

The Doctrine Of God John M Frame Zarlo

John C. Peckham introduces and engages with major questions about God's nature and how God relates to the world. Does God change? Does God have emotions? Can God do anything? Does God know the future? Does God always attain what God desires? And is God entirely good? This textbook provides a clear and concise overview of the issues involved in these and other questions, exploring prominent contemporary approaches to the main issues relative to how to conceive of the God-world relationship within Christian theology. In so doing, Peckham surveys a range of live options regarding each of the primary questions, briefly considering where each falls within the spectrum of the Christian tradition and providing clear and readily understandable explanations of the technical issues involved. The result is a stimulating survey of the most prominent options in Christian theology relative to divine attributes and the God-world relationship, offered in an accessible format for students. Designed for classroom use this volume includes the following features: - study questions for each chapter - suggestions for further reading for each chapter - glossary

This work examines the problem of how to connect the historic doctrine of the Trinity to Christian devotional practice. Two criteria for a successful Trinitarian spirituality are proposed: that of drawing significantly from nuances of the classic formulations of the doctrine, and dealing with the mode of original Trinitarian self-disclosure, that is, the unfolding biblical doctrine of the *historia salutis*. Various historical attempts at articulating a method are examined, with special emphasis given to the Puritan John Owen. The doctrine of the Trinity was settled in the fourth century, and maintained, with only very minor disagreement or development, by all strands of the church--Western and Eastern, Protestant and Catholic--until the modern period. In the twentieth century, there arose a sense that the doctrine had been neglected and stood in need of recovery. In *The Quest for the Trinity*, Holmes takes us on a remarkable journey through 2,000 years of the Christian doctrine of God. We witness the church's discovery of the Trinity from the biblical testimony, its crucial patristic developments, and medieval and Reformation continuity. We are also confronted with the questioning of traditional dogma during the Enlightenment, and asked to consider anew the character of the modern Trinitarian revival. Holmes's controversial conclusion is that the explosion of theological work in recent decades claiming to recapture the heart of Christian theology in fact deeply misunderstands and misappropriates the traditional doctrine of the Trinity. Yet his aim is constructive: to grasp the wisdom of the past and, ultimately, to bring a clearer understanding of the meaning of the present.

Much has been written of late about what the apostle Paul really meant when he spoke of justification by faith, not the works of the law. This short study by Stephen Westerholm carefully examines proposals on the subject by Krister Stendahl, E. P. Sanders, Heikki Raisanen, N. T. Wright, James D. G. Dunn, and Douglas A. Campbell. In doing so, Westerholm notes weaknesses in traditional understandings that have provoked the more recent proposals, but he also points out areas in which the latter fail to do justice to the apostle. Readers of this book will gain not only a better grasp of the ongoing theological debate about justification but also a more nuanced overall understanding of Paul.

In dialogue with late modern developments in philosophy, science and biblical scholarship, "Reforming the Doctrine of God" explores the conceptual space opened up by three theological trajectories that have sought to recover traditional emphases on Infinity, Trinity and Futurity, and offers a reconstructive presentation of the Christian understanding and experience of the Gospel of divine knowing, acting and being.

'The Word of God' is a multi-faceted concept. God speaks but Word is one of Jesus's names. God's personal communications take other forms, through prophets, apostles, and the written Word. Frame investigates them all. --from publisher description

Insightful and heart-warming, this classic book is written for those who seek to know God better. It unfolds life-impacting, biblical truths and has been called a "soul-stirring celebration of the pleasures of knowing God."

Classical Calvinist, Modified Calvinist, Classical Armenian, and Open Theist views are evenly and productively discussed in *Perspectives on the Doctrine of God*.

Frame explores our relationship with God as a knowing relationship. He writes, "We tend to forget how often in Scripture God performs His mighty acts so that men will 'know' that He is Lord." He thus examines our knowledge of God as it relates to our knowledge of ourselves and of the world in which we live. Reflecting his conviction that theology is the application of Scripture to life in all situations, Frame combines trenchant analysis of theological, apologetical, and epistemological issues with refreshingly practical insights for living in the knowledge of God. -- Publisher's description.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing many of these classic works in affordable, high quality, modern editions, using the original text and artwork.

