Where have all the parents gone? What happened to those who, like my grandmother,

treated parenting as the most important human responsibility and the planet's oldest profession? My grandmother, if she were living, would not recognize today's parents. Something is amiss. We reside in a country that places higher demands on passing a driver's education course than it does on procreation and raising children. We offer classes like Lamaze to prepare parents for the birth of a child but have no such courses to equip parents for being able to raise a child. The way we view parenting and subsequently raise children is absurd. So, I wrote this book because I believe my grandmother would have wanted me to say something. I wrote this book because I'm concerned that if we wait much longer to outline a process to help our future citizens, we won't be able to repair or recondition the fabric of our nation. I wrote this book because I believe all children need and deserve great parents.

The story of *The Lion King* has entered the pantheon of cultural mythology, as has its iconic music. In revisiting this tale, the filmmaking team set off for an adventure of a lifetime: an expedition across the southern portion of Kenya in Africa. These seasoned filmmakers gathered reference photographs, scans, and other materials to apply to the digital moviemaking process and in turn were immersed in the nuances of the real environment. Once back at the studio, they utilized common filmmaking tools with state-of-the-art virtual reality (VR) technology and new, ultrafast rendering technologies to create a "virtual production," a concept they pushed further than it had ever been before. *The Art and Making of The Lion King* documents this captivating journey and closes the circle with a discussion on a modern-day

A National Book Award nominee! Returning to the same era of his "In a Dark Wood", Cadnum's majestic novel--part mystery, part history--chronicles the pageantry and brutality of the Crusades under King Richard. Edmund, a young apprentice, is awaiting punishment as a counterfeiter when a knight intervenes on his behalf--and compels Edmund to join Richard Lionheart's forces in the Holy Land. There, amidst the savagery of the twelfth-century Crusades, Edmund learns both courage and compassion, and discovers that cruelty is sometimes considered the will of Heaven. Set in medieval England and the war-torn shores of the Middle East, Cadnum's tale weaves together a rich tapestry of storms at sea, the brutality of hand-to-hand combat, and one of the classic horse and lance battles in recorded history--the Battle of Arsuf.
