From the acclaimed author of Joan Crawford comes a riveting and uncensored biography of Clark Gable. The archetypal male of his era, Gable was named "King of Hollywood" in 1938. But as David Bret reveals, the star was not quite who he seemed. One of Gable's best-kept secrets was his bisexuality. Bret recounts Gable's failed marriages to women who turned a blind eye toward his affairs with actors Earl Larimore and Rod La Rocque, among other men. Bret also reveals how a pseudo-scandalous paternity suit and the actor's wartime accomplishments were no more than elaborate publicity stunts created by studio chief Louis B. Mayer in order to exaggerate Gable's masculinity and heroism in the public eye. With passion and accuracy, Bret uncovers the truth behind one of Hollywood's biggest stars.

The Fire Islands

Tribune Marcus Venandus and his two trusted officers have gone through hell in their journey north from the Fire Islands and across the Sea of Grass. Arriving at Amatista in the Jeweled Hills, Marcus is looking forward to a much deserved rest in the home of his half-brother, but fate has other plans for the legionnaire. Soon he will be wishing he'd never heard of his brother's city. Surrounded by enemies and crippled by internal divisions, Amatista is already on its knees and ready to fall. Marcus must act decisively to save everything his brother has built, but without his beloved legions behind him, can Marcus and his friends survive their visit to the Jeweled Hills?

The French Foreign Legion is an extraordinary and unique army, specifically created for foreign nationals wishing to serve in the French Armed Forces, but commanded by French officers. For nearly two centuries, adventure seekers or men on the run from all around the globe have found a home in the Foreign Legion and shed blood for France. In this book, author Douglas Boyd has been given unrivalled access to the Legion to tell its story from its inception in the 1830s, when it was primarily used to protect and expand the French colonial empire during the nineteenth century, but it has also fought in almost all French wars including the Franco-Prussian War and both World Wars. The Legion is today known as an elite military unit whose training focuses not only on traditional military skills, but also on its strong esprit de corps.

Lesser Tribune Marcus Venandus, Legion officer exemplar, was exiled to the disease-ridden hell hole known as the Fire Islands as punishment for the failed political machinations of his father. While the days of the powerful witchdoctor kings throwing skeletal armies against the shields of the legion have faded into history, all is not right at the edge of the world. Unrest is boiling once again as long dead darkness seeps back into the islands. With the legion more concerned with its personal rivalries than with its duty, it will fall to Marcus and his small, highly disciplined, command to put the horrors of the past back in their graves and literally save Aquila from a fate worse than death.

As war consumes the nations of our world in the year 2021, Navy SEAL Jacob Hunter is sent on a mission to Syria to apprehend a crazed terrorist leader armed with dangerous biological weapons. It's a routine mission for a man who has spent the entirety of his military career fighting in what many have dubbed World War III, but his life is about to become everything but predictable. As their mission unravels around them, Hunter discovers a curious trinket that belies all rationality and our understanding of the universe, but he is drawn to it nonetheless, bewildered by its uniqueness. Unable to control his urges, Hunter touches it, and in a flash of brilliant light and intense pain, the team is no longer in contemporary Syria - but in Ancient Rome during the reign of the emperor Caligula. They stand dumbfounded, unable to comprehend the paradox they've created, but the bleak truth of reality soon overtakes their disbelief. The fact that they should not be there becomes obvious almost immediately, as does the thought that with every breath they take, everything history has worked so hard to achieve is at risk of unraveling. Staying alive suddenly becomes a secondary objective, superseded by the theory that their mere presence in Ancient Rome has caused irreparable damage to the timeline. This won't be an easy task for Hunter and his friends as they will quickly encounter numerous Roman figures straight from his old history books, each with their own agendas, schemes and machinations, including the Caesar himself,

who history remembers as little more than an insane tyrant who once tried to appoint his horse as the head of state...

Former Roman Legion Legate Gaius Marcus Linneus is reduced in rank to Centurion and banished by Emperor Marcus Aurelius to Tripolitania in Northern Africa. He finds his new command, a Shadow Legion, a reduced century of dishonored legionnaires, as much punishment as his dishonor. Castra-Augustus, a small fort in the southern Sahara, is under attack by an unseen enemy who takes soldiers at night, leaving only shredded clothing. Gaius discovers an ancient city carved from solid rock half-buried by shifting sands. When Rashid, who claims to be a Berber salt merchant, arrives just after two more legionnaires disappear, Gaius questions him and learns the name of the ancient city - Hamad Rus, home of the Kashites who once lived East of Eden. Their long-time enemies, the Inyosh, the undead Children of Lilith, had driven the Kashites west into Northern Africa millennia earlier. Casting a spell to destroy the Inyosh, the Kashites had instead changed them into formless wraiths that killed to obtain blood for their god, Nergal. Now, the Inyosh have awakened.