This book sets the Scottish theologian John Oman (1860-1939) in his historical and cultural context.

New from Best-Selling Author John Piper From Genesis to Revelation, the providence of God directs the entire course of redemptive history. Providence is "God's purposeful sovereignty." Its extent reaches down to the flight of electrons, up to the movements of galaxies, and into the heart of man. Its nature is wise and just and good. And its goal is the Christ-exalting glorification of God through the gladness of a redeemed people in a new world. Drawing on a lifetime of theological reflection, biblical study, and practical ministry, pastor and author John Piper leads us on a stunning tour of the sightings of God's providence—from Genesis to Revelation—to discover the all-encompassing reality of God's purposeful sovereignty over all of creation and all of history. Piper invites us to experience the profound effects of knowing the God of all-pervasive providence: the intensifying of true worship, the solidifying of wavering conviction, the strengthening of embattled faith, the toughening of joyful courage, and the advance of God's mission in this world.

The key to the doctrine of the Trinity is the combination of transcendence and personality in the biblical portrayal of God. This idea is traced through Old Testament, New Testament, the Church Fathers, medieval scholasticism, the Reformation and early modern theology, and three 20th century theologians (Barth, Pannenberg, and Macquarrie).

Nothing is more important than what a person believes about Jesus Christ. To understand Christ correctly is to understand the very heart of God, Scripture, and the gospel. To get to the core of this belief, this latest volume in the Foundations of Evangelical Theology series lays out a systematic summary of Christology from philosophical, biblical, and historical perspectives—concluding that Jesus Christ is God the Son incarnate, both fully divine and fully human. Readers will learn to better know, love, trust, and obey Christ—unashamed to proclaim him as the only Lord and Savior. Part of the Foundations of Evangelical Theology series.

Long-Awaited Systematic Theology by Well-Known Pastor, Author, and President of the Master's Seminary Doctrine isn't just for theologians—it's important for every Christian because it shows us who God is and how we should live. Systematizing the robust theology that has undergirded John MacArthur's well-known preaching ministry for decades,

this overview of basic Christian doctrine covers topics such as God the Father, Jesus Christ, the Holy Spirit, the Bible, salvation, and more. Comprehensive in scope yet written to be accessible to the average reader—with non-technical vocabulary, minimal footnotes, and a helpful bibliography—this volume offers Christians a solid foundation for what they believe and why.

The triunity of the Christian God is not just one isolated doctrine among others. Allan Coppedge draws out the implications for our understanding of God's nature, attributes, roles, relationship to creation and providence.

The third volume of Frame's Theology of Lordship series, this book focuses on biblical ethics. In an age of ethical relativism and suspicion of authority, how can we know what is good, virtuous, or just? Frame surveys non-Christian ethical traditions before setting forth a solidly Christian ethical method. By clarifying biblical norms, life situations, and personal dimensions, he presents a model for decision making that honors God in all aspects of life. Discussions range from natural law and conflict of duties to detailed explorations of the Ten Commandments in connection with questions surrounding worship, the Sabbath, church and state, respect for life and truth, sexuality, and the relation of Christ to culture.

Many contemporary theologians claim that the classical picture of God painted by Augustine and Aquinas is both outmoded and unbiblical. But rather than abandoning the traditional view completely, John Feinberg seeks a reconstructed model—one that reflects the ongoing advances in human understanding of God's revelation while recognizing the unchanging nature of God and His Word. Feinberg begins by exploring the contemporary concepts of God, particularly the openness and process views, and then studies God's being, nature, and acts—all to articulate a mediating understanding of God not just as the King, but the King who cares! Part of the Foundations of Evangelical Theology series.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

The doctrine of God is the foundation of Christian theology and the prerequisite of all true faith. This translation provides, in the words of Hendriksen, 'a spiritual treat' for the serious reader.

Internationally acclaimed scholars offer a progress report on current evangelical thinking about God's being and attributes in light of current controversies.

