

## The Louise Parker Method Lean For Life

NOW A NETFLIX ORIGINAL SERIES The instant New York Times and #1 international bestseller. "You should read Behind Her Eyes...It's bloody brilliant." —Stephen King "An eerie thriller...Pinborough keeps us guessing about just who's manipulating whom – until the ending reveals that we've been wholly complicit in this terrifying mind game." —The New York Times Book Review Why is everyone talking about the ending of Sarah Pinborough's Behind Her Eyes? Louise is a single mom, a secretary, stuck in a modern-day rut. On a rare night out, she meets a man in a bar and sparks fly. Though he leaves after they kiss, she's thrilled she finally connected with someone. When Louise arrives at work on Monday, she meets her new boss, David. The man from the bar. The very married man from the bar...who says the kiss was a terrible mistake, but who still can't keep his eyes off Louise. And then Louise bumps into Adele, who's new to town and in need of a friend. But she also just happens to be married to David. And if you think you know where this story is going, think again, because Behind Her Eyes is like no other book you've read before. David and Adele look like the picture-perfect husband and wife. But then why is David so controlling? And why is Adele so scared of him? As Louise is drawn into David and Adele's orbit, she uncovers more puzzling questions than answers. The only thing that is crystal clear is that something in this marriage is very, very wrong. But Louise can't guess how wrong—and how far a person might go to protect their marriage's secrets. In Behind Her Eyes, Sarah Pinborough has written a novel that takes the modern day love triangle and not only turns it on its head, but completely reinvents it in a way that will leave readers reeling.

Artist Tim Pond's lively and engaging book fuses science with art, providing the reader with the skills, techniques and knowledge they need to create sketches of animals filled with life and movement. There are some very good books written on life drawing, yet when it comes to drawing wildlife, illustrators and artists often revert to working solely from photographs, which can leave the artwork looking lifeless and flat. In this inspirational book, artist Tim Pond shows you how to observe and draw animals in zoos, farms, wildlife parks and aquariums, teaching you some fascinating facts about the animals along the way and ultimately bringing you closer to nature. One of the challenges with sketching wildlife is that animals are constantly moving. However by having some basic understanding of the biology of an animal, such as knowing that a duck has a cheek or that a cheetah can't retract its claws, can influence how you might sketch them, and results in a lively drawing that captures the form, movement and ultimately the spirit of the animal in question. Combining scientific knowledge with expert practical guidance is key to creating successful drawings of animals, and Tim's ability to convey this in a way that is both accessible and engaging makes this a unique and inspiring guide suitable for artists of all levels. Tim's book takes you on a journey of discovery that will enable you to develop the skills, techniques and knowledge you need to sketch a broad range of wildlife, encompassing mammals, reptiles, birds, fish and insects. It includes quick, gestural sketches as well as linear and tonal studies, in a variety of media - pencil, pen and ink, and watercolour. There are numerous studies comprising how to represent the different patterns of animals' coats, how to capture the plumage of an exotic bird in watercolour, and how to sketch a hippo's hooves, as well as guidance on tools, materials and basic techniques. The result is a treasure chest of fascinating facts, studies, sketches and annotated drawings that will not fail to ignite your enthusiasm for drawing animals from life.

This is a book about practicing, learning, and sharing our experiences with the Lean methodology and the Toyota Production System. Doctors don't "implement medicine," they practice medicine. Lawyers don't "implement cases," they practice law. Shouldn't Lean facilitators, consultants, managers, and the like, also "practice Lean?" When most of us start with Lean, the practices and principles are new. We might struggle to make change happen. I know I did. Our initial clumsy efforts hopefully turn into proficiency and mastery over time. We shift from "doing Lean" to "being Lean" and teaching others how to be Lean. This book is a collection of honest and unvarnished first hand stories about learning, failing, and getting better at leading Lean transformation efforts. What mistakes have been made? What are the lessons learned? How do we "Plan, Do, Study, Adjust" our way to more effective Lean transformation models? Proceeds from the book will be donated to the non-profit Louise H. From the award winning author of A Soft Place to Land and A Place at the Table comes a tale of three vibrant and unique Southern women—Louise, Caroline, and Missy—as their lives intersect in unexpected and extraordinary ways. From the outside, Louise Parker seems like a proper Southern matron. But inside, Louise seethes. She's thwarted by her seemingly perfect husband, frustrated with her talented but rebellious daughter, scarred by her philandering father, and exasperated by her unstable mother. Louise simply doesn't know how to stop playing the role she's been starring in for her entire life. A gifted actress, Louise's daughter Caroline can make any character seem real when she takes the stage. But Caroline is lost when it comes to relationships, especially when dealing with her mother. When Caroline's young, handsome drama teacher seduces her, she can't resist. But her forbidden affair will lead Caroline to a different kind of stage, with a new audience. Missy loves Jesus nearly as much as she misses her father, a part-time minister who deserted his family when Missy was three. She accompanies her mother to work as a maid at the Parker residence, for two reasons: to help her mother to clean the house and to save the Parkers' irreverent son Charles. By turns hilarious and poignant, this is a richly compelling debut novel of family, friendship, and folly.

