Succulents and cacti make the perfect indoor plant pets. Inexpensive to purchase, easy to care for and resilient to the neglect of even the laziest of gardeners, growing these plants is virtually foolproof. Often small in size these plants are the ideal green solution for the city dweller, who has little time and only a small amount of space. However, there are so many different cultivars of cacti and succulents to collect – each with their own needs – that the watering, feeding, potting and general care can differ from plant to plant. The Little Book of Cacti and Other Succulents features a directory of 60 of the most popular varieties of cacti and succulents to own. The entry for each of the 60 plants is accompanied by a photograph and all the essential requirements for that variety in an easy-to-follow breakdown. This includes details on size, growth, spread and flowering, along with any extra tips on care for that specific plant. When given the right care, your cacti and succulents will thrive and grow. Additionally this book includes a general care section on everyday maintenance and potting, along with tips on how to deal with common pests and disease. This is a must-have guide for all cacti and succulent lovers, who already own or want to start a collection of these hardy little plants.

Binding, folding, and decorating techniques to create beautiful artists' books and more From heirloom memories to unique journals, albums, and altered books—or simple tag books for your kids—Bookcraft contains all the skills you will ever need. Books are a central part of life, and have been with us for around 2,000 years. Although most books we use are produced commercially, many of us are drawn to the book form in its various guises, and are interested in exploring how to make books of our own, whether as a vehicle for telling stories, as scrapbooks, or as notebooks and journals. This guide provides the essential ingredients for designing and making your own books, from simple binding and finishing techniques to complex complete products. Projects are designed to suit a variety of skill levels from beginner to advanced, and use a step-by-step approach to learning the necessary skills. Each project begins with basic techniques and progresses through to thought-provoking applications of those techniques. Each technique includes an example of a finished book that fully and beautifully utilizes the methods described by the techniques. This book explores more experimental binding and page treatment techniques, and has a comprehensive gallery of ideas outlining the skills and materials needed to apply techniques often reserved for professionals.

Discover the history of witches, experience the healing properties of crystals and learn simple daily incantation that will help you to shape your destiny. Witchcraft has existed since the days of Greek mythology and is now practiced as widely as other modern pagan religions. Everybody wants to write a book, but most authors fall short. If only there was a clear, systematic, structured approach to crafting bestsellers that would... help you organize your creative ideas unravel the messy writing process save months of editing and revision increase engagement and get more book reviews keep readers glued to each page with dramatic tension impress your mom (and everyone else) with your genius When I started out as an author, I read every book on craft, plotting and writing techniques I could find - but they left me more confused than ever. I ended up quitting, and spent a decade as a developmental editor while earning my PhD in literature. I was terrified to publish. What if nobody likes it? What if I'm a failure? How do I know a book is good before I publish? I needed a way to identify weak, amateur writing, and replace it with prose that enthralled readers. I wanted to take a good story, and turn it into a riveting manuscript. Rather than give up the quest forever, positing Great Writing up to some mysterious, invisible source I could never achieve, I developed my own framework for writing, which has allowed me to write and publish several dozen books over the past few years. What began as a simple guide to plotting became a detailed, chapter-by-chapter cheatsheet, and some brand new techniques on adding intrigue, suspense and conflict to cast a spell over readers. The truth is, there are things that great books have in common - and even more informative, there are definitely signs of weak or bad writing, which can be easily identified and avoided. Based on the lessons I've learned from editing over a hundred books and studying nearly universal writing mistakes, as well as feedback on my writing

tutorials (with over 2 million views), I've reverse-engineered a structured approach to writing that will help you quickly map out your book, write it well the first time, and avoid months of painful revision. These simple, easy to follow rules, tactics and cheatsheets to help you easily improve your writing craft and unleash your inner genius, without a nervous breakdown or a drinking problem. You'll end up with a deeper understanding of the craft, and a more marketable book that readers can't put down. This book will help you to... Write compelling books readers love Create dynamic characters readers will root for Plot your book without stifling your creativity Hit crucial turning points to keep readers engaged Improve pacing & backstory without info-dumps Increase stakes, drama and conflict Double your word count and stay motivated Avoid common amateur mistakes & lazy writing Heighten intrigue & suspense to keep readers invested How to know your book will sell before you write it 3 types of conflict you need in every scene Why readers stop reading and how to fix it Simple plotting and outlining strategies so you can write faster with less procrastination Revise and edit your first draft and identify problems fast Save thousands of dollars on editing and increase book sales Ready to move from the slush pile to the bookshelf? Take your writing... ? from contrived to compelling ? from rubbish to riveting ? from mediocre to masterful Scroll up and improve your writing today! ? BONUSES INCLUDED: a guided 12-week plan to writing your best book yet!