Readers familiar with Frame's analysis of historic doctrines and current questions will welcome this long-awaited second installment in the Theology of Lordship series. Here he examines the attributes, acts, and names of God in connection with a full spectrum of relevant theological, ethical, and spiritual issues.

In this two volume collection of essays, which forms a companion to *The Domain of the Word*, John Webster brings together studies of a range of topics in dogmatic and moral theology. This first volume, *God and the Works of God*, treats the themes of God's inner being and God's outer acts. After an overall account of the relation between God in himself and the economy of God's external works, there are studies of the divine aseity and of the theology of the eternal Son. These are followed by a set of essays on creation out of nothing; the relation between God and God's creatures; the nature of providence; the relation of soteriology and the doctrine of God; and the place of teaching about justification in Christian theology. Each of the essays explores the relation of theology proper to economy, and together they pose an understanding of Christian doctrine in which all theological teaching flows from the doctrine of the immanent Trinity. This book addresses an important topic and fills a major gap in developments in modern theology and Christian ethics. Significant treatments include Wolfhart Pannenberg's historical overview of the relationship between modernism and Christian faith, John Webster's meticulous analysis of Christian theology's contribution to modern conceptions of conscience, J. L. O'Donovan's critique of liberal contractarian theory, and Alasdair MacIntyre's examination of the critical issues which Christianity raises for secular philosophy.

Does God truly love all persons? Most Christians think the obvious answer to this question is, "Yes, of course he does!" Indeed, many Christians would agree that the very heart of the gospel is that God so loved the whole world that he gave his Son to make salvation available for every single person. This book shows that one of the most popular and resurgent theological movements in the contemporary evangelical church--namely, Calvinism--cannot coherently and consistently affirm this vital claim about the love of God. While some Calvinists forthrightly deny that God loves everyone, more commonly Calvinists attempt to affirm the love of God for all persons in terms that are compatible with their doctrines that Christ died only for the elect--those persons God has unconditionally chosen to save. This book shows that the Calvinist attempts to affirm God's love for all persons are fraught with severe philosophical and theological difficulties. Calvinism, then, should be rejected in favor of a theology that can forthrightly and consistently affirm the love of God for all persons. Nothing less is at stake than the very heart of the gospel.

1. Belief in God- I believe in God the Father Almighty; Arguments for the Existence of God; Revelation and Inspiration: Maker of Heaven and Earth 2. The Jesus of History- Historical Religion; Jesus Christ, His Only Son, Our Lord: the Incarnation; Conceived by the Holy Ghost, Born of the Virgin Mary 3. The Word of the Cross- The Suffering Christ; the Mystery of Evil; Suffered under Pontius Pilate; Theologies of the Atonement; Dead and Buried, He Descended into Hell 4. The Power and the Wisdom- He Rose Again; the Doctrine of the Resurrection; the Resurrection as Fact and as Symbol; the Evidence for the Resurrection; He Ascended into Heaven 5. The Spirit of the Lord- The Holy Ghost; the Holy Spirit in the Old Testament: the Pentecost Experience; Aspects of the Doctrine of the Holy Spirit: the Work of the Holy Spirit: Summary: the Christian Doctrine of God, the Holy Trinity 6. The People of God- The Church: a Divine Plan: the Church of the Old Covenant; the Church of the New Israel; the Doctrine of the Ministry 7. The Means of Grace- Grace and the Means of Grace; Worship; the Sacramental Principle; Holy Baptism; the Holy Communion, or Eucharist 8. The Written

Word- The Witness to the Christ-Centered Faith; the Inspiration of the Bible; the Canon of Scripture; the Old Testament Scripture; the New Testament Scripture 9. The Double Cure- Personal Religion; the Doctrine of Grace; the Life of Grace 10. The Hope of Glory- The Christian Hope; Hebrew and Greek Symbolism; the Second Advent; the Millennial Kingdom; Human Destiny

This book offers a clear and constructive account of the nature and attributes of God. It addresses the doctrine of God from exegetical, historical, and constructive-theological perspectives, bringing the biblical portrayal of God in relationship to the world into dialogue with prominent philosophical and theological questions. The book engages questions such as: Does God change? Does God have emotions? Does God know the future? Is God entirely good and loving? How can God be one and three? Chapters correspond to the major metaphysical and moral attributes of God.

