The poem from which BLACK UNDER derives its title opens with a resounding declaration: "I am black and black underneath." These words are an anthem that reverberates throughout Ashanti Anderson's debut short collection. We feel them as we navigate her poems' linguistic risks and shifts and trumpets, as we straddle scales that tip us toward trauma's still-bloody knife in one turn then into cutting wit and shrewd humor in the next. We hear them amplified through Anderson's dynamic voice, which sings of anguish and atrocities and also of discovery and beauty. BLACK UNDER layers outward perception with internal truth to offer an almost-telescopic examination of the redundancies--and incongruences--of marginalization and hypervisibility. Anderson torques the contradictions of oppression, giving her speakers the breathing room to discover their own agency. In these pages, declarations are reclamations, and joy is not an aspiration but a birthright.

'Things Fall Apart' tells the story of Okonkwo, an important man in the Igbo tribe in the days when white men were first on the scene. Okonkwo becomes exiled from his tribe, as a result of his pride and his fears, with tragic consequences.

There is a paradox about Africa: it remains a subject that attracts considerable attention

yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. The History of Africa redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

This is a key text for understanding the history of the great West African kingdom of Asante (now in Ghana). It is perhaps the earliest example of history writing in English by an African ruler. The result is an indispensably detailed account of the Asante

monarchy from the seventeenth to the nineteenth centuries. Context is provided by the inclusion of other writings by or about Agyeman Prempeh, together with four introductory essays by the world's leading scholars of Asante history.

“A story of surviving and thriving with passion, compassion, wit, and style.”—Maya Angelou “In America, we have a tradition of black writers whose autobiographies and memoirs come to define an era. . . . Buck may be this generation’s story.”—NPR A coming-of-age story about navigating the wilds of urban America and the shrapnel of a self-destructing family, Buck shares the story of a generation through one original and riveting voice. MK Asante was born in Zimbabwe to American parents: his mother a dancer, his father a revered professor. But as a teenager, MK was alone on the streets of North Philadelphia, swept up in a world of drugs, sex, and violence. MK’s memoir is an unforgettable tale of how one precocious, confused kid educated himself through gangs, rap, mystic cults, ghetto philosophy, and, eventually, books. It is an inspiring tribute to the power of literature to heal and redeem us.

This volume brings together leading scholars and practitioners to address the theory and practice of African-centered education. The contributors provide (1) perspectives on the history, methods, successes and challenges of African-centered education, (2) discussions of the efforts that are being made to counter the miseducation of Black children, and (3) prescriptions for—and analyses of—the way forward for Black children and Black communities. The authors argue that Black children need an education that

moves them toward leading and taking agency within their own communities. They address several areas that capture the essence of what African-centered education is, how it works, and why it is a critical imperative at this moment. Those areas include historical analyses of African-centered education; parental perspectives; strategies for working with Black children; African-centered culture, science and STEM; culturally responsive curriculum and instruction; and culturally responsive resources for teachers and school leaders.

They took everything from us; our families, our homes, and our dreams. But unfortunately, we survived. To them, they won the fourth Anglo Ashanti war, but to us, the war just began. My name is Bediako, the only son of my parents until I got to know that my two elder brothers died in the third Anglo Ashanti war, after which my mother followed the next year when I was only one year old. I have lived with my father ever since, but the rest of my family, I only know them by stories. All my life, I have lived in hiding with my father and few survivors of the third Anglo Ashanti war in a thick forest. When we thought the war was over, our enemies came all out on us, taking over our capital completely and burning it to the ground. Our forefathers fought so hard with the hope that someday, the black man will live without fear but with freedom. They did their part and laid their lives down for us, but our enemies are very strong-willed, and nothing could stop them from regrouping and coming back at us. When we wake up each morning, we feared two things, war, and slavery because that was the order of the

day. For over a century, we have stood up in battle, and no matter how big we win, they still keep coming for us. All our allies are now our enemies, but with that notwithstanding, we stand strong believing that our toil shall never be in vain. With our great motor, "If you kill a thousand, a thousand will rise," we will fight each day without giving up. There is a dream, and someone must live it. There is hope, and someone must keep it alive. Without sacrifice, change is inevitable. We surely will be attacked now and then, but we will always remain a stronghold. We don't give up, not even when we fall, because our children will step in and fight until victory is ours. The African dream must live on, and it is up to us to carry it further irrespective of the obstacles. Territories may be invaded, boundaries may be broken, treaties may be dishonored, but the African dream shall never be cut off.

