As Gerald assists in a military tug-of-war, his thoughts are back home with his family, where personal vendettas threaten his own fortifications. Can he help wrest power back into English hands before the Welsh descend upon all he holds dear?

The trouble started when Howard Sykes came home from school and found the "goon" sitting in the kitchen. He said he'd been sent by Archer. But who was Archer? It had to do with the 2,000 words that Howard's author father had failed to deliver. It soon became clear not only that Archer wanted those words, but that his wizard siblings, Hathaway, Dillian, Shine, Torquil, Erskine, and Venturus, would also go to any lengths to get them. Although each wizard ruled a section of the town, he or she was a prisoner in it. Each suspected that one of them held the secret behind the words, and that secret was the key to their freedom. Which one of them was it? The Sykes family become

pawns in the wizards' fight to win their freedom, wrest control from one another, and fan out to rule the world. Diana Wynne Jones skillfully guides the reader through a riveting, twisty plot, with satisfying surprises at every amazing turn. An exciting science fiction adventure where, happily, nothing is what it first seems to be.

Newly promoted, Detective Sergeant William Warwick has been reassigned to the drugs squad. His first case: to investigate a notorious south London drug lord known as the Viper. But as William and his team close the net around a criminal network unlike any they have ever encountered, he is also faced with an old enemy, Miles Faulkner. It will take all of William's cunning to devise a means to bring both men to justice, a trap neither will expect, one that is hidden in plain sight . . . Filled with Jeffrey Archer's trademark twists and turns, Hidden in Plain Sight is the gripping next instalment in the life of William Warwick. It follows on from Nothing Ventured, but can be read as a standalone story.

A modern-day classic. This highly acclaimed adventure series about two friends desperate to save their doomed city has captivated kids and teachers alike for almost fifteen years and has sold over 3.5 MILLION copies! The human impact on Earth's climate is often treated as a hundred-year issue lasting as far into the future as 2100, the year in which most climate projections cease. In *The Long Thaw*, David Archer, one of the world's leading climatologists, reveals the hard truth that these changes in climate will be "locked in," essentially forever. If you think that global warming means slightly hotter weather and a modest rise in sea levels that will persist only so long as fossil fuels hold out (or until we decide to stop burning them), think again. In *The Long Thaw*, David Archer predicts that if we continue to emit carbon dioxide we may eventually cancel the next ice age and raise the oceans by 50 meters. A human-driven, planet-wide thaw has already begun, and will continue to impact Earth's climate and sea level for hundreds of thousands of years. The great ice sheets in Antarctica and Greenland may take more than a century to melt, and the overall change in sea level will be one hundred times what is forecast for 2100. By comparing the global warming projection for the next century to natural climate changes of the distant past, and then looking into the future far beyond the usual scientific and political horizon of the year 2100, Archer reveals the hard truths of the long-term climate forecast. Archer shows how just a few centuries of fossil-fuel use will cause not only a climate storm that will last a few hundred years, but dramatic climate changes that will last thousands. Carbon dioxide emitted today will be a problem for millennia. For the first time, humans have become major players in shaping the long-term climate. In fact, a planetwide thaw driven by humans has already begun. But despite the seriousness of the situation, Archer argues that it

is still not too late to avert dangerous climate change--if humans can find a way to cooperate as never before. Revealing why carbon dioxide may be an even worse gamble in the long run than in the short, this compelling and critically important book brings the best long-term climate science to a general audience for the first time. With a new preface that discusses recent advances in climate science, and the impact on global warming and climate change, *The Long Thaw* shows that it is still not too late to avert dangerous climate change—if we can find a way to cooperate as never before.

Heads You Win is international #1 bestseller Jeffrey Archer's most ambitious and creative work since *Kane and Abel*, with a final twist that will shock even his most ardent of fans. Leningrad, Russia, 1968: From an early age it is clear that Alexander Karpenko is destined to lead his countrymen. But when his father is assassinated by the KGB for defying the state, Alexander and his mother will have to escape Russia if they hope to survive. At the docks, they have an irreversible choice: board a container ship bound for America or one bound for Great Britain. Alexander leaves the choice to a toss of a coin... In a single moment, a double twist decides Alexander's future. During an epic tale, spanning two continents and thirty years, we follow Alexander through triumph and defeat as he sets out on parallel lives as Alex in New York and Sasha in London. As this unique story unfolds, both come to realize that to find their destiny they must face the past they left behind as Alexander in Russia.

An unputdownable story of murder, revenge and betrayal from international number one bestseller Jeffrey Archer.