"Hard to put down . . . Any book written by Cragg and Sherman is bound to be addictive, and this is the first in what promises to be a great adventure series. The only thing between his Marines and safety was eighty-five miles of uncharted, waterless terrain and two thousand bloodthirsty savages with state-of-the-art weapons in their hands and murder on their minds. But the enemy didn't reckon on the warrior cunning of Marines' Marine Charlie Bass and the courage of the few good men who would follow him anywhere--even to death. . .

Vespasian's mission is the key move in a deadly struggle for the right to rule the Roman Empire. Before he completes his mission, Vespasian will face ambush in snowbound mountains, pirates on the high seas, and Sejanus's spies all around him. But by far the greatest danger lies at the rotten heart of the Empire, at the nightmarish court of Tiberius, Emperor of Rome and debauched, paranoid madman.

Appel: A Canadian in the French Foreign Legion is the first-hand account of the author's six years as a professional soldier during the 1990s, and his experience in the Legion's elite Groupe des Commandos Parachutistes (GCP). Joel Struthers recounts the dangers and demands of military life, from the rigours of recruitment and operational training in the rugged mountains of France, to face-to-face combat in the grasslands of some of Africa's most troubled nations. Told through the eyes of a soldier, and interspersed with humorous anecdotes, Appel is a fascinating story that debunks myths about the French Foreign Legion and shows it more accurately as a professional arm of the French military. Struthers provides insight into the rigorous discipline that the Legion instills in its young recruits, – who trade their identities as individuals for a life of adventure and a role in a unified fighting force whose motto is "Honour and Loyalty." Foreword by Col. Benoit Desmeulles, former commanding officer of the Legions 2e Régiment Étranger Parachutistes.

An exploration of how technology and best intentions collide in the heat of war A New York Times Book Review Editors' Choice In The Bomber Mafia, Malcolm Gladwell weaves together the stories of a Dutch genius and his homemade computer, a band of brothers in central Alabama, a British psychopath, and pyromaniacal chemists at Harvard to examine one of the greatest moral challenges in modern American history. Most military thinkers in the years leading up to World War II saw the airplane as an afterthought. But a small band of idealistic strategists, the "Bomber Mafia," asked: What if precision bombing could cripple the enemy and make war far less lethal? In contrast, the bombing of Tokyo on the deadliest night of the war was the brainchild of General Curtis LeMay, whose brutal pragmatism and scorched-earth tactics in Japan cost thousands of civilian lives, but may have spared even more by averting a planned US invasion. In The Bomber Mafia, Gladwell asks, "Was it worth it?" Things might have gone differently had LeMay's predecessor, General Haywood Hansell, remained in charge. Hansell believed in precision bombing, but when he and Curtis LeMay squared off for a leadership handover in the jungles of Guam, LeMay emerged victorious, leading to the darkest night of World War II. The Bomber Mafia is a riveting tale of persistence, innovation, and the incalculable wages of war.

From the acclaimed master of historical fiction comes an epic saga about a reluctant hero, the Roman Empire, and the rise of a new faith. Jerusalem and the Sinai desert, first century AD. In the turbulent aftermath of the crucifixion of Jesus, officers of the Roman Empire acquire intelligence of a pilgrim bearing an incendiary letter from a religious fanatic to insurrectionists in Corinth. The content of this letter could bring down the empire. The Romans hire a former legionary, the solitary man-at-arms, Telamon of Arcadia, to intercept the letter and capture its courier. Telamon operates by a dark code all his own, with no room for noble causes or lofty beliefs. But once he overtakes the courier, something happens that neither he nor the empire could have predicted. In his first novel of the ancient world in thirteen years, the best-

selling author of *Gates of Fire* and *Tides of War* returns with a gripping saga of conquest and rebellion, bloodshed and faith.