The Asante World provides fresh perspectives on the Asante, the largest Akan group in Southern Ghana, and what new scholars are thinking and writing about

the "world the Asante made." By employing a thematic approach, the volume interrogates several dimensions of Asante history including state formation, Asante-Ahafo and Bassari-Dagomba relations in the context of Asante northward expansion, and the expansion to the south. It examines the role of Islam which, although extremely intense for just a short time, had important ramifications. Together the essays excavate key aspects of Asante political economy and culture, exemplified in kola nut production, the kente/adinkra cloth types and their associated symbols, proverbs, and drum language. The Asante World explores the Asante origins of Jamaican maroons, Asante secular government, contemporary politics of progress, governance through the institution of Ahemaa or Queenmothers, epidemiology and disease, and education in the twentieth and twenty-first centuries. Featuring innovative and insightful contributions from leading historians of the Asante world, this volume is essential reading for advanced undergraduates, postgraduates, and scholars concerned with African Studies, African diaspora history, the history of Ghana and the Gold Coast, the history of Islam in Africa, and Asante history. This is a collection of primary sources with introductions. Paper back edition is an abridge version of the more scholarly hardcover edition for the general reader and for students.

National Book Award winner M. T. Anderson returns to future Earth in a sharply wrought satire of art and truth in the midst of colonization. When the vuvv first landed, it came as a surprise to aspiring artist Adam and the rest of planet Earth — but not necessarily an unwelcome one. Can it really be called an invasion when the vuvv generously offered free advanced technology and cures for every illness imaginable? As it turns out, yes. With his parents' jobs replaced by alien tech and no money for food, clean water, or the vuvv's miraculous medicine, Adam

and his girlfriend, Chloe, have to get creative to survive. And since the vuvv crave anything they deem classic Earth culture (doo-wop music, still life paintings of fruit, true love), recording 1950s-style dates for the vuvv to watch in a pay-per-minute format seems like a brilliant idea. But it's hard for Adam and Chloe to sell true love when they hate each other more with every passing episode. Soon enough, Adam must decide how far he's willing to go — and what he's willing to sacrifice — to give the vuvv what they want.

In *It's Bigger Than Hip Hop*, M. K. Asante, Jr. looks at the rise of a generation that sees beyond the smoke and mirrors of corporate-manufactured hip hop and is building a movement that will change not only the face of pop culture, but the world. Asante, a young firebrand poet, professor, filmmaker, and activist who represents this movement, uses hip hop as a springboard for a larger discussion about the urgent social and political issues affecting the post-hip-hop generation, a new wave of youth searching for an understanding of itself outside the self-destructive, corporate hip-hop monopoly. Through insightful anecdotes, scholarship, personal encounters, and conversations with youth across the globe as well as icons such as Chuck D and Maya Angelou, Asante illuminates a shift that can be felt in the crowded spoken-word joints in post-Katrina New Orleans, seen in the rise of youth-led organizations committed to social justice, and heard

Author and scholar Robert Edgerton challenges the notion that primitive societies were happy and healthy before they were corrupted and oppressed by colonialism. He surveys a range of ethnographic writings, and shows that many of these so-called innocent societies were cruel, confused, and misled.

There I was, standing alone, unable to cry as I said goodbye to Sidime Laye, my best friend, and to the revolution that had opened the door of modernity for me--the revolution that had invented me. This book gives us the story of a quest for a childhood friend, for the past and present, and above all for an Africa that is struggling to find its future. In 1996 Manthia Diawara, a distinguished professor of film and literature in New York City, returns to Guinea, thirty-two years after he and his family were expelled from the newly liberated country. He is beginning work on a documentary about Sekou Toure, the dictator who was Guinea's first post-independence leader. Despite the years that have gone by, Diawara expects to be welcomed as an insider, and is shocked to discover that he is not. The Africa that Diawara finds is not the one on the verge of barbarism, as described in the Western press. Yet neither is it the Africa of his childhood, when the excitement of independence made everything seem possible for young Africans. His search for Sidime Laye leads Diawara to profound meditations on Africa's culture. He suggests solutions that might overcome the stultifying legacy of colonialism and age-old social practices, yet that will mobilize indigenous strengths and energies. In the face of Africa's dilemmas, Diawara accords an

important role to the culture of the diaspora as well as to traditional music and literature--to James Brown, Miles Davis, and Salif Keita, to Richard Wright, Spike Lee, and the ancient epics of the griots. And Diawara's journey enlightens us in the most disarming way with humor, conversations, and well-told tales.

