"Now I am become Death, destroyer of worlds." Dr. Grace Llewellyn quotes Oppenheimer as her creation takes its first breath. Moments later, a US military strike team hits her laboratory in suburban Maryland. Markus Stebbings is hiding terminal brain cancer, hoping to remain alive and a part of Delta long enough to die for something that matters. The mission to destroy a domestic terrorist cell in possession of a nuclear bomb sounds like the opportunity he is looking for, until he realizes that his targets are not terrorists, and that what they have is something infinitely more dangerous than a bomb. On the run with Grace and the device she calls Prometheus, Markus finds himself pitted against the full might of US intelligence and military forces as they mount the biggest manhunt ever conducted on American soil. He quickly learns that Prometheus represents a technological advancement so profound that it can alter the course of history. What he doesn't know is that there is another such device already in play, and that he, Grace and Prometheus are all that stand between it and the end of human civilization as we know it.

When ancient gods ruled and Druids kept Faith alive, the Celts thrived as a democratic, matriarchal society. Then savage Roman

soldiers swept across Europe, killing and enslaving. The Celts did not succumb without a fight. Their Old Ways survived centuries of ruthless domain until another menace loomed: a tortured god worshiped in cold stone buildings. The sacred shores of Avalon began to drift away, the mists threatened to hide the island from mortal eyes forever. Against the bleak backdrop of war, the gorgeous Scottish Highlands stood tall, sheltering its inhabitants from greedy invaders. Yet the reach of the eagle banners was long and the highlanders turned to the Goddess for protection. However, the sacred groves felt silent and grim as Avalon faded away. Once sad, pealing bells began to sound strangely comforting while the high walls of monasteries offered an alluring barrier from violence. Caught in the middle of this centuries-old war, a young High Priestess might be Avalon's last chance. Wise beyond her years and powerful like no other Priestess in her lifetime, Rowen had served the Goddess faithfully, forsaking her family and the company of her soulmate. When the Lady of the Lake asks for another sacrifice, it might be one too many for her scarred heart. How could she obey the Goddess without betraying Caddaric? Could she trust Eochaid, who embodied everything she despised and hated? Would she be able to fulfill her duties without losing her soul? Caddaric had been Rowen's companion in countless lives; but, now, they existed in different realms. Beautiful Rowen lived in the mortal world while sweet Caddaric remained in the sacred isle of Avalon, watching over her. Could he step aside to allow another man - a flesh and blood man - to become her protector? Eochaid had sworn to protect the Old Ways. The rude warrior never quite understood his faith yet his loyal heart belonged to the Goddess. A gorgeous, fiery High Priestess was not in his plans. He would risk his life to protect Rowen; but, would the Goddess safeguard his heart? Could he defend the bewitching maiden from himself? When stakes were so high that a simple mistake could cost their very world, a priestess, a Druid, and a warrior must learn to trust one another and the mysterious ways of the Goddess. Their success would save Avalon. Their failure would tear the island from the human realm forever, condemning it to oblivion. Failure was not an option. This is a standalone, historical/paranormal romance. Its mature themes - sexual violence, religion, and pagan rituals - might not be appropriate for audiences under 18.

The generation ship Peerless is suffering from a population explosion, and the only way to reduce the number of children is by drastically limiting the females' food intake. So population control consists of two barbaric choices: starvation, or suicide. Trying to find a better way, a biologist starts experimenting with animals, and stumbles on a technique that radically alters the reproductive cycle. But while the advantages are obvious, there's a major drawback: while it spares women from their old role - reproduction without hope of survival - it will essentially wipe out an entire sex. Amid the turmoil created by this new possibility, physicists on the ship are working to develop the technology they will need to complete the mission of the Peerless. One of the expedition's founders dreamed of discovering the Eternal Flame: a way to generate thrust without consuming any fuel at all. The inhabitants on board the Peerless have some hard choices to make - and the wrong one could spell extinction for their entire race.