The remarkable story of the French Foreign Legion, its dramatic rise throughout the nineteenth century, and its most committed champion, General Hubert Lyautey. An aura of mystery, romance, and danger surrounds the French Foreign Legion, the all-volunteer corps of the French Army, founded in 1831. Famous for its physically grueling training in harsh climates, the legion fought in French wars from Mexico to Madagascar, Southeast Asia to North Africa. To this day, despite its reputation for being assigned the riskiest missions in the roughest terrain, the mystique of the legion continues to attract men from every corner of the world. In *At the Edge of the World*, historian Jean-Vincent Blanchard follows the legion's rise to fame during the nineteenth century--focusing on its campaigns in Indochina and especially in Africa--when the corps played a central role in expanding and protecting the French Empire. As France struggled to be a power capable of rivaling the British, the figure of the legionnaire--deadly, self-sacrificing, uncompromisingly efficient--came to represent the might and morale that would secure a greater, stronger nation. Drawing from rare, archival memoirs and testimonies of legionnaires from the period and tracing the fascinating career of Hubert Lyautey, France's first resident-general in Morocco and a hero to many a legionnaire, *At the Edge of the World* chronicles the Foreign Legion at the height of its renown, when the corps and its archetypically handsome, moody, and marginalized recruits became both the symbols of a triumphant colonialism and the stuff of legend.

An account of America's first battle of World War II describes the ordeal of American soldiers and civilians who defended Wake Island against a surprise Japanese attack just hours after Pearl Harbor.

Some places are too good to be true. Under a pink moon, there is a perfect little town not found on any map. In that town, there are quiet streets lined with pretty houses, houses that conceal the strangest things. After a couple years of hard traveling, ex-cop Mona Bright inherits her long-dead mother's home in Wink, New Mexico. And the closer Mona gets to her mother's past, the more she understands that the people of Wink are very, very different ... Based on a true story—P. T. Deutermann's *Trial by Fire* is a dramatic WWII novel of attack, survival, and triumph on board an aircraft carrier in the Pacific. It's March 1945 and the war in the Pacific is approaching its apocalyptic climax. The largest wartime armada ever assembled, Task Force 58, is closing in on Okinawa; once taken, it will finally put American B-29 bombers in comfortable range of the home islands of Japan—and victory. At the heart of the fleet are 14 Essex-class aircraft carriers, including the USS Franklin, known as "Big Ben"—a 27,000-ton behemoth, home to 3,600 crewmen and 100 aircraft. Just after dawn, while crewmen prepare for battle, a single Japanese Yokosuka D4Y bomber breaks through the clouds and drops a 500-pound semi-armor piercing bomb on Big Ben. The bomb rips through the wooden flight deck before exploding on the hangar deck, amidst two dozen fully fueled and armed fighter-bombers. The resulting explosion engulfs both the hangar deck and all the planes spotted on the flight deck. Bombs cook off and rockets howl in all directions, both on the flight deck and down in the hangar bays. Hundreds of men are forced to leap into the sea to escape the rivers of burning aviation gasoline, leaving the captain with only one third of his crew, of whom there are more dead, wounded and trapped men left onboard than able-bodied sailors. *Trial By Fire* is the gripping novelization of how, against all odds, the sailors of the Franklin were able to save their ship, after 3 agonizing days of battling the flames that ultimately claimed the lives of 832 men and injured 300 more. Readers will be astounded and humbled by the heroic actions of a few extraordinarily brave sailors in the face of unending catastrophe.

He was afraid -- not of the present or the future, but of the past. He was afraid of the thing tagged Reed Kieran, that stiff blind voiceless thing wheeling its slow orbit around the Moon, companion to dead worlds and silent space. . . .Hamilton was a thoughtful SF writer, and you can surely see that here: this is the tale of a man dead in space for centuries -- and revived by folks who approach an alien world a lot the way out nuttier environmentalists approach the defense of trees. There are creatures on this alien world, see, that look like people -- and act like chimpanzees. But chimps are animals, aren't they? Aren't they. . . ?

A postmodern masterpiece about fraud and forgery by one of the most distinctive, accomplished novelists of the last century. The Recognitions is a sweeping depiction of a world in which everything that anyone recognizes as beautiful or true or good emerges as anything but: our world. The book is a masquerade, moving from New England to New York to Madrid, from the art world to the underworld, but it centers on the story of Wyatt Gwyon, the son of a New England minister, who forsakes religion to devote himself to painting, only to despair of his inspiration. In expiation, he will paint nothing but flawless copies of his revered old masters—copies, however, that find their way into the hands of a sinister financial wizard by the name of Reckfall Brown, who of course sells them as the real thing. Dismissed uncomprehendingly by reviewers on publication in 1955 and ignored by the literary world for decades after, The Recognitions is now established as one of the great American novels, immensely ambitious and entirely unique, a book of wild, Boschian inspiration and outrageous comedy that is also profoundly serious and sad.

Threatened by a tide of invaders, the last of the Roman Auxiliaries are to leave Britain forever. But Aquila, a young legionnaire, chooses to stay behind, in order to join the fight to save his native land. The Lantern Bearers is the winner of the 1959 Carnegie Medal in Literature.