Organized by major themes—such as creation stories, and resistance to oppression—this collection gather works of imagination, politics and history, religion, and culture from many societies and across recorded time. Asante and Abarry marshal together ancient, anonymous writers whose texts were originally written on stone and papyri and the well-known public figures of more recent times whose spoken and written words have shaped the intellectual history of the diaspora. Within this remarkably wide-ranging volume are such sources as prayers and praise songs from ancient Kemet and Ethiopia along with African American spirituals; political commentary from C.L.R. James, Malcolm X, Mary McLeod Bethune, and Joseph Nyerere; stirring calls for social justice from David Walker, Abdias Nascimento, Franz Fanon, and Martin Luther King, Jr. Featuring newly translated texts and ocuments published for the first time, the volume also includes an African chronology, a glossary, and an extensive bibliography. With this landmark book, Asante and Abarry offer a major contribution to the ongoing debates on defining the African canon. Author note:Molefi Kete Asanteis

One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, *Homegoing* follows the parallel paths of these sisters and their descendants through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation.

Ama Mazama: *The Ogunic Presence in Africology* is a critical analysis of the ideas of Ama

Mazama, a prominent and leading female theorist in Africology and African American Studies. Molefe Asante studies the creative and productive power of Mazama's intellectual work as it emerges from the personal wrestling with spiritual elements of consciousness as well as Mazama's attention to ancestral and perhaps epigenetic relationships to African spirituality in the making of theory and practice. Painting a picture of an activist intellectual concerned as much with mental as well as spiritual liberation, Asante demonstrates how and why Ama Mazama has evolved into one of the most popular Africologists in the field.

Zongos, wards in West Africa populated by traders and migrants from the northern savannahs and the Sahel, are a common sight in Ghana's Asante region where the people of these wards represent a dual-minority as both foreigners and Muslims in a largely Christian area, facing marginalisation as a result. Islam provides the people of the zongos with a common ground and shared values, becoming central to their identity and to their shared sense of community. This detailed account of Islamic lifeworlds highlights the irreducible diversity and complexity of 'everyday' lived religion among Muslims in a zongo community. Benedikt Pontzen traces the history of Muslim presence in the region and analyses three Islamic phenomena encountered in its zongos in detail: Islamic prayer practices, the authorisation of Islamic knowledge, and ardently contested divination and healing practices. Drawing on empirical and archival research, oral histories, and academic studies, he demonstrates how Islam is inextricably bound up with the diverse ways in which Muslims live it.

This long awaited and definitive work on gender in Asante during the early twentieth century provides a needed balance to emphasis on chiefship and external relations evident thus far in the historical scholarship on colonial and pre-colonial Asante. I am certainly looking forward to

using this book in every possible African studies course I teach. - Gracia Clark, Department of Anthropology, Indiana University By bringing women into the mainstream of Asante historiography, the authors move us towards that singularly elusive goal: the realization of a comprehensive Asante social history. - Ivor Wilks Professor Emeritus, African History Northwestern University In an admirable collaborative effort, Jean Allman and Victoria Tashjian focus on commodity production, family labor and reproduction in colonial Asante. The authors demonstrate how broader social and economic forces - cash cropping, trade, monetization of the economy, British rule, and Christian missions - recast the terms of domestic struggle in Asante and how ordinary men and women negotiated that ever shifting landscape. By centering their analysis on women, Allman and Tashjian recover the broader history of a society whose past has largely been understood in terms of the state, political evolution, trade, and the careers of political elites. Based on the recollections of Asante women and men born during the years 1900 to 1925 and on rich archival sources, *I Will Not Eat Stone* captures the resilience and tenacity of a generation of Asante women and their struggles in defense of social and economic autonomy.

Asante, Africa's celebrated "kingdom of gold," offers to the scholar and interested reader alike the most richly documented of all of Africa's historic societies. This history is embedded in and amplified by a vibrant oral tradition maintained by the Asante of today. The essays in this book, fifty in number, cover diverse aspects of the Asante experience from the creation of the kingdom in the later seventeenth century to the status of Asante in today's Ghana. In addition, these essays range over and discuss a variety of crucial aspects of Asante social and cultural life -- kinship, witchcraft, community, selfhood, gender, death, warfare, and the rest. These

essays span nearly half a century of the author's engagement with Asante and its people. The result is scholarship that is acknowledged to be at the cutting edge of the recuperation of Africa's long and still neglected past. More than that, however, this book offers much to the large international constituency of general readers who are fascinated by the story of the greatest and most enduring of African kingdoms, and to those among them who identify with Asante and its people, and draw sustenance and inspiration from their story.