A literary history of our most influential book of all time, by an Oxford scholar and Anglican priest In our culture, the Bible is monolithic: It is a collection of books that has been unchanged and unchallenged since the earliest days of the Christian church. The idea of the Bible as "Holy Scripture," a non-negotiable authority straight from God, has prevailed in Western society for some time. And while it provides a firm foundation for centuries of Christian teaching, it denies the depth, variety, and richness of this fascinating text. In *A History of the Bible*, John Barton argues that the Bible is not a prescription to a complete, fixed religious system, but rather a product of a long and intriguing process, which has inspired Judaism and Christianity, but still does not describe the whole of either religion. Barton shows how the Bible is indeed an important source of religious insight for Jews and Christians alike, yet argues that it must be read in its historical context--from its beginnings in myth and folklore to its many interpretations throughout the centuries. It is a book full of narratives, laws, proverbs, prophecies, poems, and letters, each with their own character and origin stories. Barton explains how and by whom these disparate pieces were written, how they were canonized (and which ones weren't), and how they were assembled, disseminated, and interpreted around the world--and, importantly, to what effect. Ultimately, *A History of the Bible* argues that a thorough understanding of the history and context of its writing encourages religious communities to move away from the Bible's literal wording--which is impossible to determine--and focus instead on the broader meanings of scripture.

A biblical, clear, cogent, accessible, comprehensive, and practical summary of Christian belief by one of the most important and original American theologians of the last hundred years.

In recent years, the doctrine of God has once again become a central focus of theological discussion and debate. In this ecumenical, international, and contextual introduction, internationally respected scholar Veli-Matti Kärkkäinen offers a global survey of understandings of God in Scripture, Christian history, and contemporary theology. This new edition incorporates developments in theological research over the past decade and has been substantially updated throughout.

"DeYoung brings an event from four hundred years ago right back into the present needs of the church and of theology."

—Herman Selderhuis, Professor of Church History, Theological University Apeldoorn; Director, Refo500 *Grace Is Too Precious a Doctrine to Settle for Vague Generalities* Grace—a doctrine central to the gospel—ought to be clearly defined so it can be celebrated, relished, and consistently defended. In this book, Kevin DeYoung leads us back to the Canons of Dort, a seventeenth-century document originally written to precisely and faithfully define this precious doctrine. The Canons of Dort stand as a faithful witness to the precise nature of God's supernatural, sovereign, redeeming, resurrecting grace—when so many people settle for vague generalities that water down the truth. In three concise sections—covering history, theology, and practical application—DeYoung explores what led to the Canons and why they were needed, the five important doctrines that they explain, and Dort's place in the Christian faith today.

This edited work of John Owen helps modern-day believers understand the timeless truths of the Trinity.

Analyzes the major phases of Karl Barth's Christological exegesis of Judaism. Contends that despite his lifelong opposition to antisemitism and racism (as a leader of the anti-Nazi Confessing Church and a strong supporter of the State of Israel), Barth represents the broadest tradition of Christian Protestant dogmatic anti-Judaism, preserving and elaborating the controversial theology that has been standard in Christian apologetics since ancient times. Argues that a positive Christian theology of Judaism must begin by acknowledging the irreconcilable differences between the two religions, pleading for a theological recognition of an independent Judaism.

Study guide for *The Doctrines of Grace* in John includes lesson objectives, message outline, study questions, and discussion questions. Suitable for individual or group study.

Without a proper understanding of sin, there can never be a proper understanding of the gospel. Sin is opposed both to God's will and to nature, leaving us in need of God's grace and redemption. This comprehensive exploration of the doctrine of sin looks at what the Bible teaches about sin's origin, nature, and consequences, engaging with historical and contemporary movements. Dealing with difficult issues such as original sin, angelic sin, corporate sin, greater and lesser sins, and more, this book ends with a discussion on divine grace, which is the only hope for the problem of sin.