A shocking look at the link between sugar, inflammation, and a host of preventable chronic diseases—perfect for fans of bestselling author Gary Taubes' The Case Against Sugar—from leading nerve surgeon Dr. Richard Jacoby. What Grain Brain did for wheat, this book by a leading peripheral nerve surgeon now does for sugar, revealing how it causes

crippling nerve damage throughout the body—in our feet, organs, and brain—why sugar and carbohydrates are harmful to the body's nerves, and how eliminating them can mitigate and even reverse the damage. If you suffer from ailments your doctors can't seem to diagnose or help—mysterious rashes, unpredictable digestive problems, debilitating headaches, mood and energy swings, constant tiredness—nerve compression is the likely cause. Sugar Crush exposes the shocking truth about how a diet high in sugar, processed carbohydrates, and wheat compresses and damages the peripheral nerves of the body, leading to pain, numbness, and tingling in the hands and feet, along with a host of related conditions, including migraines, gall bladder disease, and diabetes. Over the years, Dr. Richard Jacoby has treated thousands of patients with peripheral neuropathy. Now, he shares his insights as well as the story of how he connected the dots to determine how sugar is the common denominator of many chronic diseases. In Sugar Crush, he offers a unique holistic approach to understanding the exacting toll sugar and carbs take on the body. Based on his clinical work, he breaks down his highly effective methods, showing how dietary changes reducing sugar and wheat, coinciding with an increase of good fats, can dramatically help regenerate nerves and rehabilitate their normal function. Sugar Crush includes a quiz to assess your nerve damage, practical dietary advice, and the latest thinking on ways to prevent and reverse neuropathy. If you have diabetes, this essential guide will help you understand the dangers and give you the tools you need to make a difference beyond your doctor's prescriptions. If you have the metabolic syndrome or prediabetes, or are just concerned about your health, it will help you reverse and prevent nerve damage.

In the stunning conclusion to award-winning author Jewell Parker Rhodes's mystery trilogy begun in Voodoo Dreams and Moon, Dr. Marie Lavant, descendent of Voodoo queen Marie Laveau, must confront a murderous evil in New Orleans. Dr. Marie Levant aka Leveau, great-great granddaughter of Marie Laveau, has achieved fame and notoriety for saving New Orleans from the wrath of a vampire. Now she's taking a break from the city, heading up the highway to DeLaire. She doesn't know this backwater town, but an elderly woman called Nana has been expecting Marie to arrive and save her and others in this God-forsaken place from sickness and death. Yet all of Marie's powers can't bring life back to the corpses she finds in a house by the road. Nor can she force those who know how they died to say so or to confess. Were the crimes committed by shape-shifters, vampires, and ghosts—or by living men and women? And even as Marie searches for answers, a hurricane threatens to break the levees of Louisiana and cause unimaginable destruction. Jewell Parker Rhodes blends magic and man-made evil and weaves New Orleans's past and present into a spine-tingling mystery that is masterfully crafted and deeply haunting.

Australian and New Zealand edition THE NO. 1 BESTSELLER IN AUSTRALIA AND THE UK BASED ON THE LATEST GROUNDBREAKING SCIENCE THE ULTIMATE GUIDE FROM THE CREATOR OF THE 5:2 – HOW TO COMBINE RAPID WEIGHT LOSS AND INTERMITTENT FASTING FOR LONG-TERM GOOD HEALTH AN EXCITING NEW PROGRAMME BUILT AROUND A MORE MANAGEABLE 800-CALORIE FAST DAY Six years ago, Dr Michael Mosley started a health revolution with The 5.2 Fast Diet, telling the world about the incredible power of intermittent fasting. In this book he brings together all the latest science (including a new approach: Time Restricted Eating) to create an easy-to-follow programme. Recent studies have shown that 800 calories is the magic number when it comes to successful dieting – it's an amount high enough to be manageable but low enough to speed weight loss and trigger a range of desirable metabolic changes. Depending on your goals, you can choose how intensively you want to do the programme: how many 800-calorie days to include each week, and how to adjust these as you progress. Along with delicious, low-carb recipes and menu plans by Dr Clare Bailey, The Fast 800 offers a flexible way to help you lose weight, improve mood and reduce blood pressure, inflammation and blood sugars. Take your future health into your own hands. 'I lost 16kg in the first 8 weeks and then another 6kg. I've never been healthier.' Denise, 51

Hi there, person judging this book by the cover. (Are there other ways to buy a book?) Since it caught your eye, maybe you have a nagging sense that you're supposed to be doing more with your life-but no idea how to figure it out, since you live in an overwhelming world. I had that problem, too, and did all the wrong things to fix it. Then, I learned what people regret most when

they die, and studied what the best thinkers of humanity have said about how to not waste your brief blip on Earth. Turns out, there are only 7 questions that matter in life-but most of us never ask them, and live far beneath our potential as a result. If you read this book and answer these 7 questions for yourself, you'll find purpose, develop confidence, expand your income (maybe quadruple it, like I did), and enjoy countless other benefits. If you do this and end up on your death bed with regrets in 80 years, I'll personally return your money.

There was no one remotely like him on television -- and the public loved him.

When Hanna Sillitoe appeared on Dragons' Den, every Dragon offered her investment. In her first book, Radiant, she shares the lifestyle changes and recipes that transformed her life. For more than 20 years, Hanna suffered from severe psoriasis, eczema and acne - sometimes so badly that the only way to stop herself scratching was to wrap her body in clingfilm. When her doctor suggested the only remaining course of treatment was chemotherapy, she took matters into her own hands and cured herself through a change in diet and lifestyle. Beginning with a juice cleanse, Hanna takes you through a range of delicious, skin-loving meals including Turmeric and Ginger Chia Pudding, Immunity Ramen, Beet Burgers and even Clean Tiramisu. She also shows you how to create homemade beauty products, including an Avocado and Honey Facemask and Rosemary and Lemon Salt Scrub, which have gone on to inspire the eponymous skincare range for which she secured funding on BBC 2's Dragons' Den. Uplifting and inspiring for those who have been searching for the answer to seemingly unsolvable skin complaints, Hanna's programme is also suitable for those simply looking to improve their overall health and complexion. It's a recipe for good health and clear skin, from the inside out. Hanna is also the author of Skin Healing Expert: Your 5 pillar plan for calm clear skin
