk and blues revival of the long 1960s, later for fans of alternative music. Mythologizing himself as Blind Joe Death, Fahey crudely parodied white middle-class fascination with African American blues, including his own. In this book, George Henderson mines Fahey's parallel careers as essayist, notorious liner note stylist, musicologist, and fabulist for the first time. These vocations, inspired originally by Cold War educators' injunction to creatively express rather than suppress feelings, took utterly idiosyncratic and prescient turns. Fahey voraciously consumed ideas: in the classroom, the counterculture, the civil rights struggle, the new left; through his study of philosophy, folklore, African American blues; and through his experience with psychoanalysis and southern paternalism. From these, he produced a profoundly and unexpectedly refracted vision of America. To read Fahey is to vicariously experience devastating critical energies and self-soothing uncertainty, passions emerging from a singular location—the place where lone, white rebel sentiment must regard the rebellion of others. Henderson shows the nuance, contradictions, and sometimes brilliance of Fahey's words that, though they were never sung to a tune, accompanied his music.

life of this brilliant yet reclusive prodigy known as "The Great Bendini" is meticulously chronicled by an unnamed narrator who encountered Vaughn when he himself was a boy. Set amidst dusty Northern California towns in the 1990s, the narrator--now an academic and father to a son of his own--unfurls a layered testimony that blurs the line between the observer and the observed; between ambitions that have the potential to transcend, and those with the capacity to destroy. Deployed with immersive detail and haunting observations, Gabriel Urza's novella is a heartbreaking examination of adolescence as it collides with the ephemeral nature of time and mortality.

In 1916, Pietro Aquasanta, an Italian rifleman, returns to his childhood home of the Trentino mountain range to find that it's no longer the realm of wonder and adventure he remembers, but has become a place of death and despair, where the elements are as great a threat as the enemy. No weapon of war was more feared than the White Death, thundering avalanches deliberately caused by cannon fire which consumed everything in their path

In 1969, five young men from Montana set out to accomplish what no one had before: to scale the sheer north face of Mt. Cleveland, Glacier National Park's tallest mountain, in winter. Two days later tragedy struck: they were buried in an avalanche so deep that their bodies would not be discovered until the following June. The White Death is the riveting account of that fated climb and of the breathtakingly heroic rescue attempt that ensued. In the spirit of Peter Matthiessen and John McPhee, McKay Jenkins

Notable Book of 2020 A New York Times Book Review Editors' Choice Shortlisted for the Financial Times and McKinsey Business Book of the Year A New Statesman Book to Read From economist Anne Case and Nobel Prize winner Angus Deaton, a groundbreaking account of how the flaws in capitalism are fatal for America's working class Deaths of despair from suicide, drug overdose, and alcoholism are rising dramatically in the United States, claiming hundreds of thousands of American lives. Anne Case and Angus Deaton explain the overwhelming surge in these deaths and shed light on the social and economic forces that are making life harder for the working class. As the college educated become healthier and wealthier, adults without a degree are literally dying from pain and despair. Case and Deaton tie the crisis to the weakening position of labor, the growing power of corporations, and a rapacious health-care sector that redistributes working-class wages into the pockets of the wealthy. This critically important book paints a troubling portrait of the American dream in decline, and provides solutions that can rein in capitalism's excesses and make it work for everyone.

great again. But as *Dying of Whiteness* shows, the policies that result actually place white Americans at ever-greater risk of sickness and death. Physician Jonathan M. Metz's quest to understand the health implications of "backlash governance" leads him across America's heartland. Interviewing a range of everyday Americans, he examines how racial resentment has fueled pro-gun laws in Missouri, resistance to the Affordable Care Act in Tennessee, and cuts to schools and social services in Kansas. And he shows these policies' costs: increasing deaths by gun suicide, falling life expectancies, and rising dropout rates. White Americans, Metz argues, must reject the racial hierarchies that promise to aid them but in fact lead our nation to demise.

Naked, unarmed, with no memory to guide him, he emerges into a savage world, into the ruins of Manhattan in the 23rd century where wild animals roam and men have become cannibals in a frantic struggle to survive. Who has unleashed this chaos upon the world? Has Tanner really been dispatched to gather facts to help save the tragic remnants of humanity? Or is he to be the final instrument of its destruction?

The post-apartheid dispensation that has seen Black people continue to be hurled at the margins of existence has crystallised mental pathologies that have their roots in our violent and amoral past. Millions of Black people in South Africa are battling with a range of mental health challenges resulting from a complex interplay between biological, psychological, social and environmental factors. In *Corridors of Death*, the lived experiences of Black students in historically White universities is explored, exposing how structural violence, racism and a culture of alienation are pushing them to the edge of depression and increasingly, suicide. The book contends that urgent structural and institutional interventions need to be made, the centre of which must be transformation that reflects the demographic and socio-political construct of the South African society. Unless and until this happens, Black students will increasingly reach an unendurable level of invisible agony, and die in universities.

After a death at the White Camellia Orphanage in Lexsy, Georgia, young Pip Tatnall leaves to ride the rails--a path filled with self-understanding in the cruel but sometimes lovely world of Depression-era America. By the author of The Wolf Pit.