The Victorian soldier in Africa re-examines the campaign experience of British soldiers in Africa during the period, 1874–1902 – the zenith of the Victorian imperial expansion – and does so from the perspective of the regimental soldier. The book utilises an unprecedented number of letters and diaries, written by regimental officers and other ranks, to allow soldiers to speak for themselves about their experience of colonial warfare. The sources demonstrate the adaptability of the British army in fighting in different climates, over demanding terrain and against a diverse array of enemies. They also uncover soldiers' responses to army reforms of the era as well as the response to the introduction of new technologies of war. Moreover, the book provides commentary on soldiers' views of commanding officers and politicians alongside assessment of war correspondents, colonial auxiliaries and African natives in their roles as bearers, allies and enemies. This book reveals new insights on imperial and racial attitudes within the army, on relations between soldiers and the media and the production of information and knowledge from frontline to homefront. It will make fascinating reading for students, academics and enthusiasts in imperial history, Victorian studies, military history and colonial warfare.

Engaging Modernity is the definitive history of Asante royal regalia and music ensembles. This second edition includes an ethnographical account of the 2014 Asanteman Grand Aduku festival that prominently features the complex heritage of the visual and the performing arts in motion. Ampene's contextual account illuminates the historical narratives the regalia objects render as they move through space and time, as well as the metalanguage embodied in the objects and the symbolic language they convey in Akanland. The book combines text with over three hundred color photographs to construct subtle and nuanced views of the material culture associated with Asante royal court in the twenty-first century. Engaging Modernity is an essential and a vast transdisciplinary resource for the humanities and beyond.

This book shows African heritage to be a mode of political organisation - where heritage work has a uniquely wide currency.

Forests of Gold is a collection of essays on the peoples of Ghana with particular reference to the most powerful of all their kingdoms: Asante. Beginning with the global and local conditions under which Akan society assumed its historic form between the fifteenth and seventeenth centuries, these essays go on to explore various aspects of Asante culture: conceptions of wealth, of time and motion, and the relationship between the unborn, the living, and the dead. The final section is focused upon individuals and includes studies of generals, of civil administrators, and of one remarkable woman who, in 1831, successfully negotiated peace treaties with the British and the Danes on the Gold Coast. The author argues that contemporary developments can only be fully understood against the background of long-term trajectories of change in Ghana.

Recounting the Asantes' hundred-year war with the British Empire--from 1807 to 1900--a saga

of massive resistance against overwhelming odds reveals a wealthy, sophisticated culture. For the first time, anthropologist Robert Edgerton tells the story of the Hundred-Year War—from 1807 to 1900, between the British Empire and the Asante Kingdom—from the Asante point of view. In 1817, the first British envoy to meet the king of the Asante of West Africa was dazzled by his reception. A group of 5,000 Asante soldiers, many wearing immense caps topped with three foot eagle feathers and gold ram's horns, engulfed him with a "zeal bordering on phrensy," shooting muskets into the air. The envoy was escorted, as no fewer than 100 bands played, to the Asante king's palace and greeted by a tremendous throng of 30,000 noblemen and soldiers, bedecked with so much gold that his party had to avert their eyes to avoid the blinding glare. Some Asante elders wore gold ornaments so massive they had to be supported by attendants. But a criminal being led to his execution - hands tied, ears severed, knives thrust through his cheeks and shoulder blades - was also paraded before them as a warning of what would befall malefactors. This first encounter set the stage for one of the longest and fiercest wars in all the European conquest of Africa. At its height, the Asante empire, on the Gold Coast of Africa in present-day Ghana, comprised three million people and had its own highly sophisticated social, political, and military institutions. Armed with European firearms, the tenacious and disciplined Asante army inflicted heavy casualties on advancing British troops, in some cases defeating them. They won the respect and admiration of British commanders, and displayed a unique willingness to adapt their traditional military tactics to counter superior British technology. Even well after a British fort had been established in Kumase, the Asante capital, the indigenous culture stubbornly resisted Europeanization, as long as the "golden stool," the sacred repository of royal power, remained in Asante hands. It

was only after an entire century of fighting that resistance ultimately ceased.