(A standalone Heartbreaker Bay novel) There's no such thing as a little in love . . . Elle Wheaton's priorities: friends, career, and kick-ass shoes. Then there's the muscular wall of stubbornness that's security expert Archer Hunt—who comes before everything else. No point in telling Mr. "Feels-Free Zone" that, though. Elle will just see other men until she gets over Archer . . . which should only take a lifetime . . . There's no such thing as a little in lust . . . Archer's wanted the best for Elle ever since he sacrificed his law-enforcement career to save her. Their chemistry could start the next San Francisco earthquake and he craves her 24/7, but Archer doesn't want to be responsible for the damage. The alternative? Watch her go out with guys who aren't him . . . There is such a thing as . . . As far as Archer's concerned, nobody is good enough for Elle. But when he sets out to prove it by sabotaging her dates, she gets mad—and things get hot as hell. Now Archer has a new mission: prove to Elle that her perfect man has been here all along . . .

In this fast-paced historical thriller, #1 New York Times bestselling author David Baldacci introduces Archer, a WWII veteran forced to investigate a small-town murder -- or risk returning to prison. It's 1949. When war veteran Aloysius Archer is released from Carderock Prison, he is sent to Poca City on parole with a short list of do's and a much longer list of don'ts: do report

regularly to his parole officer, don't go to bars, certainly don't drink alcohol, do get a job--and don't ever associate with loose women. The small town quickly proves more complicated and dangerous than Archer's years serving in the war or his time in jail. Within a single night, his search for gainful employment--and a stiff drink--leads him to a local bar, where he is hired for what seems like a simple job: to collect a debt owed to a powerful local businessman, Hank Pittleman. Soon Archer discovers that recovering the debt won't be so easy. The indebted man has a furious grudge against Hank and refuses to pay; Hank's clever mistress has her own designs on Archer; and both Hank and Archer's stern parole officer, Miss Crabtree, are keeping a sharp eye on him. When a murder takes place right under Archer's nose, police suspicions rise against the ex-convict, and Archer realizes that the crime could send him right back to prison . . . if he doesn't use every skill in his arsenal to track down the real killer.

It Was Going to Be The Perfect Wedding - Until He Showed Up... The Age of Innocence centers on an upper-class couple's impending marriage, and the introduction of the bride's cousin, plagued by scandal, whose presence threatens their happiness. Though the novel questions the assumptions and morals of 1870s New York society, it never develops into an outright condemnation of the institution. The novel is noted for Wharton's attention to detail and its accurate portrayal of how the 19th-century East Coast American upper class lived, and the social tragedy of its plot. Wharton was 58 years old at publication; she had lived in that world and had seen it change dramatically by the end of World War I. The Age of Innocence was a softer and more gentle work than The House of Mirth, set in the time of her childhood. Wharton wrote, ""I found a momentary escape in going back to my childish memories of a long-vanished America..." Get Your Copy Now.

NEW YORK TIMES BESTSELLER “I come from a family forged by tragedies and bound by a remarkable, unbreakable love,” Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In *Beautiful Things*, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.

International bestselling author Jeffrey Archer returns with a triumphant historical novel, *Paths of Glory*. *Paths of Glory*, is the story of such a man—George Mallory. Born in 1886, he was a brilliant student who became part of the Bloomsbury Group at Cambridge in the early twentieth century and served in the Royal Garrison Artillery during World War I. After the war, he married, had three children, and would have spent the rest of his life as a schoolteacher, but for his love of mountain climbing. Mallory once told a reporter that he wanted to climb Mt. Everest, "because it is there." On his third try in 1924, at age thirty-seven, he was last seen four hundred feet from the top. His body was found in 1999, and it remains a mystery whether he and his climbing partner, Andrew Irvine, ever reached the summit. In fact, not until you've turned the last page of Archer's extraordinary novel will you be able to decide if George Mallory should be added to that list of legends, while another name would have to be removed.

Arthur Machen (1863 – 1947) was a Welsh author and renowned mystic during the 1890s and early 20th century who garnered literary acclaim for his contributions to the supernatural, horror, and fantasy fiction genres. His seminal novella “The Great God Pan” (1890) has become a classic of horror fiction, with Stephen King describing it as one of the best horror stories written in the English language. Other notable fans of his gruesome tales include William Butler Yeats and Arthur Conan Doyle; and his work has been compared to that of Robert Louis Stevenson, Bram Stoker, and Oscar Wilde. “The White People” is a decidedly Lovecraftian supernatural short story presented in the form of a young girl's diary, within which she recounts her increasingly profound experiments with witchcraft. A fantastic example of classic supernatural fiction, Machan's “The White People” is not to be missed by lovers of the genre and collectors of classic macabre literature. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new biography of the author.