In Time and Death Carol White articulates a vision of Martin Heidegger's work which grows out of a new understanding of what he was trying to address in his discussion of death. Acknowledging that the discussion of this issue in Heidegger's major work Being and Time is often far from clear, White presents a new interpretation of Heidegger which short-circuits many of the traditional criticisms. White claims that we are all in a better position to understand Heidegger's insights after fifty years because they have now become a part of the conventional wisdom of common opinion. His view shows up in accounts of knowledge in the physical sciences, in the assumptions of the social sciences, in art and film, even in popular culture in general, but does so in ways ignorant of their origins. Now that these insights have filtered down into the culture at large, we can make Heidegger intelligible in a way that perhaps he himself could not. White presents the best possible case for Heidegger, making him more intelligible to those people with a long acquaintance with his work, those with a long aversion to it and in particular to those just starting to pursue an interest in it. White places the

problems with which Heidegger is dealing in the context of issues in contemporary Anglo-American philosophy, in order to better locate him for the more mainstream audience. The language and approach of the book is able to accommodate the novice but also offers much food for thought for the Heidegger scholar.

Robert Turrell presents a novel approach to the study of capital punishment in 20th-century South Africa. *White Mercy* focuses on official acts of mercy rather than on miscarriages of justice. Turrell bases his absorbing narrative on a thorough investigation of government statistics, court testimony, and judges' reports. He shows that racism and sexism profoundly influenced death-penalty cases, but not in equal ways. Africans, whom white rulers considered the "weaker" race, and women, whom men called the "weaker" sex, entered a legal realm that both promoted preordained cultural difference and disproportionately granted clemency to females convicted of murder. What will perhaps surprise many readers is that a number of condemned white men went to the gallows because the court believed they exhibited the incorrigible instincts of the "weaker" race. *White Mercy* stands alone in South African scholarship as the only book-length history of capital punishment. It is also a pioneering study in *White Mercy* stands alone in South African scholarship as the only book-length history of capital punishment. It is also a pioneering study in the field of gender studies. A mother's search for the son she gave up uncovers terrifying secrets in a Minnesota town in this "masterfully depicted true-crime tale" (Publishers Weekly). In 1962, Jerry Sherwood gave up her newborn son, Dennis, for adoption. Twenty years later, she set out to find him—only to discover he had died before his fourth birthday. The immediate cause was peritonitis, but the coroner had never decided the mode of death, writing "deferred" rather than indicate accident, natural causes, or homicide. This he did even though the autopsy

photos showed Dennis covered from head to toe in ugly bruises, his clenched fists and twisted facial expression suggesting he had died writhing in pain. Harold and Lois Jurgens, a middle-class, churchgoing couple in picturesque White Bear Lake, Minnesota, had adopted Dennis and five other foster children. To all appearances, they were a normal midwestern family, but Jerry suspected that something sinister had happened in the Jurgens household. She demanded to know the truth about her son's death. Why did authorities dismiss evidence that marked Dennis as an endangered child? Could Lois Jurgens's brother, a local police lieutenant, have interfered in the investigation? And most disturbing of all, why had so many people who'd witnessed Lois's brutal treatment of her children stay silent for so long? Determined to find answers, local detectives and prosecutors rebuilt the case brick by brick, finally exposing the shocking truth behind a nightmare in suburbia. A finalist for the Edgar Award, *A Death in White Bear Lake* is "a distinguished entry in the annals of crime documentary," and a vivid portrait of the all-American town that harbored a sadistic killer (*The Washington Post*).

November, December and January average temperatures were much below normal. Lake Erie froze over by December 14; an ice-covered Lake Erie usually puts an end to lake-effect snow because the wind cannot pick up moisture from the lake's surface, convert the moisture to snow and then dump it when the winds reach shore. Lake Erie was covered by a deep, powdery snow; January's unusually cold conditions limited the usual thawing and refreezing, so the snow on the frozen lake remained powdery. The drifted snow on roadways was difficult to clear because the strong wind packed the snow solidly.

Mass gravesites uncovered after the war dot the suburbs around Prijedor. I was witness to the last breaths of many of the thousands buried there – but not those of my two brothers. Both perished, and while one has been properly buried, the other's remains have yet to be found. Compounding on the already insurmountable sadness of it all, is that my two brothers are as many more – perpetually displaced from their families, without someone to mourn over their bones. Today, twenty-five years later, I am a proud husband, father of two, and successful businessman. My sadness will always be a part of me, but I have chosen and embarked on a path not dwelling on all the sorrow I'd experienced, but rather one dictated by an intense desire to create a life that is worth living. stable and pushing me forward. I've also wondered on the origins of this energy, and the answer is somewhat cliched, but very true – I've been through a lot, and what didn't kill me has made me stronger. I had been given a hunger, throughout and since the suffering I experienced and it has yet to be abated. A hunger for peace. A hunger to tell the truth. A hunger to help others. A hunger to be strong. A hunger to succeed.
